Forty-Five Thousand Cubic Yards of Coal Said to be on Fire Under the Threaten of Village-An Order to be Issued for a Number of People to Vacate Theli Romes in Anticipation of a Collapse.

HONGY STOOM, March 20 .- Chief Engliser Richards of the Lebigh and Wilkenliarre Coal Company, accompanied by other officials, arrived here yesterday. They repaired at once to the burning No. | mine. In three days the fire has made wonderful handway. As seen from the surface new it extends the full length on tenbreasts. Taking the area contained in each "pillar" and supposing that the firs-has not spread beyond the point on the surface, it is estimated that 45,000 cubic yards of coal are burning.

There are too miles of underground open-ings, which while other subterranean pos-sages, would make the work of flooding Instead of one it is now decided to dig two immense trenches to the basin here, when completed, will be filled with clay. It is a cofficial undertaking, but as stated by an official last evening, it is the only means by which the millions of dal lars worth of cost property adjoining on be saved. There has been no further diturbance of the surface. An order will soon be issued for a number of people to vacate their houses, anticipating a collapse

THE TURKS STOLE THE LETTERS. Mail Sent to American Missionaries Tampered With.

WASHINGTON, March 20, -Several repre entatives of the American board of comdissioners for foreign intisions, visited Vashington last week. They came from Boston headquarters of the body with which they were connected, and had several interviews with Joslah Quincy, the acting est assistant secretary of state.

The visitors were Dr. Jodson Smith, jr. secretary for foreign missions; Dr. Edwin Webb, of the presidential committee, the governing body of the board and Rev. C. C. acey, a missionary whose station is at

They told Mr. Quincy that Turkish offi-cials interiored with the correspondence of the American missionnels in that country, that the missionnels were much Ill-treated by the natives and were not re-strained by the anthorities; and that mes-engers from United states Minister Thomp-son to the state department in Washington, had veror reached their destination, from which he (Thompson) laferred that his mail had been tampered with. The statements were so positive that an investigation of the records of the department was ordered to determine whether or not the corres-pondence on life substantiate the assertions.

pundence on file substantiate the assertions.
This investigation is not complete, but it is
understood that the allegations made by
bresers. Smith, Tracy and Webb will be
shown to be fully sustained.
The question of sleaking with the relations
growing out of the missionaries in Turkey
has always been a vexing and perplexing
one to the officials of the state department.
The missionaries have a legal right to domicile in the Ottaman empire, but it is evident they are unwelcome guests. Their dent they are unwelcome guests. Their relations with the Americans, who are more or less engaged in political movements against the existing authority do not tend to commend them to the good graces of the Turks. The consequence is that the correspondence of the governments of the two equippes to a great extent is devoted to a discussion of complaints by missionaries of sweplt and other ill-treatment.

assemble and other ill-treatment.

It was recently hoped that a better condition of things would soon be reached within the post year. The porternale suitable and prompt reparation for the destruction of the school property of an American missionary named Bartleut, a most gratifying departure from the ordinary dilatory course of dealing with these matters. But yours present developments as between renes with mail and official dispatches to his government are a new complication which will require current consideration. The investigation will be completed in a few days and the result will be communisated to the looker gentlemn.

THIS COSC OCCUPT EXPLODE. Another Dynamic Cutrage Attempted at

Reum, March 20. -Following close upon the master of al astempt to blow up the neini Mari A palace, the residence of bronovable william Potter, American min-ister to buly, another dynamite outrage was attempted at the Palazzo Altleri, the endquarters of the Guard Nobill, one of

headquarters of the voiced North, one of the military organizations whose duty is to attend the pope and to be present at great religious functions at the Valican.

A boy who was passing the Palazzo Al-tici saw a mass of what heat first thought was mortar lying upon the steps of the pal-ace. With boyish curiosity he ran up the steps and was surprised to find a burning the extending from the mass.

The boy at once stamped out the fuse with his feet, and then notified the police. Gendarmes were at once sent to the palace, and were not long in ascertaining that what the boy had at first mistaken for a mass of mortar was a powerful bomb, con-taining dynamits or other high explosives.

The bomb was encased in a thick coating

of plaster of puris, which, in the opinion of experis, would have added to the destruction that would have been wrought had an

explosion occurred.

The news of the attempted outrage has caused considerable excitement in the city. A number of arrests of Anarchists have been made in the city recently, and this fact has apparently caused the friends of the men arrested to attempt these outrages as a means of receivers. as a means of ravenge.

