W. Thornion Parker, M. D., Recorder, As ociation of Acting Assistant Surgeons of the U.S. Army, writes

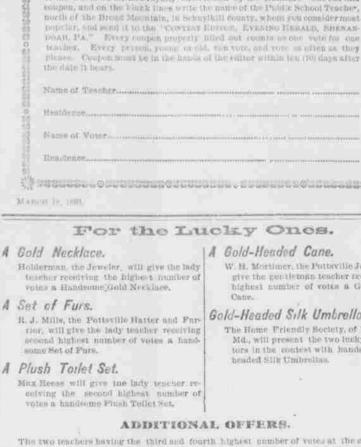

SALEM, MANS., March 23, 1891. "When at Stuttgart, Germany, during the sinfer of 1881-82, I was suffering from a evere attack of branchitis, which seemed to fireaten pnoumonia. I met, at the Hotel larquardi, Commander Beardabee, of the United States Navy. In speaking of my lelences, he remarked, 'Doctor, you can curi hat chest trouble of yours by using an All ocic's Porous Plaster." "That may be true, answered, but where can 1 get the plaster? Anywhere in the civilized world, and surely ere in Stuttgart. Whenever I have a cold, .

always use one and find relief.' I sent to the drug store for the plasser, and it did all that my friend had promised. Ever since then I have used it whenever suffering from a cold, and I have many times prescribed it for atients.

"The Allcock's Plasters is the best to be and, and has saved many from severe illness and undoubtedly, if used promptly, will save many valuable lives. Whenever one has a severe cold they should put on an Allcock's plaster as soon an possible. It should be daced across the chest, the upper margin just below the neck; some hot beaf ten, of milk, will aid in the treatment.

"This is not a patent remedy in the obectionable sense of that term, but a standard preparation of value. The Government applies for the U. S. Army and Indian Hospital Stores contain Alleock's Plasters

and the medical profession throughout the world are well aware of their reliability and excellence. I shall always recommend i not only to break up colds, but as useful in alloying pains in the chest and in the back. It is a preparation worthy of general couff lence.
