### REVIVING THE READING.

THE RECEIVERSHIP MAY TERMINATE VERY SOON.

MILLIONS OF DOLLARS READY

A Plan Now Under Consideration Will be Submitted to the Board of Managers Next Wednesday—The Details.

It is stated by friends of the Philadelphia and Reading Railroad Company who are supposed to be in a position to receive important inside information that the receivership will terminate before the close of May. Among the reports is one that a plan for the rehabilitation of the company has been prepared and is not in the nature of a reorganization, but provides for the infusion of new capital without disturbing the present securities of the company. The plan has been endorsed by the counsel for the general mortgage bondholders and is now being considered by the Reading Board of Managers and preference income bondholders.

The plan is to make a new issue of bonds for \$30,000,000. These bonds are to bear 6 per cent. interest and to be a lien after the general mortgage bonds and ahead of the income bonds. They are to be offered to the present security holder at 95. A syndicate has been made up to take those not subscribed for. Several days ago subscriptions to the syndicate to the amount of \$10,000,000 were secured, and on Tuesday they were increased by \$17,000,000, making the total \$27,000,000. No difficulty was anticipated in obtaining subscriptions for the remaining \$1,000,000. The largest subscribers to the syndicate are Drexel & Co., of Philadelphia, and Drexel, Morgan & Co., of New York. The bonds, if sold at 95, would realize \$25,500,000. The floating debt of the Reading Company is \$18,000,000, and it would therefore be provided with \$10,500,000 of working capital. The bond issue would obviate an extensive reorganization and would render unnecessary the use of receivers' certificates upon the plan which was originally suggested by the bondholders.

There is every probability that the plan will be ready to be presented to the meeting of the board of managers on Wednesday next, which will be the first meeting under the new management. If the plan meets with the approval of the security holders, as is confidently expected by its authors, the attempt to raise money by issuing receivers' certificates will be finally abandoned. President-elect Joseph S. Harris will succeed President McLeod on Monday.

### USE DANA'S SARSAPARILLA, IT'S "THE KIND THAT CURES."

Mr. and Mrs. T. B. Shaffer, who were married at Plymouth last Tuesday, were enthusiastically serenaded at their residence, corner of Jardin and Lloyd streets, last evening. The Liberty Drum and Fife Corps started the ball rolling and after its departure most of the boys and young men in the neighborhood assembled with tin cans and fish horns. Mr. Shaffer sent all away well satisfied.

Slight Fire. There was a fire alarm last night at about eight o'clock and the fire companies located the cause in a house at the east end of Lloyd street occupied by a Polish family. A box of straw in a bedroom caught fire, but no one could tell how it happened. It is supposed one of the boarders started the blaze when smoking a pipe. But slight damage was done.

This Isn't Blow or buncombe, but living facts. Lew Hopkins, of Co. K, 51st Pennsylvania Volunteers, has had a Singer Sewing Machine in his family in use for 25 years and is in good working order to-day. Falling Ceilings. It was necessary to dismiss the class in the High School room yesterday on account of parts of the ceiling falling. The ceiling suffered considerably from water when the building was set on fire some weeks ago by a defective fuse. It was thought temporary repairs would pull it through to the end of the term, when the board intended to make permanent repairs, but it now looks as if the whole ceiling will have to come down before the room can be occupied with safety.

Where are you going this summer? You have not decided yet? You're going to the World's Fair, of course! Let us make a suggestion. You can spend more or less time on the way as you desire, if you go to Chicago by water route from Buffalo, which city can be reached with convenience from the anthracite region by way of either the Philadelphia and Reading, Lehigh Valley or Pennsylvania railroads. The steamers leave Buffalo every evening.

Your steamer will arrive in Cleveland at 7 o'clock standard time the following morning. Your breakfast will be served early enough for you to eat it leisurely before arriving if you wish it. The steamers run up the river to the foot of St. Clair St., one of the principal city thoroughfares, adjacent to all depots, steamboat landings and street cars. At 10 o'clock one of the Detroit & Cleveland Steam Navigation Company's steamers leaves for Detroit, and nothing is more delightful than this water trip. This would leave you three hours to look over Cleveland. A great deal can be done in three hours. Half an hour's ride on the Euclid avenue cars will carry you out through the best part of the city, most of the distance along the world-famed Euclid avenue, to Lake View cemetery, where stands the tomb of President James A. Garfield. The monument is full of the product of the highest art. This can be looked over thoroughly in an hour, so that there is a margin of an hour for any incident or accident that may involve loss of time. We assume that you wish to see this place of national interest first of all, but Cleveland's attractions are worth a much longer stay in that city. This is easily feasible, if you have only one day to spare, as another Detroit & Cleveland boat leaves for Detroit at 10 p. m. daily.

Rheumatism, the king of all diseases, is quickly conquered by the celebrated imported "Anchor Pain Expeller." Try it and be convinced. 25 and 50 cents a bottle, at C. H. Hagenbuch, P. P. D. Kirlin, J. M. Hillan, and other druggists. 3t

Drawing Large Attendances. The patronage at the G. A. E. fair for the benefit of the widows' and orphans' fund was very good last night and the receipts were considerably swelled. The entertainment was given by Messrs. Maley and McManaman, who were heartily encored. These young men are coming rapidly to the front as jig dancers. The special prize last night consisted of two large parcels of sugar. A large attendance is expected to-night and to-morrow night on account of the pay days at the collieries. None of the fancy and valuable articles have been changed off yet. The Grand Band has been engaged to give a concert and play at the cake walk, of which due notice will be given. To-night a bag of flour and to-morrow an eight-day clock will be given away. Distinguished people from Great Britain are expected to-night.

