Ms. Lincoln once decided between the claims of two rival englidates for postmaster in a Western town by placing the petitions presented by the men on a pair of scales and awarding the office to the caudidate with the weightier chilm. Perhaps Mr. Lawier, who wants the Chleago postellice budly, believes that his case will be settled in a similar way. At all events he has taken to Was sington a 1 to ben so bulky that it required a 'burly colored man" to carry it. The document is said to contain 70,000 names. It has been placed on file. There is a rival caudidate, but he has not yet produced his petition at the postoffice department, sy that the weighing prodess named be postponed.

THE bill of mortality for the 4th of March, due to exposure during the insugural ceremonies, has reached half a hundred stready, and the does ing. not include any that have not got into the public prints. It is ease to add as many more during of obscure persome whose taking off was due to sixnosure on that insterrent day, but whose fixing or dying would only appear of record in ineligibles shood permuteut. This murtilly bearing up forward own end out to as it for attentilarg the Constitution and fixing the inauguration about the first of May. The law merely prescribes that the President elect whall be sworn in alneon on the fourth of March, at latest. It is a simple matter. It has been made an occasion for display tor the glory of political managers People rush to Washington in great growds to see the ceremony, and only a very few ever get near enough to see or hear anything. If the day is incle ment the exposure is dangerous-a fact that every person knews without official notice. We do not suppose the Constitution will be amended to save careless persons from the consequence of exposure.

THERE is hope for the negro-from a southern point of view. He is now able to muster in force big enough to avereome the Sheriff, take a prisoner from the custody of that officer, hang him and riddle the dead body with bullets. Let none again say the negro where his residence is located, nor be asis a tropeless case. He is learning the signed two years successively to the same ways of the higher civilization of the master class, and already he has reached a stage of development in houring shall be as at present. Assignwhich he can act as Sheriff, Judge, jury and executioner. This happened in Mississippi, a highly differentiated civilized state. A negro desperado, having killed a prominent negro planter, was arrested by the Sheriff and taken towards the jail. A posse would welcome the relief that would be afof 500 negroes assembled, took the forded by Senator Hackenberg sproposition.

Of course, we do not think this was right. It was wrong. It was flagrant-million of dollars for the permanent equiply wrong. The culprit being black ment of this school and the aid of its stushould have been arraigned, tried, con victed and bung according to law. The pegroes had no reasonable excuse that all of the State normal schools are for their conduct. They were mur-durers, and only not less murderers propriation bills this session. The feeling than the miscreant they murdered ally, which has been gaining strength every because they were carried away by session, is about to reach a crisis and it the access of momentary passion, would not be surprising if some of them the access of momentary passion. But the negro, though capable of close imitations, seems not to be able to originate anything. We suggest that the freedman hereafter allow the law Mr. Walton's attack on the proposition inno take Its course. That would be such a rarity in that quarter that the negro could claim the concession as wholly original with the colored race. Try It.

JAMES B.
