You saw the south end of the manufacture uilding. We'll go up through North Canal tow, and take a good look at it breadside Yes, it is a pretty good-sized building-some thing very close to a third of a wile long It is 787x1,687 feet, and covers thirty and

pe-half neres Up here, pust the manufactures, is the vernment building, which occupies three and three-tenths acres. We are passing up the lagour now between the wooded is an and the east shore. Now through this inlet at the right, leading out to the lake. Here, m our left, is the fisheries building. It, with its two anexes spreading out on each side of it like a pair of wings, occupies awarly on

undred thousand feet of ground space. Beyond this, on the left, right, and befor s, are the fire and guard station, the life aving station, the clam-bake, the lightonse exhibit, weather bureau station, and so on. On the left are some of the foreign buildings, among them these of Great Britair Russia, Franco, Germany and Sweden.

Now we will turn round and paddle up nto north pond. We repuse the fisheries building and find ourselves in the lagoor again, and out of this into the inlet leading to the pand. Skirting along the shore, we pass the buildings of some of the South witnesses also testified that Susan stated at American republies, and find ourselves beeve birth to the body found in the outhouse; for the fine arts exhibit, nearly six acres
