DEALERS in fishing tackle are ready. to meet all demands in their line, though it requires a great deal of angling enthusiasm on the part of any one to make preparations for placatorial recreation. With the ground still. covered with snow, the earth frozen to a depth of three or four feet, and the streams still covered with ice, there is little reason for the belief that the fish can be tempted to take the bait soon.

GOVERNOR MCKINLEY'S misfortunes have awakened a great deal of sympathy. It is thought that the movement inaugurated by the Lincoln League, of Watertown, N. Y. which has for its object the creation of a relief fund by dollar contributions, will be followed by other movements of like character, though it is doubtful whether the Governor will give any encouragement to the project, how ever sincere and well meant its intention.

Stoux CITY, "the Corn Palace City of the world," is arranging to hold another of its unique and peculiar festivals this year. The date of opening is fixed for September 23, continuing until October 18, 1803, and the management promises attractions that shall far surpass anything heretofore presented. It is expected that the many thou ands who will attend the World's Fair can be induced to extend their visit to Sioux City and view the marvels in cereal decorations which will be so perfectly shown, and at the same time gain a correct idea of the greatest corn producing territory on the globe.

THE KEELEY BUSINESS.
