GAMBLERS AHEAD.

Having met with nothing but mockery and general disrespect at the hands of their race-track Democratic Assemblymen the unhappy people of New Jersey are now looking to Senators McPherson and Smith to aid them in their great earnest though apparently hopeless struggle to retrieve the lost honor of their state.

It will not surprise many to learn that as a result of exposure to the terrible weather of inauguration day a great many of those who participated in the procession, as well as many of the spectators who braved the turbulent elements, have suffered severely.

Rendering women eligible to the office of notary public.

Among the bills introduced yesterday's session of the house were the following: Walker—Appropriating \$15,000 to the Good Samaritan hospital in Lebanon.

It may have been respectful to the people, but it was not wise on the part of President Cleveland to deliver his inaugural with bared head, in the midst of a storm as pitiless as it was unpalatable.

The last Congress appropriated in all over one thousand million dollars. This is a record even more shameful in extravagance than that of the notorious Billion-Dollar Congress, because controlled in a measure by the Democracy.—N. Y. Evening World, Dem.

Lamp-chimneys cost so little that we let them go on breaking. We go on buying and grumbling.

What should we do? Get Macbeth's "Pearl-top" and "Pearl-glass," they are made of tough glass, tough against heat; they do not break in use; they do from accident.

They are fine, well made, exact; they fit the lamps they are made for; stand upright; the shade is right; they make a right draught for light; they are uniform. Both bear a label for your protection. Look for it.

Be willing to pay a nickel more and stop this constant expense and annoyance.