When you are troubled with dizziness your appetite all gone, and you feel bad generally, take a few doses of Dr. Henry Baxter's Mandrake Bitters, and you will be surprised at the improvement in your feelings. Every bottle warranted to give satisfaction. 1m

To the World's Fair. Tickets to Chicago and return at reduced rates have been placed on sale at stations on the Lehigh Valley division of the Reading railroad system, commencing April 24th. Rates and information can be obtained from ticket agents.

### NEARING COMPLETION!

THE WM. PENN BREAKER IS NEARING COMPLETION.

IT WILL BE READY ON MAY 15TH.

What the Reporters Saw on the Streets To-day—A Child's Narrow Escape—A Warning for Parents and Drivers.

The new breaker of the Wm. Penn Coal Company is rapidly nearing completion and will be ready for operation on May 15th, next. The structure will be one of the largest and most improved in this region and will present a splendid appearance on the elevation above the site of the old one. The area covered by the breaker is 170x100 feet. The height from the ground to the roof of the "tip" is 110 feet. The cost of the structure will be \$75,000. All coal run through the breaker will be sent to market over the Pennsylvania Railroad which has completed its line from the colliery to the connection with the Wiggins' route. There is a double track running under the breaker chutes and tracks have been laid east and west of the breaker for any amount of empty and loaded cars.

Many funerals this week. Shad are not so plenty yet. This is indeed sandwich weather.

The work of paying the streets goes slowly.

The street sprinkler has had little to do so far this season.

It is feared that the strawberry crop will be a failure if the weather continues wet and cold much longer.

There will be lots of grumbling about the drainage business a few months from now, from the people who failed to take advantage to connect.

The carpenters, masons, bricklayers and painters are complaining that the alternating stormy weather is retarding their work considerably.

A special meeting of the Womens' Roller Corps will be held in Refowick's hall this evening at 7 o'clock to make arrangements for Memorial Day.

A letter received in town Wednesday brought the information that Mr. and Mrs. Henry Wiederhold and son, whose arrival from Germany was expected on Saturday last, are still upon the sea and will not land until to-morrow. They are on a slow steamer which is scheduled to make the trip in thirteen days.

A Narrow Escape. A three-year-old child narrowly escaped being killed on Chestnut street this morning. It was lying in the middle of the road, playing, when a horse and wagon belonging to Samuel Davis, the greaser, approached. Fortunately the horse was walking. The driver was looking at everything, and nothing in particular. The horse stepped over the child without injuring it and the front wheel of the wagon barely passed the child's head. The driver did not know the child was under the wagon until the excited people on the pavement attracted his attention. He stopped the horse just as one of the hind wheels of the wagon struck the child's head, but did not pass over it. The injury inflicted was slight. Of course the parents were very much excited, but they are equally censurable with the driver for not keeping the child off the street.

A New Lodge. The degree team of Lydis Lodge, No. 112, Daughters of Rebekah, I. O. O. F., went to Ashland yesterday afternoon and instituted Ridgeley Lodge. Delegations from Mahanoy City, Girardville and many other places were present. The degree team numbered about 25 members. After the institution the visitors were royally entertained. In the evening the degree team exemplified the beautiful work of the order and conferred the degree upon seven of the new members, three ladies and four gentlemen; and upon the conclusion of this work addresses were made by Dr. Schomo, of Ashland, E. D. Boddall, of town, and many others. The new lodge starts out with a membership of forty-five.

Fall on the Pavement. A drunken Hungarian attempted to navigate on Main street this morning, but failed. He fell with such force on the pavement at the corner of Main and Centre streets that he cut and bruised his face badly. He was towed into an alley and after resting a while he went home to have his wounds dressed.

G. Meade Peters, the popular bartender, has not gone to Lakeside. He can now be found at Schoener's restaurant. 4-27-9f

Killed With a Club. A dog was run over on Centre street this morning and its back was broken. Constable Phillips ended its misery with the aid of a club.

Yes. Dr. Cox's Wild Cherry and Seneca is perfectly safe, and both softens and relieves a troublesome cough as if by magic. Price 25 and 50 cents per bottle.

### ST. CLAIR'S PROMISE.

There is an Exceedingly Bright Outlook for the Place.

William Pooler, formerly of this town, but now residing at his old home in St. Clair, arrived here last night after paying official visits to the lodges of the Sons of St. George at Scranton and Wilkes-Barre. Mr. Pooler is the Grand President of the Order for the State of Pennsylvania and last evening was the guest of the local lodge.

Before leaving for St. Clair to-day Mr. Pooler stated to a reporter that that old town, which a few years ago was considered beyond resurrection, has splendid prospects before it. He says there is no town in the county that presents a better aspect. There is not an idle man in the place and it is only a question of a very short time when people will again be flocking there.

A number of prominent and influential men of Luzerne county having a large amount of capital behind their backs have taken an interest in some of the abandoned mine workings which only passed through the primitive methods of mining and well responded abundantly to the modern methods. One of the old slopes will be re-opened within a few months.

In addition to this the capitalists are staking bore holes on the old Chamberlain tract at Mill Creek, between St. Clair and Port Carbon, in a line with the Eagle Hill colliery, and as soon as they strike a satisfactory location, which is a certainty, a large shaft will be sunk. Mr. Pooler says that this sinking will lead to the opening of a colliery that will give employment to 700 or 800 men, who will need residences at St. Clair and Port Carbon.

### USE DANA'S SARSAPARILLA, IT'S "THE KIND THAT CURES."
