The Populist House met in the after-coon in the south basement corridor of the House building. Carpenters were at work Sunday and yesterday morning fixing up the corridor. The desks of the members are merely high benches of pine and are 20 inches wide. Each deak will be used by three members and they are arranged in two rows with an aisle between. Sergeantat-Arms Dick made no attempt to secure State desks fearing there would be the

Upon hearing of his intentions Mr. Cubbison, of Wyandotte, went to him and said:

"Governor, do I understand that you wish to take your name from this paper?" The Governor answered that he had signed it under duress and under mistaken ideas. Doster is said to have been with him, and told him that the Populists would never forgive him, and pos-sibly he would not escape serious trouble. so he decided to withdraw from the

agreement. Mr. Cubbison then said to him:

"Governor, if you withhold your sig-nature from the paper there will be 1,000 men killed within 20 minutes, and you will be one of them. The House is ready will be one of them. The house is ready to fight for its rights. It will tolerate imprisonment no longer. It has been hard to hold the members back. The sergeants-at-arms are ready and well
