OUR COUNCIL

To-morrow's battle is a most important one to the taxpayers of this town. Spon its result depends, in a great measure, the fulure prospertly of our borough. It is within the power of provements to his place of business. the people to give Shenaud sh the best municipal government in the county; and it is also within their from Germany in the near future. power to allow the industration of borough affairs to be excrted soletin the interests of a few to the detrment of the people at large.

In municipal elections we believe party lines should be obliterated. One of the greatest detroments to the advincement of this town has been the intense partisan fieling existing it local elections for borough officials, the result of which has not the slight est bearing upon any political question: elther national, state or annihipal.

The fliness of a candidate for lorough office should not be gauged by party fealty. As a matter of fact, the only true qualification should be, w(i) money lavishly without anything to show for of Music in this city yesterday afternoon the affldrs of the borough be adminustered to the best interests of the town, and not solely for personal gain. The actions of our German population is a healthy indication, and points to the fact that the citizens of the town have come to a r alization of this fiet, the result of which will add greatly to the advancement of the burough.

In the selection of Councilmen especially should the greatest care be exercised. The Borough Cancil being the legislative body of the town. it is from that body that emanates laws diestly affecting every taxpayer of the town. For that reason we believe that partion projudice should while tooley not be blindly followed in whening members of Council, but the best man should be elected. For a positive of party nombustiens.

The mere fact of a min receiving the party memberships being
