To this the men refused to submit, and quit work. They were paid off on Tuesday afternoon and the train was unimpeded. One of the employes wrote to the general office of the company, stating the grievances of the men, and the order has now been countermanded, resulting in the men being again at work.

VIGOROUS ACTION TAKEN

In the Turkish Outrages on American Citizens.

PROMPT REPARATION IS DEMANDED.

Those guilty of Tampering With the Mails and Burning the Seminary at Marsovan to be Punished—Secretary Gresham Orders Prompt Action to be Taken in the Matter.

WASHINGTON, April 8.—The United States has taken vigorous action in regard to the outrages on American citizens at Marsovan, in the Turkish dominions, and the violations of the mails of the United States legation. The facts of the case are as follows:

On the 10th of January last a number of sedition placards were distributed throughout the region of Marsovan and Casarea, in the empire of Asia Minor. On account of alleged sedition movements and insubordination among the American students and the students of Anatolia College, an American educational institution at Marsovan, on the night of the 30 of February the Greek government of this institution was first arrested by the Turkish authorities.

There was strong circumstantial evidence to show that this was done with the full knowledge if not by the direct act of the Turkish officials. The condition of the Americans in that place became so critical that United States Consul Mijo. A. Jewett was dispatched thither from St. Paul and the Americans in that district have been under his protection ever since. Dispatches passing between Minister Thompson and Consul Jewett at Marsovan have been repeatedly violated and formal complaint of this fact has been made by the American minister to the sublime Porte.

Demands for redress made to the Turkish authorities were met by counter-demands on their side that the alleged sedition movements of the American students should first be investigated and determined upon before any efforts were made to discover the perpetrators of the outrages complained of.

Secretary Gresham has cabled to Minister Thompson at Constantinople a strong expression of the president's views on the outrages, and demanding not only prompt reparation for the burned seminary, but the punishment of all parties found guilty in the matter. Minister Thompson is instructed that no alleged prior acts of students are to affect the rights of this government in the premises. Minister Thompson is charged to give renewed attention to the matter and to dispatch a special messenger if necessary to Consul Jewett and see to the inadvisability of official correspondence. The minister is to act promptly and advise the department by cable. No effort is to be relaxed in securing the legal rights of our citizens in Turkey.

It is understood to be the policy of the United States to hold the government responsible for the outrages which Turkey. There are at the present time more than 300 American citizens residing in the Turkish empire who have the means of property to the value of over \$2,000,000. Further advice from Mr. Thompson are looked for very shortly.

A Nominations Withdrawn.

WASHINGTON, April 8.—The president has withdrawn the nomination of William A. Townes to be consul at San Francisco. It is unofficially ascertained that no significant reasons are attached to this action and that it is taken simply to correct a clerical error. Mr. Townes' name should have been sent into the senate as consul general and not simply as consul. It will undoubtedly be sent in again properly at an early day, probably to-day.

Mr. Townes is a resident of Danville, Va., and his nomination was recommended by Senator Daniel, who believed it would further the Virginia tobacco interests in Brazil, where the Virginia tobacco are now being used in the manufacture of cigars.

More Changes to be Made.

WASHINGTON, April 8.—Secretary Morrill has concluded that there are not only some less-qualified candidates with the technical department, but also whose character is not so high as that of the present incumbent. It is understood that he will shortly issue an order abolishing the operating division of the department, the chief of which is Robert Loring, a secretary of the department. The secretary takes this action on the ground that the work of the department is not sufficient to justify its existence. Loring's resignation is being urged upon the president by the department.

May Adjourn Next Week.

WASHINGTON, April 8.—At the white house it is thought that the senate will adjourn next week, probably on Wednesday. Anticipations to this effect have been given the president by several senators but apparently without the least of a general agreement in doing so. It is not likely that the senate will adjourn before the president nominates the judges for the new court of appeals for the District of Columbia, as in that event the District would be in a crippled state judicially. If, however, Mr. Cleveland sends in the names of the new judges within a few days, nothing will stand in the way of adjournment next week and he has been informed that this is the status of the matter at present.
