POSTAL POINTS.

New Rules Adopted by the Present Administration.
A pair of onions will go for two cents. Ink bottles must be corked when sent by mail. Persons are compelled to lick their own postage stamps and envelopes; the postmaster cannot be compelled to do this. Persons are earnestly requested not to send postal cards with money orders enclosed, as large sums are lost in that way. Nitro-glycerine must be forwarded at the risk of the sender. If it should blow up in the postmaster's hands he cannot be held responsible. When letters are received bearing no direction the persons for whom they are intended will please signify the fact to the postmaster that they may be at once forwarded. As all postmasters are expert linguists the address may be written in Chinese or Chockaw. It is unsafe to mail apple or fruit trees with the fruit on them. It is earnestly requested that lovers writing to their girls will please confine their gushing rhapsodies to the inside of the envelope. Ducks cannot be sent through the mail when alive. The quacking would disturb the alms-houses of the clerks on the postal ears. When watches are sent through the mail, the postmasters will wind and keep in running order. John Smith gets his mail from 674,279 post offices, hence a letter directed to John Smith, United States, will reach him. When you send a money order in a letter, always write full and explicit directions in the same letter, so that any person getting the letter can draw the money. Alligators over ten feet in length are not allowed to be transmitted by mail. The placing of stamps upside down on letters is prohibited. Several postmasters have recently been seriously injured while trying to stand on their heads to cancel stamps placed in this manner. A bad cough or cold calls for a good remedy—the cure for it. For Coughs, Colds, La Grippe and Consumption, a perfect and permanent cure is Pan-Tina, the worst case yields to its healing properties. Cents 25 cents. Pan-Tina is sold at P. P. D. Kirkin's drug store.

Stereotyping.
The HERALD is now prepared to do all kinds of stereotyping in the best workmanlike manner at reasonable rates. By having this work done in town the parties desiring it save freight and express charges and have the advantage of personally inspecting the work before it is delivered and thus avoid embarrassing mistakes.

Plan for Special Police.
EDITOR HERALD—I would like to suggest to the Chief Burgess before he makes his appointment of special police that he consider the claims of Turkey Run. We have six or seven families here at present, and owing to our location we consider ourselves residing in an independent ward, and for that reason we will expect a ward's share of the special police appointments. We need them as our place is not patrolled by the paid force.

From Rome Mr. Weiderhold will go to Florence and Venice and return through the Brenner Pass over the Alps by way of Munich to Cassel, where his friends and relatives live, and on April 15th will sail for America.

RAILWAY STATISTICS.

Interesting Facts Gleaned From Secretary Stewart's Annual Report.

The following interesting Pennsylvania statistics are taken from the advance sheets of the annual railway report of Hon. Thomas J. Stewart, Secretary of Internal Affairs, and show the volume of freight and passenger traffic handled by the Philadelphia & Reading and Pennsylvania lines. Highest number of tons of freight carried and the average distance hauled of one ton are the Pennsylvania, 60,195,725 tons, average distance 100 miles. Passenger traffic: Pennsylvania, 45,288,629; Philadelphia & Reading, 22,509,196. The total number of passengers carried by all railroads during the year was 140,190,599. The statistics given for the Philadelphia & Reading Railroad include the leased lines.

In referring to the number of railway employees and their compensations the Secretary says it is impossible to give the exact figures for Pennsylvania as employees are not confined to one state. The total compensation of all officers and employes for all railroads running in the state for 1892 was \$113,798,051.28.

The returns of some of the companies are somewhat defective in some respect, several of them while reporting the number of employes fail to give the annual compensation, and hence the average yearly and monthly compensation as indicated by these figures differ somewhat from the actual average of such compensation. From the \$113,798,051.28 paid to the 213,573 employes, we find the average yearly compensation to be \$532.22; \$44.40 per month, or \$1.45 per day. The actual amount paid per day is, it may be presumed, much more for the reason that daily compensation is paid on the basis of 265 days per year, when the facts will undoubtedly show a less number of days of actual service.

The report shows that the Pennsylvania Railroad Company had 54,937 employes in 1892 and paid out in salaries during that year \$31,628,443.30. The Philadelphia & Reading (including leased lines) had 25,716 employes and paid \$10,197,786.61 in salaries.

HE TRIED VERY HARD TO SUICIDE.
A Hothead Man Fires Three Bullets Into His Body.

Waynesburg, March 17.—Captain John Scott, a wealthy and influential farmer of Holbrook, Greene county, attempted suicide by shooting himself with a 32-caliber revolver. Three shots took effect, one ball entering his neck, another his head above the ear, while a third was flattened on his forehead.

After the attempt he walked to the house and told his family that the deed was done upon several days ago, but that he now saw his mistake. It is thought that an attack of the grip affected his mind. He has a wife and several children. He is still living, but as he is 78 years of age it is believed he cannot recover.

The Missouri river is out of its banks at St. Joseph, Mo., and Leavenworth, Kan. Great damage has already been done and several buildings have been swept away at both places.

The condition of Charles De Lesseps, one of the convicted Panama canal swindlers, has become alarming, and his friends in Paris believe that he cannot live more than a few weeks at the most, while they look for his death to occur at any moment.

Stanley Ivanhoff, a guard in the political prison at Tomsk, Siberia, became enraged at the alleged misdemeanor of several convicts and with his sword severed the heads of two of them and mortally wounded three others before being disarmed.

The death of Philip J. Walsh, of Philadelphia, removes from the commercial world one of the most popular and widely known merchants in Pennsylvania. Mr. Walsh died at Tampa, Fla., from a stroke of paralysis. His remains will be taken to Philadelphia for burial.

The last of the five persons killed by the falling walls at the Carter picture frame factory fire in Chicago on Wednesday morning was taken from the ruins of the burned building last evening. The body of Stephen Carter, brother of the owner of the factory, was the last one recovered. None of those injured still die.

The tramp who brutally assaulted Mrs. Jane Wilson in Philadelphia and was afterwards arrested and bound over for court now says he was just in fun when he kicked Mrs. Wilson, but as Mrs. Wilson fails to see the point of the joke she will push the case which will probably land his trampship in the workhouse or penitentiary.

W. S. Henderson and Elias Frost, two prospectors, were pummed upon by mountain lions in the neighborhood of Silver Lake nine miles north of Trouton, Colo. Henderson, in the fight for his life, was entirely stripped of every vestige of clothing and was badly lacerated about the face and body, while Frost escaped serious injury. Frost was armed with a Winchester rifle and succeeded in killing both of the animals.
