Pennsylvania to Have Lots of Wheat This Year.

ENCOURAGING REPORTS RECEIVED.

The Communi Covering of Snew During the Winter Insures a Bountiful Harvest -The Oal Crop Gotten in Mach Beiter Condition than Usual-Proceedings in the State Legislature.

HARRISTON, April 11.-The reports rom correspondents of the State board of igriculture indicate that the prospects are excellent for a good crop of wheat this year. The growth is not as beavy as it often is at this season of the year, but ow ng to the almost constructed ering of snow in ring the winter, and the protection thus afforded from driving winds, the roots mve wintered well, and as soon as the cound gets properly warmed up are ready to produce a luxuriant growth of straw. The area sown with winter wheat will not ary very much from that of former years and may be estimated at about 1,310,000 ares. The area of spring wheat has been stnewbar increased.

In the northern and northwestern part of the state the clover in last year's wheat stubbles has been somewhat injured by altenuate freezing and thawing, which has ansed it to heave our to some extent; but aking the clover and timothy together the nowing fields are in better condition to ield a good crop of lay than at this time

ust year. The amount of hay in the hands of our factors is unusually small. Several reporters state that farm stock, and especially cows, have not wintered as and especially cows, have not wintered un-satisfactorily as during the past five or six-years, and a few attribute this to what they believe to have been the unsatisfactory condition of much of the hay cut last har-vest. Postare fields, owing to a good covering of snow during the winter, have come out in good condition, and are now in much better condition than they were last sensen, and are in good shape to fur-nish an abundance of sping and summer quoture.

Owing to the favorable condition of the vention and soil the out crop had been outen in much better condition than usual. he comparative high price of the grain as caused a rather larger area than com-oun to be sown. The Chicago Strike Becoming More Complicated.

WORLD'S FAIR WORK MUCH DELAYED

The Majority of the Laborees and Me chantes Employed at Juckson Park Join the Banks of the Strikers The Contractors Trying to Pill the Places Left Vacant by the Dismitated Men.

CHICAGO, April 11.—The strike situation here is becoming more complicated and since yesterday morning there. how been no less ann twenty strikes declared among the abovers employed on the World's Fair suldings and about the grounds at incked parks: At a late hour last reight the records revealed the fact that during the day over 5,000 men had quit work, and this morn ing two or three more branches of organ asi labor joined the ranks of the strikers sking the total number out between 5, 900 and 6,000 men.

The suidke has agreatly remeded work on the grounds but the contractors say they have nothing to four and will get along mostly with the help they can procuse from conside the city. New recrains of non-motion men from various sections of the ontry are arriving on every train and im mediately set to work.

Bussell, of the building tradcouncil, appeared before the World's Fair goundled administration in the afternoon with a communication, which he said the strikers whiled him to make. In this the men statist that they did not wish to retard the work of the exposition, and would consequently be glad to leave the settlement of the trouble to arbitration.

They asked that the fair officials appoint

one man while they would do the same, the two to select a third and all three to act as a board of arbitration. This offer, Mr. Russell said, would be open until to day at 4 o'clock. If it is accepted the mer will return to work pending the hearing of the evidence and the settlement of the trauble. It was remarked, however, but little attention would be puld to the offer as the World's Fair officials had been ex-pecting the strike, and had made arrangements to secure 5,000 men who are now on their way here.
