CATARRH IN CHILDREN

For over two years my little girl's life was made miserable by a case of Catarrh. The discharge from the nose was large, constant and very offensive. Her eye became inflamed, the lids swollen, in very painful. After trying various remedies, I gave her [REDACTED]. The first hot [REDACTED] aggravated the disease, but the symptoms soon abated, and in a short time she was cured.

Dr. L. B. FITCHES, Mackey, Ind.

DRAWING TO A GLIMAX

Hawaiian Question the Sole Topic of Discussion.

THE COMMISSIONERS ARRIVE TO-DAY

Cleghorn, of San Francisco, the Uncle of the Heir Apparent, Has Not Yet Shown His Hand—Great Strife Does Not Intend to Make a Protest.

WASHINGTON, Feb. 1.—Diligent efforts have been made this morning to find Mr. John M. Cleghorn, of San Francisco, who was expected to arrive here last night to lay before President Harrison the claims of his niece Princess Kaiulani, to the Hawaiian throne.

The registers of all the prominent hotels were searched for his name, but without success, nor has any word been received from him indicating that he has arrived.

If Mr. Cleghorn has arrived here he has avoided the public hostilities. According to the Chicago despatch, as soon as the news of the revolt became known Mr. Cleghorn packed his grip and took the first train for Washington with the result that he arrived in Chicago 48 hours ahead of the Commissioners and was due at the Capital that night in advance of them.

His purpose is to present the claims of his niece to the United States Government before the Commission appointed by the Provisional Government arrives at the National Capital. He is the brother of A. S. Cleghorn, whose deceased wife was a sister of the deposed Queen Liliuokalani and whose daughter, the heir apparent, is at a fashionable school in England.

He will lay before President Harrison the claims of his niece and will plead for the establishment of a protectorate with the Princess as Queen.

"This girl," he said, "educated in England, will be much more satisfactory to the foreign element in the Sandwich Islands than Queen Liliuokalani was. It will be better for all concerned if the deposed Queen be kept from the throne. She hates foreigners and if her demands had found favor it would only have been a matter of a few years before she would have confiscated the property of aliens. She did wrong in endeavoring to get the Cabinet to sign a new Constitution which would disfranchise foreigners.

"I do not think the provisional government will last long, for I believe that the United States will establish a protectorate instead of annexing the islands. England will certainly not permit annexation without making a vigorous protest and perhaps a great deal of trouble. If the United States will not see the justice and right of the claims I will lay before his Majesty, I shall go to England and appeal to Great Britain.

"The Princess Kaiulani is a strong brained woman, capable of ruling Hawaii. She is receiving the best of education, with the expectation of some day sitting on the Hawaiian throne.

The commissioners of the revolutionary government in Hawaii will not reach Washington until after the Cabinet meeting this afternoon, and will not be able to see the Secretary of State before tomorrow morning.

The telegram from Berlin to the effect that if the United States should annex Hawaii Germany might demand a night compensation elsewhere, is discussed with much interest in official circles.

But one construction can be placed upon it, and that is that Germany will insist upon the United States retiring from the joint control with Germany and England of the Samoan Islands.

This is the only place where Germany and the United States have the least interests in common, and, of course, the only place where Germany's demand for "night compensation" would have any footing.

The situation of affairs in Samoa has been the subject of considerable correspondence between this country and Germany for several months past. Cedar-krautz and Von Pilsener, respectively chief justice and treasurer for Samoa, appointed under the tripartite agreement, have proved unsatisfactory, and the appointment of a successor to Cedar-krautz has already been decided upon.

There was a time, a few weeks ago, when Samoan matters took on quite a serious phase, but a turn for the better has occurred, and all is now peaceable in that region.

It may be stated that the disposition of the Hawaiian question will not in any wise depend upon either England's attitude with reference to Hawaii or Germany's attitude toward Samoa.

The interests of the United States in Samoa are relatively like those of Germany in Hawaii, being comparatively national except for harbor privileges at Pago Pago. If the right of the United States to the undisputed possession of that harbor and the privilege of maintaining a naval station there were confirmed in a satisfactory manner, it is indicated that this country might be induced to forego his share in the arrangement to govern the islands, which so far, it is alleged, proved not altogether satisfactory.

THE WIGGER-KILLEEN DISPUTE.

A Claim That the Bishop Has Lost His Case—The Priest's Statement.
RONDOUT, N. Y., Feb. 3.—The Rev. Thomas Killeen, of Bayonne, whose charges against Bishop Wigger, of the Newark diocese, have attracted much attention in Catholic circles, was the guest of the Rev. R. L. Bursnell, D. D., at St. Mary's rectory yesterday. He came here to show Dr. Bursnell a letter which he had received from Mgr. Sattoli, sustaining the charges he made against Bishop Wigger.

The letter was to the effect that St. Thomas' Church in Bergen Point will positively be reopened, and that if the Germans there cannot support St. Henry's Church it will be assigned either to St. Thomas' or to St. Mary's in Bayonne. The letter also states that an English speaking priest must be appointed pastor of St. Thomas' Church.

