### A PATRIOTIC SERVICE, STILL ON THE INCREASE

#### PATRIOTIC SONS OF AMERICA ATTEND CHURCH.

#### SERMON BY REV. ROBERT O'BOYLE

Copies of the Beautiful Order of Service Given the Attendants as a Souvenir of the Occasion.

At the top of the programme was the motto of the P. O. S. of A., "God, Our Country and Our Order" and at the bottom, "First in war, first in peace, and first in the hearts of his countrymen."

Rev. O'Boyle, during the sermon briefly reviewed the history of America from the colonial period to the present day and pointed out three principal lessons to be drawn from the history of the country. He said that the establishment of the Union did not spring from a spontaneous resolution of a body of people, but was brought about by a divine necessity. God gave the people the patriotic inspiration and brought about the struggle and victory and independence and he is now guarding it. To preserve the glorious liberty and independence of this land it is necessary that the people should be educated, for that reason the American people take great pride in the public schools. But while we must always, as patriotic citizens, stand by the public school system, we must also stand by the christian church. The heart as well as the intellect must be educated, and therefore the public schools and the christian church must go hand in hand in the glorious work.

He Surprised Them. Chief of Police O'Hara and Constable Tosh on Saturday night arrested Frank Savanusk, a Pole, for being a nuisance. While Savanusk was awaiting his hearing Tosh noticed that the shoe on the prisoner's left foot was of gigantic proportion, while the other shoe was of but medium size. "What is the matter with your foot?" asked Tosh. Savanusk took off the shoe and to the astonishment of the Justice and officers displayed a foot bearing eight large and well developed toes.

### THE WORLD'S FAIR.

In response to many requests, the HERALD has undertaken to charter a special palace car in conjunction with the special train which is to leave Shenandoah in July next with a limited number of passengers for the Columbian Exposition. The Pullman palace cars are furnished handsomely, with all the conveniences of a restaurant, lavatory, barber shop, gorgeous sleeping apartments and everything of the most luxurious character. There will be no change of cars on the route, and the course taken will be over the most picturesque scenery on this continent. The car will go all the way through and there will be no annoyance usually occasioned by changes of cars. This will be a great chance for a limited number of people in this section to go to the fair. The train will leave in the pleasantest time of the season, when all the exhibits will be in place, and everything will be in good working order. The cool north breezes blowing off the lake will modify the natural heat of the month. Every advantage also will be offered in the way of rates. First come, first served. Only a limited number of tickets will be sold for this car, so no time should be lost in making application for them, which can be done at the HERALD office.

### A WARNING FOR TRAMPS.

The Penalties a Number of Them Received on Saturday.

The Coal and Iron policemen of town appeared at the Pottsville court on Saturday as prosecutors against several tramps they arrested during the past month. Dennis Moran, alias "Centralia Red," Patrick McHale, William Rogers, alias Dean, and John Brown were each sentenced to one year at hard labor. John Fisher and William Franklin received sentences of 9 months each. Charles Willis and Thomas Johnson, alias "Big Dutch," pleaded guilty and were sentenced to pay the costs, which amount to about \$70 in each case. William Snyder, alias "Fatty," got three months, and Michael Wills got two months. The C. & L. police intend to arrest all tramps caught on the P. & R. railroad properties, or in towns adjacent to the railroad.

### Good, Clean, Wholesome Fun.

Miss Agnes Herndon in "La Belle Marie" is as strong an attraction as one can expect to see and the audience that will greet this charming actress at the Palace theatre, Girardville, to-night will have an evening of unlimited enjoyment. "La Belle Marie" was written for Miss Herndon, expressly to fit the fair artist's line of work, and the New York and Boston critics, in particular, credit the author with having done a good piece of work. This is really one of the good things of the amusement season that you can't afford to miss. Chart now open at Porta's stationery store.

### REPORTORIAL GLEANINGS.

#### SOME OF THE ARRESTS MADE IN TOWN.

#### A GYPSY BELLE AMONG THEM.

Constable Tosh Discovers a Freak. A Prisoner Astounds Him by Wagging Eight Toes on One Foot.

It is very seldom that the dark and dingy cells of the lockup of this borough are made radiant by the presence of a gypsy queen and therefore the cell doors rattled with astonishment on Saturday when one was led into the place. One of the belles of the gypsy encampment which has held forth on Locust Mountain near the cemeteries for several days past came to town and got so drunk that the police were obliged to take charge of her. During her incarceration the wanderer bemused her fate in true gypsy fashion and wept almost incessantly until a male member of the tribe appeared and secured her release upon payment of the borough fine.

