NOW THE AUDITORS WILL BE PAID.  
Judge Reeder Hands Down an Important Decision.

**EASTON, April 11.**—An important opinion was filed yesterday by Judge Reeder in the case of Edward S. Packe et al., borough auditors of South Bethlehem vs. the county of Northampton. The case grew out of the refusal of the county commissioners to pay a bill of \$51 presented by the auditors of South Bethlehem for work in preparing official ballots used at the recent election. Judge Reeder decided that the word "printing" in the act of assembly covered that part of the work performed by auditors in preparing copy for the printer and the commissions thought otherwise. The auditors will now receive pay for as many days work as they performed, and not for a single day as the commissioners claimed they were only entitled.

**Asphyxiated by Vegetable Poison.**  
**DECATUR, Mich., April 11.**—While engaged in thrashing a new variety of clover on the farm of Stephen Playford the workmen near the machine suddenly became unconscious and remained for several hours in a critical condition. They had the appearance of being asphyxiated, and it is supposed that some of the vegetable poison was carried in the dust, which arose when the machine began thrashing.

**Captain Williams Drowned.**  
**BIRMINGHAM, N. J., April 11.**—Capt. Isaac Williams, a well-known and much-respected sea captain of this city, was drowned at sea on the 10th inst. A telegram came to his family yesterday announcing the fact. He was three days out from the Breakwater and fell overboard while assisting to furl a sail. The captain was well known in Philadelphia circles and throughout South Jersey.

**Boilermakers Will Strike.**  
**BOSTON, April 11.**—The Boilermakers' and Iron Shipbuilders' Union, of this city, has resolved to strike, owing to the refusal of the New England Boiler Manufacturers' Association to employ some union men and concede a nine-hour day with ten hours pay. The strike will involve 800 men and will, temporarily at least, stop all work on the cruiser Maryland.

**PULLMAN CARS.**

**Reservation Accommodations for the Fair on the Pennsylvania Railroad.**  
The Pennsylvania Railroad Company announces that arrangements have been perfected whereby passengers intending to go to Chicago may reserve their Pullman car accommodations in advance. Passengers taking a train at New York may reserve the requisite Pullman space one month in advance of departure, those from other points on the system two weeks in advance. This arrangement may be made upon application to ticket agents of the Pennsylvania Railroad, who, after securing the space, will deliver a reservation slip to the passenger. Passengers thus reserving space in advance will be required to purchase their tickets seven days before the date of departure, otherwise the reservation will be considered as forfeited.

**Accommodations in Pullman cars for the return trip may also be secured upon application to ticket agents of the Pennsylvania Railroad.**  
This arrangement will prove a great benefit to visitors to the World's Fair.

**Died.**  
**PROVIDENCE,** On the 10th inst., at Shenandoah, Pa., Beatrice Eleanor, eldest daughter of Rev. J. Proude, aged 4 years, 7 months and 3 days, at the P. M. parsonage on West Oak street. Services will take place at 8 a. m. on Wednesday, 12th inst. The remains will be taken to New Bedford, Mass., for interment and will leave town on the 8:08 a. m. train for New York. 4-11 11

**ANOTHER FROM LITHUANIAN.**

The Objects of the Lithuanian Society of Science.

**EDITOR HERALD:**—There are a good many beneficial societies among Lithuanians. At first when the immigration was not extensive societies were created under the auspices of the Polish priests. Afterwards, with the increase of immigration of the Lithuanians, the national Catholic church took possession of the societies. Among other obligations, members are compelled to assist their person and to observe confession once a year. A few years ago, under the influence of the weekly *Belias*, Protestant Lithuanians joined the societies, and there was good agreement among the members. It is not so today. The Lithuanian priests succeeded in extinguishing the brotherhood between Protestant and Catholics, and under the influence of Rev. Bortis and the clergy paper, *Virszys*, of Plymouth, there began a chase against Protestant members of societies which ended with the exclusion of them (at Wannam, Pa., Chicago, Ill., etc.) as Protestants are in the minority. What in this matter is most objectionable and detestable is the circumstance that our clergy's organ says (No. 14 of *Virszys*) that it is not advisable, and is even unsafe, to exclude the Protestant members under the pretext of their different creed, but that it is rather more plausible to charge them with bad conduct, to bring them into disrepute.

One of the most prominent Lithuanian societies is the Lithuanian Society of Science, which was organized in Baltimore, Md., in the year 1880. Soon after branches of this educational society (Baltimore, Philadelphia, Boston, Chicago, Plymouth, Pittston, Shenandoah, Newark, Marinette and M. Carmel). The object of the society is to enlighten and enlighten the Lithuanians. The society, say its by-laws, intends to reach its aim by committing to print and by spreading useful, especially scientific, books in the mother-tongue by arranging lectures and discussions, by establishing branches of the society in other places where Lithuanians live in large numbers, by helping to establish Lithuanian schools and libraries, by acknowledging scholarships to those who may enter upon higher, i. e. college studies if possible, the society will give contests (thesis and pay for the best compositions. The society establishes a fund for the support of needy students, etc.