JERSEY CITY, Feb. 3.—Father Killeen says that he has no knowledge that Monsignor Sattoli has decided the dispute between him and Bishop Wigger one way or the other.

The decision must first come from Sattoli, and when it does come, it will be made public throughout the United States and Bishop Wigger will know it no sooner than anyone else. He thinks that the stories published regarding the decision come from the University at Washington.

TO REPEAL THE SHERMAN ACT.

New York Congressmen Will Work Hard For the Bacon Bill.

WASHINGTON, Feb. 3.—A dozen Democratic Congressmen from New York State held an informal meeting at Chamberlain's hotel last evening to devise a plan of procedure when the silver question shall again come before the House. Representatives Covel and Co. are Chairman and the subject was informally discussed for about two hours.

It was practically the unanimous conclusion of those present that the Bacon bill, which provides for repealing the Sherman Act, should be urged for passage. Representative Bacon, who is Chairman of the Committee on Banking and Currency, will have charge of the bill upon the floor.

Representatives Coakran and Tracy were prevented from attending the meeting, but sent assurances that they would heartily support and endorse any plan of action that might be adopted by their colleagues.

It was decided that every means known to parliamentary practice should be employed to secure favorable action upon the Bacon bill, which is substantially the same as the Andrews bill.

A BANK FAILS FOR \$500,000.

The First National of Little Rock Suspends Because of Fraud.

LITTLE ROCK, Ark., Feb. 3.—The First National Bank of this city is not open for business to-day. Its liabilities are understood to be over \$500,000.

About ten days ago the bank passed through a terrible crisis. Through the timely arrival and assistance of Col. Logan H. Root, its former president, confidence was again restored, and the public had begun to think the institution as solvent as ever.

The cause that led to the suspension of the bank was the issuance of fraudulent papers by the former officers of the bank to the amount of several hundred thousand dollars.

BLAINE'S WIDOW TO WRITE HIS LIFE.

She Will Have Gail Hamilton as Her Literary Collaborator.

WASHINGTON, Feb. 3.—Mrs. James G. Blaine and Gail Hamilton intend to write the life of James G. Blaine.

The announcement made through the press of the country by Mrs. Blaine that no authorized biography or life of Mr. Blaine had ever been prepared, and none would be till she authorized it, was simply in anticipation of the work upon which she is about to enter.

A short time before Mr. Blaine's death he was talking to a friend about his life, his writings especially, and the ability of members of his immediate family, when reference was made to "Gail" Hamilton's pen.

"She is a brilliant woman," said Mr. Blaine, "but my wife can wield as trenchant a pen as any woman I ever saw. She is a genius, too, and has an especial ability in the preparation of manuscript. She has rendered me great service in my work. If Mrs. Blaine ever undertakes to write the history of my life she will do it well."

It is stated that Mr. Blaine prepared a great deal of the matter from which his biography is to be written.

FRANKFURT'S NEW ALICE DEPUTIES.

PANAMA, Feb. 3.—The new inquiry instituted by M. Franquetville, examining magistrate in the Panama case, concerning the 104 Deputies mentioned in Arton's papers. The evidence against these men, which was inconclusive, is said to have been reinforced by papers discovered and seized within the last few days.

A Flood Feared at Pittsburg.

PITTSBURGH, Feb. 3.—The outlook for a flood in the rivers here is more threatening than at any time this winter. It has been raining for 48 hours, and the water is rising at all headwater points. Rivermen and owners of property are considerably alarmed, and look for a rise to the danger line, at least.

Mrs. Whitney Not Suffering from Cancer.

New York, Feb. 3.—The report that Mrs. W. C. Whitney was suffering from cancer is emphatically denied at the house. Heart trouble, it is said, is the cause of her indisposition. Although she is very ill, her condition is more favorable this morning.

Xenia Paper Mills Destroyed.

XENIA, O., Feb. 3.—The works of the Xenia Paper Mill Co., which recently became a part of the Columbia Straw Paper Co., with headquarters at Chicago, took fire yesterday and were completely destroyed. The loss will be fully \$75,000; insurance, \$46,500.

To Build an Electric Railroad.

FONDA, N. Y., Feb. 3.—A company with capital of \$100,000 has been started to build an electric railway between Fonda and Fultonsville. The road will be operated in connection with the one being built from Fonda to Gloversville.

Killed by a Cotton Compress Explosion.

HARRISBURG, Feb. 3.—The Planters' compressed yesterday. The compress was torn to pieces. Three men were taken out dead while seven others were taken out more or less injured.

For the N. E. Billiard Championship.

MENARD, Conn., Feb. 3.—"Shill" Beach of this city and John Murphy of Hartford, on Thursday evening next at Allia hall, Hartford, will contest for the billiard championship of New England and a purse of \$300.

Lindsay Nominated to Succeed Carlisle.