#### An Important Decision.

On September 26th, 1890, a Philadelphia & Reading Railroad freight train was wrecked at the Shamokin yard and Hiram Rupert, a brakeman, was among the injured. When he recovered he instituted suit for damages against the company, which, in addition to disavowing liability, on the ground that the crew had acted without orders, set up a defense that Rupert signed a paper releasing the company from all damages when he joined the company's relief fund. He was paid \$204 out of the fund. The case was tried before Judge Sizer at Sunbury on Friday. The court held that the money paid Rupert out of the relief fund was a compromise and dismissed the case. An appeal will be taken to the Supreme Court.

#### For the Fair.

This morning a large piece of coal was shipped from the Kohlinor colliery for Chicago. It will figure in the mines and mining exhibition at the World's Fair. The piece is five feet square and is a fine specimen of the Mammoth vein of coal. It is in the rough and with the exception of a slight trimming is just as it appeared when taken from the mine. It was sent on a flat car and unboxed, so that people along the route will be able to view it.

Deserves all the Praise. The "Admiral" cigarette is being lauded for its superior merits by all connoisseurs. It deserves all the praise showered upon it. B. Lahows & Co., Mahanoy City, Pa., are the local agents.

### OBES OBSERVATIONS.

What He Sees and Hears During His Travels.

Now that the fears occasioned by the threatened bursting of the breastwork of one of the water company's dams have been allayed some amusing stories are told of incidents that were noted during the spasms of terror. One is told of 'Squire Monaghan, who is looked upon as one of the sages of the First ward, and what he says "goes" whether it be a political or other question. When the mischievous shots were fired Thursday night people who mistook them for signals that the dam had burst gathered about the entrance to the temple of justice and with tears in their eyes asked the 'squire if he thought there was any danger. The 'squire was as cool as a lump of ice and in loud, clear cut tones, told the people gathered before him that there was no danger, that the shots were false and malicious. He was soaring high in Websterian terms and had just said, "Now, my good people, return to your homes and 'fresides'" when a small boy dashed through the crowd shouting, "The water is coming." The next instant the good people were like an army without a leader. They scattered in all directions and 'Squire Jack, with hat in hand, was hastening towards his home as fast as his legs could carry him. When he learned that the report of the small boy was a hoax he laughed and said, "Oh, I was cool enough and had the frightened people well in hand, but that lad took me completely by surprise."

It is true that the Supreme Court has granted writs of appeal and certiorari in the Shenandoah Water Company cases against the borough, but it is not true that the writs serve as an injunction. The borough can go ahead with the water works the same as if no litigation was pending.

A gentleman commenting on the recent decision in the Summa-Breen license case, declaring that creditors have no lien on a saloon license, says that while the law may be correctly interpreted and stated and the decision is well based in law, it does not favor of equity. He said that Summa left his creditors in the hole to the extent of about \$2,000 and they had an offer of \$1,000 for the transfer of the license, which they could not secure because Mrs. Breen claimed and got it on account of being the owner of the premises. "The result is," the gentleman said, "Mrs. Breen gets for nothing what would have realized \$1,000 for the creditors and I understand she is about to transfer the license for \$600."

Speaking of licenses reminds me of the emphatic remarks used by Judge Harry White on Friday last when he was asked to make an order for a hearing preliminary to the transfer of a license. The Judge asked, "Didn't these people know before they got the license that they wanted to sell it? It must be understood that the court is not to be expected to make merchandise of licenses. Why, it's preposterous, it's abominable to think that a man would get a license one day and come in the next to have it transferred."

The pathway of the foreigner who schemes to skip from this town without paying his taxes is not strewn with roses. On Thursday last three Polish fellows, who wanted to go to New York with the intention of sailing for the old country, walked from town with their luggage and upon arriving there they found Deputy Tax Collector Higgins was a passenger on the train they wished to take. To throw the collector off the track they remained at the depot and made no attempt to board the train. After the collector departed they walked to Barry's Junction, only to find Higgins' there waiting to receive them. They gave up the game, paid their taxes and continued their journey by train and in peace. One of the men showed over \$300 in cash. One.

#### "The Two Johns"

J. C. Stewart's very funny comedy, "The Two Johns," a rare farce-comedy, was presented at the Grand Opera House last evening, and was enthusiastically received. It is a good play and one of the most successful on the road. The company has enjoyed eleven years of prosperity and piled up a fortune of over one hundred thousand dollars for its owners. This is a record almost unparalleled in the annals of the theatrical world.—*Boston Globe*. "The Two Johns" will appear at Ferguson's theatre this evening.
