FOR AN EXTRA SESSION.

It Will Convene the First Week of September.

THE MATTER DEFINITELY SETTLED

President Cleveland Says It Will be Called Between the First and the Fifteenth-Minister Stevens Soon to Return From Hawali-Cleveland to Take a Mand in the Choctaw War.

WASHINGTON, April 28.—It may be stated authoritatively that an extra session of congress will be called the first week in September and not before that time, unless some unforeseen crisis abould arise. Representative Buck Kilgore (Texas) called upon the president for the purpose of obtaining information regarding the possibility of an extra session.

Mr. Kilgore explained to the president that he did not have his family with him during the past session, but desired to bring them to the capital before the next house convened: "I would like to know, Mr. President," said the Texas representa-tive, "whether you intend to call an extrasession, so I may make my arrangements accordingly!"

"I intend," replied Mr. Cleveland, "to call an extra session in September."
"Am I to understand, Mr. President, that
the session will be called the first of September or the latter part of the month?"
"It will be called some time between the first and fifteenth of the month," was the president's reply.

Minister Stevens to Beturn, Washington, April 28.—The resignation of Hon. John Stavens, United States minister to Hawaii, has been in the hands of the secretary of state for several weeks, and hence it is not surprising to hear that the minister expects to return home shortly.

Mr. Stevens is anxious to return and he is virtually defunctus officio in Hawaii. Mr. Blount, by authority of the president, is vested with planary discretionary powers paramount, and as he is conducting all negotiations, there is nothing for the minister

nexation or a protectorate. Minister Stevens is very popular with the people of Honolulu. As a testimonial of their appreciation of Mr. Stevens and his efforts in their behalf the citizens there have raised a purse of \$1,000, which they intend to present to him upon his depart-ure for the United States.

To Settle the Choctaw War. Washington, April 28.—The president has summarily taken jurisdiction of the Choctaw Indian troubles. As Secretary Smith seemed unable to settle the conten tion down there, and as there was continual danger of violence and bloodshed, the president concluded to exercise his authority.

He has decided to sustain the Jones, or

governmental faction, and a proclamation to that effect will be issued. It has been prepared, and will be promulgated before the president's return. It will order antagoniats of Jones' authority to disperse.

The exodus of the government of New York has left the war department without any authorative head. General Schofield, who was first designated to act in the absence of Secretary Lamont, is in New York, and Assistant Secretary Grant, who was by later arrangement to have been acting secretary, has been called away by the illness of his wife. Should anything arise re-quiring action of an official head, it must

be attained by communicating with Secre-tary Lamont in New York. Army Officers as Indian Agents. Army Officers as Indian Agents.
Washington, April 38.—The president
has determined to appoint army officers as
Indian agents. To several congressmen,
who have urged the appointment of constituents as Indian agents, the president
has frankly avowed his purpose to appoint
army officers. The last to whom he thus
declared himself was Representative Livineston.

The president said that the last Indian appropriation bill contained a clause which, though not mandatory, left it in the diseretion of the president to select army of-ficers for these posts, and he thought it well worth the experiment. He said he had conferred with Secretary Smith and Indian Commissioner Browning on the subject, and they agreed with him that it would be well to test the efficiency of army efficers as Indian agents. The president further expressed the opinion that the of-ficers would be able to control the Indians better than civilians.

Editor De Mazade Dead. Panes, April 28.—Charles De Mazade, the noted editor and critic, died last evening.

Why? Why is Strictly Pure White Lead the best paint? Because it will outlast all other paints, give a handsomer finish, better protection to the wood, and the first cost will be less. If Barytes and other adulterants of white lead are "just as good" as Strictly Pure White Lead, why are all the adulterated white leads always

branded Pure, or "Strictly Pure White Lead?"

This Barytes is a heavy white powder (ground stone), having the appearance of white lead, worthless as a paint, costing only about a cent a pound, and is only used to cheapen the mixture. What shoddy is to cloth, Barytes is to paint. Be careful to use only an old and standard brand of white lead—the

HERE.

Dear Sir:—I was an invalid for years, suffering from kidney trouble and female weakness. Physicians prescribed for me and I took various rem edies, but ..o benefit resulted. Our daily paper noticed the success of Dr. David Kennedy's Favorite Remedy, of Rendont, N. Y., in cases similar to my own. I purchased it. The first bottle taken in small doses, but very regular, improved me wonderfully. My complexion cleared, appetite improved, sleep was sound and refreshing, and a little further use entirely cured me. There never was a medicine for woman-kind, like Favorite Remedy. With all my heart, let me urge them to use it. Relief will be the result.

PHILADELPHIA, April 28.—There is one more loper in the Municipal bospital, but this time the patient is a woman over 60 years old. Several months age this patient, whose name is withheld for family remons, was reported to the board of health as a sufferer from a peculiar disease. She was examined and she told Medical Inspector Taylor that about 40 years ago she kept a boarding house uptown, and that one of her boarders was a Mexican sailor. He fell sick and she nursed him; but some months afterward she complained of a pe-culiar lighting sensation over her body. The board concluded that she should be

isolated, and she was immediately removed from her friends and placed in the Municipal hospital as a suspicious patient.
Dr. Weish has informed Health Officer Veale that the woman's disease has devel-oped so acutely that there is now no doubt

their entire attention to duty and receive no extras to the shape of rewards, fees, etc. Several days ago a team owned by Peter Herbein, an Exiter township farmer, was taken from the Northeastern market house by two boys. A reward of \$10 was offered for the return of the team and Officer Behlar recovered it. The reward was paid to Chief Culien and the officer laid claim to it. The matter was referred to the mayor, who consulted with the city solicitor, and the latter said that the officer could make no legal demand for the money and that the city was not entitled to it, as no provision was made for such cases.
