Trouble in the Kansas House Coming to a Head.

ARREST OF THE POPULIST CLERK.

Each House Appoints 100 Extra Ser geants - at - Arms - Two Republicans Knocked Down in the Street-Blows Exchanged-Populists Victorious,

TOPKKA, Kos., Feb. 15 .- War is on in eal earnest between the two Houses of Legislature and blows have been exchanged. There are now open threats by the Populists of sensational hostilities and at any moment there may be something more than the talk which has been so long indulged in.

An attempt by Deputy Sergeant-at-Arms of the Republican House to arrest Ben C. Rich, Clerk of the Populist House, on orders from the Republicans, caused a onflict during which two Republicans were knocked down and several men on both sides were badly bruised by blows

of fists.
It is believed that to-day will witness the most exciting scenes known in Kan-

as in years.

E. W. Hoch of Marion arose in the Bemblican House resterday and offered a resolution for the arrest of Ben C. Bich, Populist Clerk, on the charge of discurbling the legal House by his actions. The Sorgeants-al-Arms succeeded in finding Rich, after considerable search, in the parior of the Dutton botel, read their warrant to him and demanded that he

accompany them.

John W. Briedenthal, Fred Bailey and others interfered in behalf of Rich. He publicans present took a land in the meles and a free fight followed in which many blows were exchanged and nobody

was seriously hurt.
In the end the Populists got their man away and took him to the Govern-or's office from where, a few minutes later, he was triumphantly escorted into the Hall of the House of Representa-

PROBING THE WHISKY TRUST-LAWMAKERS IN A FIGHT DEWAY Tells More About His Relations

with Sceretary Gibnon. Washington, Feb. 15 .- When the inquiry into the Whisky Trust was re-sumed Mr. Greenhut was recalled. In reply to questions by Mr. Bynum he said that the greater part of the company's goods are disposed of through the main office at Peoria. The plants could and occasionally did sell direct to customers. They sold at prices fixed by the company.

Replying to questions regarding the is-sue of relate voachers he said that their legality had been decided by United States courts in three different cases, each being in favor of the company.

Wm. N. Hobart, treasurer of the com-

pany, then took the stand and stated his connections with the Distilling and Cattle Feeding Company.
Mr. Dewar was recalled and asked how

it was he came to leave the distilling company. He replied that he had made an application for a government position, and on being appointed he resigned his place with the trust. He was not discharged by Mr. Gibson. His connections with Mr. Gibson were always friendly. He had no trouble with him.

He then reviewed his visit to Mr. Gibson at the Grand Parific hotel on the second

son at the Grand Pacific hotel, on the occasion when he was given the matchine to destroy the Shufeldt distillery, and told how Gibson explained its use and made experiments with the liquids which were to be used in firing the tauks in the istern room.

The committee then adjourned. The committee then adjourned.

The story that an ex-member of the
Whisky Trust is to publish a book exposing the operations of the combination,
has created considerable talk here.

The author of this book is reported as
saying that he will show how some time

saying that he will show how some time ago one of the high officials of the Trust went to the owners of the four largest distilleries outside of the Trust and rep-resented to them that the Trust had treated him so badly that he wanted to form an anti-trust. These distil-lers were deceived and went into the scheme, and as soon as the anti-trust was

formed this official turned it over to the original Trust, thus getting four dangerous competitors out of the way.

The Trust, previous to this, had been making seventy per cent, of the alcohol and spirits in the country and the four big distilleries mentioned twenty five per cent, or the chiral provider of the chiral previous competitions of the chiral previous competitio cent of the thirty per cent, remaining. When this sharp deal was consummated the Trust controlled ninety-five per cent, of the spirits and alcohol turned out in the United States and made itself a

greater power than ever.

It was just after this deal with the four anti-trust distilleries was completed that an official of the Trust in New York. and a hig whisky dealer of that city went down to Louisville and bought up about all the whisky in sight, or about 100,000 barrels. Then representations were made to Government officials that it might be a good idea to increase the tax on whisky. The author of the book will also de-nounce the present investigation by Con-gress as a farce, as he maintains that Congress has no jurisdiction in the mat-

ter, the State courts alone having control. AGENT GARDNER SENTENCED. He Must 60 to Sing Sing Prison for Two
