FOUND HER LONG LOST BROTHER.

Miss May Hooper Made Happy After Many Years.
MUSKOGEE, Ind., April 21.—Miss May Hooper, a young stenographer for the Western Improvement Company, at West Muncie, and George S. Hooper, a painter and decorator, are brother and sister. George left his home at Waterloo, N. Y., fifteen years ago and went to Chicago. Seven years ago it was reported that he had been drowned in Lake Michigan while out with three friends in a sailboat, and the family gave him up as dead.

May came here to work for the Improvement company, whose office is in a building where George had been working for weeks, seeing his sister several times every day. By chance May noticed her brother's name in a newspaper and made an investigation. The young lady was but 6 years old when her brother left home. They will soon return to Waterloo and glad to have parents nearby. George had intended to wait twenty years before letting his friends know that he was still alive. He had been in the sailboat as reported but had escaped death by swimming. His companions were drowned.

NEWS OF THE RAILROADS.

At the annual meeting of the New York Central the only change in the board of directors was the election of Samuel D. Babcock to succeed the late Cyrus W. Field.

The most important case before the Atlantic county (N. J.) courts for several years, that of the Camden and Atlantic railroad against Lewis Kuehnle, of Atlantic City, to obtain possession of a strip of land to Atlantic City worth thousands of dollars on which Kuehnle's hotel is situated, is on trial. The company claims the land under the original survey of that road made many years ago by Civil Engineer Richard Osborn, while Kuehnle holds it under a grant of ancient record. The case has been in the courts for years. Two years ago the company attempted to eject Kuehnle by force when a riot occurred.

The Storm in Pennsylvania.

HARRISBURG, April 21.—Reports from different sections of this state as to the effect that yesterday's storm was quite general and that in some localities considerable damage was done. At Temple, seven miles from Allentown, several buildings were blown down and others were unroofed and otherwise damaged. Reading was also badly shaken up, and three or four buildings were unroofed, fences, telegraph poles and trees were blown down and considerable damage was done to several houses in course of construction.

The amount of damage done in Philadelphia will reach up into the thousands, as half a dozen or more fine buildings were almost completely wrecked. The small houses in the suburbs suffered quite severely.

The only real damage resulting from the storm at Harrisburg was the uprooting of one of the large shade trees on the capital grounds and the unroofing of two small houses. The wind, however, blew the rate of over forty miles an hour for more than three hours during the latter part of the afternoon.

Telegraph communication throughout the state was paralyzed until an early hour this morning, when the wires were again gotten in shape and to-day they are working as usual.

When Sewing Machines are mentioned the name of the STANDARD rises instinctively to the lips. Why? Because it will sew as much in four hours as others do in five. Because it is a labor-saver, and makes less noise than any machine on the market. Grand Display of FINE DRESS GOODS

DRESS GOODS is such a bewildering topic that we will not attempt a full description, but give a partial outline, which you can fill in by a personal inspection. There are the plain and changeable diagonals; plain, plaid, striped and invisible plaid serges; fancy mixtures in all sorts of odd weaves, dots, threads, cross-threads, hair-lines, lines here and there, many at a glance appearing alike, but upon examination are found entirely different. Our assortment of silks is complete—china silks, china surah, plain surah, bengaline, plain, figured and changeable silks, in all the new shot effects. Full line of fancy braids to match any color of dress goods.

....In Wraps We find the most stylish and the prevailing mode to be the Cape, in some of its variations. Some are plain, others very highly decorated, with fancy indecent braid, butterfly colors, or some full arrangement at the neck, so much approved this season by the feminine fancy. To some, coats only are the correct garment. To those we would say coats are equally fashionable and stylish, many of these having capes also attached—sometimes one, two or three, as the taste or inclination of the wearer may desire.

We have this season, for the first time, added a Millinery Department, and have spared neither trouble nor expense to make it a success. The result exceeds our most sanguine expectations. This department will be under the same management and conducted on the same principles that have always characterized our entire business. We shall keep everything in trimmed and untrimmed hats, novelties of every description. Having secured a trimmer noted for her artistic and skillful work, we are enabled to suit all tastes. We invite a careful inspection of our entire store. All welcome.