FRANKFORT, Ky., Feb. 3.—The caucus of Democratic members of the Legislature last night nominated Judge William Lindsay for United States senator, vice John G. Carlisle. Lindsay had no opposition.

CARLYLE HARRIS' CASE

New Evidence of Importance Said to Have Been Found.

CHARGES AGAINST DR. TREVERTON. Sworn Statements Alleged to Have Been Obtained from Helen Potts' Girl Friends to the Effect that She Was a Confirmed Morphine Eater—Dr. Schulte's Opinion.

SCRANTON, Pa., Feb. 3.—Evidence which it is believed will be of great importance in the case of Carlyle Harris, now under conviction in New York for the murder of his wife, Helen Potts, has just been discovered here.

Mrs. Harris, the young man's mother, has been spending some days here and it is principally through her efforts that the newly discovered evidence has been gathered.

Col. Frank Fitzsimmons, the Scranton attorney in the case, last night forwarded a mass of material evidence to Howe & Hommel, the New York attorneys, and has still much evidence which will be produced when the case comes up again next Monday.

The newly found evidence has been obtained from Helen Potts' friends and intimates while she was a visitor here at the home of her uncle, Dr. C. W. Treverton, and from physicians of high standing in their profession.

Many letters have also been received by Col. Fitzsimmons from persons who just now desire their names withheld, but who are willing to be summoned as witnesses if needed.

Some of these letters are from young ladies in the Hyde Park section of the city, who, during Helen Potts' visit here, associated with her, and who were spoken of as the "arsenic eating set," and who know more about the troubles of the dead girl than they have heretofore cared to reveal.

The evidence gathered shows that Miss Potts was a confirmed morphine eater. Sworn statements have been secured from her girl friends as to this point, and to other things.

It is also said that there is evidence to contradict the testimony of Dr. Treverton given at the trial in New York as to the girl's physical condition while she was visiting here.

The claim is also made here that whatever operation was performed on the girl was done by Treverton while she was at his home, Treverton's wife being Miss Potts' aunt.

Col. Fitzsimmons will also present evidence as to the record of Dr. Treverton. Treverton left this city some time ago, and it is now, it is believed, living in Chicago. Treverton's house burned shortly after the conviction of Harris, and nothing was saved from it but his diploma, showing that he graduated from the University of New York.

Treverton received over \$2,000 insurance and soon afterwards left for the West. There is also talk that Dr. Treverton encouraged his niece in the use of morphine, and it is stated that prescriptions that he gave her have been procured from a Hyde Park drug store and are certified to as being filled for the girl.

Mrs. Harris says that she is greatly encouraged by the turn of affairs and fully believes her claims to the innocence of her son can now be established.

DR. SCHULTE'S OPINION.

Expected that It Will Materially Aid the Efforts for a New Trial. New York, Feb. 3.—A most important part of the new testimony on which counsel for Carlyle W. Harris will rely in applying for a new trial, and, if granted, in the new trial itself, is contained in an opinion just delivered by Dr. W. T. Schulte, who is claimed to be an analytical chemist and a toxicological expert.

This tends to break down the prosecution's testimony to prove that Helen Potts-Harris, the condemned man's wife in secret, died from an overdose of morphine administered by her husband.

Dr. Schulte's opinion is a monograph on the difficulty of proving morphine poisoning from chemical or other examination of a body long buried.

Could Find No Cause for the Explosion. LONG ISLAND CITY, Feb. 3.—The inquest into the dynamite explosion at the mouth of the East River Tunnel company's shaft in Long Island City on Dec. 28 last, in which five persons were killed and about fifty injured, was continued last night. In their verdict the jury said that they were unable to designate any cause for the explosion, and attribute it to unforeseen circumstances.

Ordered to Leave France. PARIS, Feb. 3.—Two Italian adventurers, who call themselves Marquis de Fligny and the Comtesse de Bussy, have been ordered to leave France within 48 hours. The government executed and is to indict the two as having been spies in the service of a foreign government, and the order of expulsion was given formally.

Freshman Johnson's Tough Toss. MINNEAPOLIS, Conn., Feb. 3.—Johnson, freshman of the Wesleyan football team, has suffered repeatedly at the hands of having sophomores. Last night he was again the object of their attention. He was roughly handled, and had his hair closely clipped on the greater part of his head.

Damage by Ice at May's Landing. MAY'S LANDING, N. J., Feb. 3.—The ice which has been breaking up in the river has done considerable damage, carrying away the light frame work of a number of bridges. Several large craft have been sunk and many small boats carried away and demolished.

Two Killed by the Cars. WARE, Mass., Feb. 3.—Marie Morarity of Ware, overseer of mason work on the Central Massachusetts railroad between Boston and Northampton, was killed by a milk train at Weston last evening. A colored man was killed at the same time.

To Reorganize Richmond Terminal. NEW YORK, Feb. 3.—Breuel, Morgan & Co. have undertaken the reorganization of the Richmond Terminal railroad on the basis of their proposition of June 28, 1894, to the W. L. Strong committee.

STARTLING FACTS!
