A LENGTHY DISCUSSION Contractors at the World's Fair Grounds

Commenced in the Senate at Washington.

MR. PUGH OPENS THE ARGUMENT,

The Demort of the Committee in Payor of the Appointed Scienters from Montana. posed Of The Roack Investigation,

Washington, March 30. -The senate yes terday entered on what promises to be a prorracted delete. The report of the committee on privileges and elections by favo of the right of the three senators appointed by the governors of the states of Montana Wroming and Washington, was called up and Mr. Pugh delivered a constitutions argument in support of the position taker

The discussion that followed was participated in by menutors on both ships of the chamber—most of the mindicating conmrence with the views of the minority he committee, adverse to the three so tors. The question comes up again to day. Senator Power demanded an in-vestigation by a special committee of the diarges made against him two or three years ago by Senator Turpia, and quoted in yesterday's Washington Post, and a reso lution referring the matter to the committee on privileges and elections was offered, bu went over without action—My. Gorman in finating very broadly that if the senate wish ed to go into the investigation of transaction which had occurred prior to the election of senators, the invest gation would have to take in several of the semitors on the reabiron side of the chamber.
The discussion of the rules governing

e senate was continued believe close ors after the senate wont into executidoors after the senate wont into executive session. It was contended by many of the reportions that the right of a member to his sent was a question of the highest privilege and until that was disposed of a metion to go into executive session could not be entertained except by unanimous consent. In the open session the vice president ruled that the motion was to go into executive session in order, and thus cut of the debute that was being carried on relative to the report of the cumulities on privileges and eleminous morn the case of Me. leges and elections upon the case of Me Mattle, a senator appointed by the governor of Montana. In the secret session the man er was not disposed of, but by consent the aminutions sent in by the president wer-sken up and acted on. All those while eve reached the senate, exclusive of thos of yesterday, have now been confirmed the question of organization did not comup nor was the Russian treaty referred to

The Senator Rouch Case.

Washington, March 30.—There were no open developments in the proposed investi-tation into the record of Senator Roach, of North Dakota, yesterday. The matter was a general subject of conversation of the floor of the senate and so far it does not appear that party lines have yet been strictly drawn, although certain democratic senators privately indulged in some rather harsh criticism of Mr. Hoar's course and in sist that he is animated by political feeling and is seeking to accomplish some party ad-vantage by pushing his resolution

vantage by pushing his resolution.
On the other hand, a few republican senators answer this charge by saying that the governor of North Dakota would certainly appoint a democrat to succeed Mr. Rough should he res on his seat or beforced out and that if there is any capital to be made out of the Roach case it can be made perhaps more effectually by his presence in the senate as a democratic senator than by his withdrawal. If there was any intention to press the case immediately it was lefeated by calling up of the Mantle cas-

After a long discussion the question as to the admission of Mr. Mantle as senutor from Montana, went over till to-day.

A Good Job for Maxwell.

The Doctor Has Not Been Advised. Washington, March 30.—Dr. Theodore on Hollehan, the German minister, when hown yesterday the Berlin cable dispatch nat the legation at Washington had been alsed to the rank of an embassy, said he ad not been advised of the fact. It is thought here, however, that the countries which send ambassadors as representatives to other countries will, in the course of time, raise their legations here to ambassies and among them will be the German lega-

They Will Have Light Just the Same. Sr. Paul., Minn., March 30,-A dispatch from Eyota, Minn., says: The Young Women's Christian Temperance Union proposes some practical temperance work. The villago recently voted "no licenses" and the Carpers have said that without license fees there would be no public lighting of the streets. The "Y's" obtained charge of the street lamps, raised money for oil by sub-scription and alloted a lamp to each girl, e pleasure it will be to keep it trimmed

and burning. Gibbons Issues a Broad Challenge.

New York, March 20.—James Gibbons, on behalf of his brother Austin Gibbons, who recently defeated Mike Daly at New Orients has issued a challenge to fight any light-weight in the world. In a letter to Captain Cook, Gibbons says: "I send herewith a draft for \$500 in support of my challenge to match Aust in Olbbons against any living light-weight pugilist. They Died Three Days Apart. BREEVILLE, March 30.—George and Abraham Blatt, resired farmers of this vicinity and brothers, died three days apart. The former died Tuesday evening, aged 56 years, and the latter on Saturday, aged 78 years. Abraham was a vegetarian, not having tasted meat since childhood. George partook of meat very sparingly, and both discarded liquor and sobscos.

A STRIKE MAY OCCUR ON MONDAY,

Anticipate Trouble.

Currano, March 80,-Many of the contractors at the World's Fair grounds are looking forward with a great deal of un enshies to next Monday, April 3: An edica has gone out from the labor organizations that after that day only union workmen shall be employed on World's Pair jobs and contractors who do not pay heed to this order will suffer a siriles.

Versaling and Washington Staris the The movement applies particularly to the carpenters. The union here is week, posed OF—The Roach Investigation, others and there being but thirty days lei in which to finish the bundreds of exhibipaxilions, and concretionaires stambs and not nearly enough carpetitors to supply the lemand, they think this is a good chance to strengthen their union. In case of a strike many buildings could not be finished and about the only thing. Left for the contractors to do seems to be to get their men into the union.
