Thin Children Grow Fat

Emulsion, because fat foods make fat children. They are

thin, and remain thin just in proportion to their inability to assimilate food rich in fat.

Scott's Emulsion

of Cod Liver Oil is especially adaptable to those of weak digestion-it is partly digested already. Astonishing how quickly a thin person gains solid flesh by its use! Almost as palatable as milk.

Prepared by Scott & Borns, N. Y. All druggists.

THE GREAT EXPOSITION

Some of the Speciacular Features of the World's Fair.

Everything to Be Conducted on a Scale of Magnitude and Magnificence Hith-erto Unparalieled -Startling Exhinits from the States and Europe.

(Special World's Pair Letter.) It is a curious study to observe how many features of the world's fair may properly be described as "the buy-gost in the world," To begin with, the grounds are larger than the size of any revious world's fair. The main hall-Manufactures and Liberal Arts building is the climax of all construction work in modern times; the money spent and to be expended on the grounds and buildings is double any appropriation ver made for a similar purpose; and the total value of promised exhibits reaches the enormous sum of \$350,000, 000, calipsing the aggregate value of all the exhibits of any two modern exhibitions.

These figures, stupendons as they seem, find a counterpart in the ungui-tuce of exhibits. Whether one takes the model dairy, the agricultural exhibit, the power plant in Machinery hall, the electrical Illumination, the marvels of the Mines building, the flowers and fruits of Horticultural hall, the quaint collection in the fisheries, the array of statuary and paintings in the art galleries, the historical exhibit

In Paint the best is the cheapest. Strictly Pure White Lead is best; properly applied it will not scale, chip, chalk, or rub off; it firmly adheres to the wood and forms a permanent base for repainting. Paints which peel or scale have to be removed by scraping or burning before satisfactory repainting can be done. When buying it is important to obtain

Strictly Pure White Lead

properly made. Time has proven that white lead made by the "Old Dutch" process of slow corrosion possesses qualities that cannot be obtained by any other method of manufacture. This process consumes four to six months time, and produces the brand that has given White Lead its character as the standard paint.

John T. Lewis & Bros. is the standard brand of strictly pure Lead made by the "Old Dutch" pro-cess. You get the best in buying it. You can produce any desired color by tinting this brand of white lead with National Lead Co.'s Pure White Lead Tinting Colors. Tinting Colors.

For sale by the most reliable dealers in Paints verywhere. everywhere.

If you are going to paint, it will pay you to send to us for a book containing information that may save you many a dollar; it will only cost you a postal card to do so.

JOHN T. LEWIS & BROS. CO.,

THE COLUMBUS QUADRIGA.

Sculpture Surmounting the Peristyle Spanning the Lake Entrance to the World's Columbian

of educational institutions, or the products of the world's factories in the Manufactures building—no matter what the section, it may be described without any exaggeration as the biggest the

world ever saw.
Coming to individual exhibits, there are single features conspicuous enough to overwhelm the imagination. For instance, the world's fair has a power plant of 15,000 horse-power where the Paris exposition had but 3,600. Of the 15,000 horse-power at Jackson park, 8,000 is applied by electricity, while the Centennial had no electrical exhibits save a few are lights. One engine of this big plant has 2,000 horse-power capacity, celipsing the Corliss engine at the Centennial, and outdoing anything ever attempted in mechanical apparatus

in this country.

In the agricultural section is to be a mmoth among commonplace displays. It is a cheese—a plain, Canadian heese, but its weight is 20,000 pounds, its height six feet and its diameter nine

within a small area that the foundation of the floor had to be strengthened to

In the live stock department will be seen the largest steer in the world, a blooded minual owned by George W. Childs, the famous philanthropist and fancier of fine flowers and stock.

Kentucky has prepared a surprise for sight-seers who know little of her mineral wealth, and particularly her coal mining industry. It will be a solid block of bituminous coal 60 feet high, mined in one piece and occupying a point of vantage in the blimes building. One of the rurest and one interesting of the big displays will be from the Kimberly diamond mines in South Africa. Heretofore the diamond fields have confined their exhibition efforts to illustration of lapidary processes. At the Columbian exposition visitors will see Kaffir natives from the Cape of Good Hope, washing diamonds from the blue earth in which they are found; they will see the rough stones sorted, put through the grinding and polishing process by Dutch lapidaries; and they will see on exhibition the greatest collection of gems, polished and in the rough, that has ever been gathered outside a royal palace. In the same building, not far from the diamend known for the cure of Consumption, washers, will be the gold and sliver Coughs, Colds, Whooping Cough, and quartz displays of California, Montana, Colorado, Arizona, New Mexico and

other mining communities.

Most people associate the thought of quartz with a mental picture of uninteresting stone henps, bearing little trace of value and of interest only to geologists. The miners of the country are determined to show such sight-seers that gold and silver-hearing quarts are among the most beautiful and picturesque features of an exhibition when they are developed properly. In this particular display the most valuable velns of the far west will furnish pyramids, arches and spires of ore rich enough to recall the fables of Golconda. No accurate estimates can, of course, be placed upon unsmelted gold or sliver, but conservative experts who know what is to be exhibited say the gold and allver camps will send a display worth

more than a million dollars Horticultural hall is at the head of the procession of giant displays. It already has 10,000 primroses blooming in one collection, which government florists declare is beyond question the largest and most beautiful display of the kind ever grown. It has the largest tree-fern ever sent out of Australia-a monster 30 feet high, measuring nearly two foot at the base. It

STARTLING FACT.