The society has done its best to this date to comply with this prominent task. Little libraries have been established in several places, lectures are given after the method of the "University Extension Teaching," several text books have been printed, a scientific monthly is being published. At present an effort is being made to establish a school for adult literate people of town, etc.

The society finds a great obstacle in its way which makes the task of enlightening the people very difficult, even dangerous sometimes. The Lithuanian Catholic clergy finds itself endangered by the success of the society's work. No wonder! Our forefathers had no translation of the Bible before Protestants came to our mother country and opened for the Lithuanians the source and the spring of the Christian creed at a time when our godly Catholic clergy and the monarchism were very busy in trading our brothers to the Tartars and Turks.

Today the Lithuanian priests make money for themselves, collect large sums for the Pope, build too expensive churches and parsonages and neglect and hinder the education of the people, as it is easier for them to lean in muddy water. All means are used to put out the movement for more light, for better education toward freedom in thought and belief. Like Arabs in Africa who hunt for human slaves and dislike and dread the English advocates of freedom, so our pocket savengers, our knights of obscuration, fear the light of science. They become abashed when their dark deeds are made known to the English-speaking people of this country. You should see the visages of our good Levites when they get the HERALD and find there themselves sketched at the moment when they lurk to prey upon the unfortunate laboring man. LITHUANIAN.

When Sewing Machines are mentioned the name of the STANDARD rises instinctively to the lips. Why? Because it will sew as much in four hours as others do in five.

Because it is a labor-saver, and makes less noise than any machine on the market.

Pay no attention to the disparaging talk of our competitors, as that only proves that it is their most dangerous rival.

**SHE SET FIRE TO HER PADDED CELL.**  
**An Insane Woman Has a Narrow Escape From Cremation.**

**NEW YORK, April 11.**—A woman whose only known name is Maggie was sent a few days ago from the workhouse on Blackwell's Island to Harlem hospital to do cleaning and other work. Sunday she showed signs of insanity, and as she was violent, was locked up in a padded cell in a small brick building annexed to the hospital.

Women in the hospital kitchen discovered last night that the annex was on fire. Shrieks were heard from the woman in the cell, and when the physicians reached the place it was found that the fire was in the excelsior padding of her cell.

The woman was uninjured, the hospital people say, and the damage done will not exceed \$100. It is supposed that Maggie had matches in her pocket and set the fire by accident.

**BETTER THAN THE WHITNEY MINES.**  
Those of the Boston and Nova Scotia said to be very rich.

**HALIFAX, April 11.**—The names of the incorporators of the Boston and Nova Scotia Coal and Railroad Company are John W. Chandler and John C. Cobb, of Boston; David S. Baker, Jr., of Providence; William J. Fraser, of Halifax; A. C. Ross, of North Sydney, ex-Mayor Patrick O. Mullin, of Halifax; R. P. Fraser, of Pictou, and John McKen, of Malton.

The mines controlled by this syndicate are known as the Broad Cove and Chimney Corner groups, estimated to contain 200,000,000 tons of coal, or 50,000,000 more than the Whitney syndicate mines.

**SAILING FOR THE WORLD'S FAIR.**  
Crowds Cheer the Viking Ship as She Departs From Christiania.

**CHRISTIANIA, April 11.**—The Viking ship which is to be shown at the World's Fair has sailed from this port.  
An immense crowd gathered at the docks and cheered as the ship passed down the harbor bringing sautes, which were answered by the land batteries.

She will cruise along the coast in order that the people may have an opportunity to see her, and early in May she will sail from Bergen to the United States.

**Grand Display of FINE DRESS GOODS**

**DRESS GOODS** is such a bewildering topic that we will not attempt a full description, but give a partial outline, which you can fill in by a personal inspection. There are the plain and changeable diagonals; plain, plaid, striped and invisible plaid serges; fancy mixtures in all sorts of odd weaves, dots, threads, cross-threads, hair-lines, lines here and there, many at a glance appearing alike, but upon examination are found entirely different. Our assortment of silks is complete—china silks, china surah, plain surah, bengaline, plain, figured and changeable silks, in all the new shot effects. Full line of fancy braids to match any color of dress goods.

**....In Wraps** We find the most stylish and the prevailing mode to be the Cape, in some of its variations. Some are plain, others very highly decorated, with fancy indecent braid, butterfly colors, or some full arrangement at the neck, so much approved this season by the feminine fancy. To some, coats only are the correct garment. To those we would say coats are equally fashionable and stylish, many of these having capes also attached—sometimes one, two or three, as the taste or inclination of the wearer may desire.

We have this season, for the first time, added a Millinery Department, and have spared neither trouble nor expense to make it a success. The result exceeds our most sanguine expectations. This department will be under the same management and conducted on the same principles that have always characterized our entire business. We shall keep everything in trimmed and untrimmed hats, novelties of every description. Having secured a trimmer noted for her artistic and skillful work, we are enabled to suit all tastes. We invite a careful inspection of our entire store. All welcome.
