AT THE TREASURY DEPARTMENT.

A Virginia Democrat Selected by Secretary Carlisle to Fill Lang's Place-Preparations Reing Made to Receive the Royal Visitors From Spain-Other Interesting Washington News.

WARRINGTON, May 4.—The number of callers at the White House yesterday was surprisingly small considering the long absence of the president. Senators and representatives dropped in occasionally, but at no time was there any growd. Secretary Carlisle was the first to set the guillotine to work. One of his first acts was to call for the resignation of T. F. Lang, a republican chief of division from Maryland. A

Virginia democrat has been selected as Lang's successor.

The Maryland democrats claimed the place on the ground that a citizen of that state now holds its. Secretary Carlisle replied that he had determined to change the roller of supplementing, removal afficials. priest that he had descriment to change the policy of supplementing removed efficials with citizens of the same state; that it tended to create the feeling of state pro-prietorship in such position, and he would not encourage any such idea. He said that he would deal equitably with the different states, and would give to haryland some other variation could be such as that to be other position equally as good as that to be vacated by Lang.

She will arrive in New York on the 20th lost, and Captain Davis will meet her and her suite there and remain with her during her stay in the United States.

The Gold Situation, WASHINGTON, May 4.—The gold reserve, WARRINGTON, May 4.—The gold reserve, according to the treasury books is \$67,025,000. This includes, as far as can be accurately ascertained, all the gold offered and accepted within the past ten days, except about \$750,000, thus leaving the reserve invaded about \$2,000,000. This has been occasioned by the quiet withdrawal of gold from the New York and Boston subtreasuries for slipment to Canada, and by the further fact that \$1,000,000 promised from the west at the last moment was withdrawn.

withdrawn. Some small offers of gold were made yes terday and accepted, and unless the export for Saturday is large, it is probable that the treasury may make up the present de-ficiency, and the gold reserve again become intact. The total gold in the country, as estimated by the treasury's official circulation statement, aggregates \$613,000,000, of which \$518,000,000 is in circulation.
