Mr. Boyer informed Mr. Niles that a special calendar of revenue bills has already been made up. He could see no reason why an important bill of this kind should be rushed through. It has been treated furly and justly. We are asked here to legislate in two days on matters that re-double the taxation on every dollar of corporate and industrial capital in the state. This bill will certainly come up and receive all due attention. There is no sense in a proposition of this kind, when the bill has a secure position.

After Captain Skinner had spoken against the resolution, Mr. Niles withdrew it, with the understanding that the special calendar of revenue bills be prepared at once.
