THE naval review to take place in Hampton Roads in about a month from now will be one of the grandest spectacles ever witnessed in America, or perhaps any other waters. Gormany, Russia, Eugland, Italy, Spain, France, Brazil and the Netherlands will all send representative ships, and of course will send their choicest. The United States having just put her navy affoat, will appear to great advantage as our ships will be new, of the latest improved order, and will no doubt make a pleasant appearance when contrasted with the foreigners. Old Point Comfort will for the time be the resort of thousands who will desire to see the notable coffection of war ships that will assemble in Hampton Roads.

PRESIDENT ROBERTS' annual report of the finances of the Pennsylvania. Rallroad Company show the gross receipts to be the largest in the history of the company. Owing to excessively low rates of transportation, however, the profit this year does not compare very favorably with the receipts. More business was done for less money, owing to competition. Notwichstanding this, the; company was able to continue the improvement of its lines, pay a six per cent, dividend and carry to the credit of profit and loss \$2,127,026,42.

THE switchmen of the twenty-one roads centreing in Chicago have decided not to strike. This is a sensible conclusion to arrive at. In a contest with the railroads they would have been worsted, and their decision will in the long run give them a better standing for demanding increward wages than if they had started s strike just out the eve of the opening o'spring business.