STATES PER CENT. OF LIFE INSURANCE APPLICANTS REJECTED ON ACCOUNT OF DISEASED KIDNEYS.

The Trouble Comes From Lack of Care.

Dr. Lambert the general medical direcfor of the Equitable Life Insurance Com-pany, N. Y., said:

This spending statement coming as it is, tron such high medical unthority,

uld have the attention of our civizens, ere is no reason to day, why people old allow kidney disease to get such hold on them. Nature sends her warning in the ellight

blood, sellinent in the urine. When my
of these symptoms appear, Dr. Lavid
Kennedy's Envorine Remedy should be
taken in small dones at once, and thus
drive the poison out of the blood and
restore the kidneys to bealthy action.

To our knowledge this is the only medicine that surely and effectually cures this
almost universal complaint.

We rote the beauty property of Me.

We note the happy recovery of Mr. Oscar Lambert, or Jerico, Mo., whose case has been talked of in the papers the

Quoting from bis letter.

Quoting from the letter.

"Innel ested the first synotoms until I found event in bet with a complicated disease of the language. No most a series suffered more and tent. My physician raised to beh ma. I find a d. Dr. Invit Kennedy a favorise formetly, ontog i Boctom, N. V. B. relieved my thingra Invited inspectionably, and be a few weeks I was bear of all path, and enticely cured. I owe my result has seed life to Favorite Bennedy."

It is used and recommended for what accomplishes. Writes Mrs. A. J. F. t accomplishes. Writes Mrs. A. Manchester, from Providence, R. I. "I began using Dr. Kennedy's Everytic Ben-de for kiling dissain, when Doctors failed to design arm. If doors a lead himor out of tax local, cared my kiliney trunfile, and I am truti-al when I say Kanwol my ide."

Win. Huston the popular West Shore B. R. surfacer, came out in an open-letter stating how he had suffered with althory disease. Physicians treatment, and the use of various preparations falled to benefit him. Dr. Bevid Ken-nedy's Favorite Remedy, was procured and it made him well.

Execution Remedy has had more freed.

Payorite Remedy has had more free ad-ertising in the columns of the daily supers, than anything we know of, from he fact that it does as is promised. Oures disease."
Dr. Kennedy's Pavorite Remedy possesses marvelous strength giving qualities, that reader it especially, valuable to the aged or infirm. For a general all around tonic, and to cure any disease arising from an impure condition of the blood, it has no equal. Druggists are selling more of it than all others combined. Dr. Kenne

play of chrysanthemum that will equal granite, outclassing Ciscopatra's needle all the great chrysanthemum shows of this country and Europe rolled into the 115 feet high, is something like 80 feet ig aggregation.

Then there is the section of a sequoia place of honor immediately in front of

Then there is the section of a sequola or big redwood tree in the government building which required it cars for transportation from California. The section is used in the center of the building as a two-storied reception ball and is large enough to furnish comfortable quarters for its guests at a time.

The state of Washington comes in the category of these exhibits with the time bars for its state building at the purit. bers for its state building at the park, size by refusing to even attempt its.

The foundation-timbers are of pine; transportation unless the maker will each measures 120 feet long in single formish baisting machinery stronger machinery.

try's forest monstrollties in a section Nurranberg. Germany, to be installed of a waluut log 9 feet in diameter on the towers of the Electricity building. If the maker's words may be taken as truth, the largest of these lights will be the most powerful in existence. According to his statement, it will furnish ample illumination for reading at a distance of thirty miles from Chleago; and, according to the same authority, a lawn party in Milwaukee would be better lighted from the electric tower in Chi-cago than if lamps of the ordinary coal il pattern were distributed about the

The search lights will be used on ocension as signals to mariners and a cheme has been suggested whereby messages could be sent across the lake to St. Joseph, Mich., with these same of dots and dashes.

It would be easy to describe these epectacular features of the world's fair n endless length. Those enumerated re but isolated instances in an aggre gation of indescribable magnitude. They are to the main exhibits as one eak might be to a mountain range. A stranger traveling through the grounds might spend a week within the gates and not discover half of them, unless be devoted special search, so bewildering will be the extent of the general exhibits. W. M. IGLEHEART.

WALDEN DIVORGE CASE. larly Blunche's Statur and the Servants.

Substantiate Her Testimony. London, March 4.-The evidence in he Divorce Court yesterday, in the case pending between Baron Howard de Walien and Lasty Blanche, his wife, confirmed meh of the previous testimony. Mrs. orroughs, a sister of Lady Blanche, tesified that his Lordship was aften rude o her when she was aursing Ledy

He was in the habit of cursing her, and exclaimed to her on one occasion: "Go and nurse your sister in —..." This remark shocked her feelings very aweh, and hed an unfavorable influes in her ladgadip.

The servants, who seem to be inevita-ble in English divorce cases, either as "Peeping Tom," or John Thomas as with active motives, were next brought up. on after the other, to sustain the charge

of Lady Blanche.
They testified to the habitual booxiness and flithy habits of Lord de Walnem and gave evidence corroboration: Lady Blanch