Notwithstanding the warning the mis-

creants who planned the last affair had no trouble in placing their bomb on the steps of the Palanco Altieri, which is one of the

of the Palanzo Altieri, which is one of the best-known buildings in the city. Orders have now been issued, however, that a strict watch be kept on all sus-picious characters and the police hope to soon have the conspirators in custody. An-other warning has been received that further attempts would shortly be made to cause explosions.

MITUREST TAKES EXCEPTIONS To Some Published Statements About the

Late Squize Abington. New Your, March 20 .- Charles Mitchell, who is staying at the Gedner, yesterday read carefully the biography of his decented friend and backer, Squire Abangton Baird. To many of the published statements Mitchell took decided exception particularly that which represented the quire as a sort of person about whom rize fighters were wont to hang and the inference that might be deducted concerning his own connection with the deceased

millionaire sporisman.
"Squire Abington and I" he said, "have been friends, I might eavy juls, for seven years, but never in my life have I then under any oldigation to him either financially or otherwise. He accompanied me to this country at his own solleitation. His soileiturs, Lumbey and Lumby then said that I had saved his life by getring him ont of bed and getting him to interest him-self in anything, for he had been confined to his reom for three weeks and was not expected to live.

In talking about the offer of Corbett to fight him for the purse and honor, without any side bet it necessary, Mitchell said:

"It is the only good thing I have ever known Jim to do or say. Of course I appreciate his kindness, though I think his charity comes a little too lete. The only time I want Corbett to treat me nice is when we are in the river and then the bet. when we are in the ring and then the but ter he treats me the worse I will use him.

Among those who spent part of the day with Mitchell were Edward Everett Bell, He Thompson, the wealthy bookmaker, and Jim Hall.

Mitchell said that Hall was ready to fight Fitzimmons at the middle-weight limit in the same week and before the same

BANKERS UNEASY AGAIN

The Large Shipments of Gold Resumed.

UNC! E SAM'S TILL GETTING EMPTY

The Ameunt of Free Gold Again Down to 84,010,255 Over Half a Million to be Shipped to England To-morrow-Tronsery Officials Make a Statement-Our Gold Goligations.

New Yong, March 20 - With this week there begins a resumption of gold ship ments and the prospect is that the recent discussion of the currency trouble will break out arew, with the struction not list tered to sky extent. Backers here are again messy. They say that much has been made of the bank offers of gold to the treasury department, but in some instances the gold was under the legal requiremenof weight and was sent in the hope that the extremity of the government would compe the acceptance of the coin at currency instend or builton valuation.

Other gold certificates came in from bunks survious to take advantage of the government rule of paying transportation rates on paper money when the credit is made with gold deposited in the treasury.

The polley of the treasury department as to plans for gold retention or the re-enabis mean of the gold balance is belocal in keeping up the uncertainty in money circles and checking not only the speculative but the legitimate communications of money. Now comes a notice from Hesielbach, Ichelheimer & Co, that they will send a shipment of "about half a million, perhaps more," by the steamer salling to-morrow. This is now interpreted to mean a shipment of from three-quarters to a round million of gold, according to the state of the namey market. The stringency in the money rate here, which was thought by many to have been manipulated in the inthe influx of money from other quarter

and for the easing up of sterling exchange.
Much of this money does not appear on the bank balances, since there are many large lending concerns, such as trust com-paules, etc., which not as their own lenk-ers, and who may lend largely without I awing checks to go through the clearing bouse. It is impossible to tell how large this floating bearing cash capital may be at any time, but it crops up in very large propertions with any rise in the interest

proportions with any rise in the interest rate.

Saturday's trossury statement made the test free gold \$4,050,055. This added to the \$170,000,000 reserve gold would make the total available to meet the \$440,000,000 obligations outstanding payable in gold at demand, excluding the gold coefficients. This would make a showing of about 24 to 100 when the gold on hand is contained. 100 when the coin on hand is compared fingers healed by the use of to the Habilities.

More Offers of Gold.

Washington, Match 20.-The treasury Washingrow, Match 20.—The treasury department is resolving offers of gold for small notes in such numbers that is cannot scrept them all. Schurday afternoon it aggregate an additional offer of \$1,000,000 fawn Chicago. It is thought that by maxiwesk the free gold in the treasury will aggregate between \$5,000,000 and \$7,000,000. A gain of \$29,000,000 in gold was made at New York Saturday. No gold was taken for export. for export.
