A JUST REBUKE.

The Legislature did well when it rejected Representative Losch's proposition to reduce the mlary of Dr. J. C. Biddle, the surgeon in chief and superintendent of the Miners' Hose diana pital at Fountain Springs. Conservative thinkers have reached the nonclusion that the Schuylkill Haven Indiana. statesman is rapidly building his tomb and when his present term of office expires he will be relegated to office expires he will be relegated to some the entire train would have been the rear and heard of no more as a thrown into the Wabash river. Owing to prominent figure in Schuvlkill county a sharp curve in the track on the west aide polities. His conduct thus far has been that of a man whoseeks notoriety and he is diverting his time from the consideration of those things which bear upon the interests of his constituents to the more clownish tactics of exploding sensational booms. His trumpeting about the Philadelphia electric trast, in which the people of Schuylkill have no interest and his uncalled for fight with the committee he caused to be appointed, were alone sufficient to worry his consiltuents, and now that he has unwarrantly attacked the best institution the working people of this part of the anthracite coal field has the people who sent him to the Legislature must be disgusted with bim.

Representative Loseh's attack on Dr. Riddle was as coawrdly as it was uncalled for. The grounds he put forth to sustain his measure to reduce the salary, if true, should have been used as a basis for Dr. Biddle's removal, but Loseh knew that the superintendent had in no wise exposed him- ed, self to such a proceeding. He wanted to get a slap at Dr. Biddle and the hospital management and did it under a false mask of reform. The slap was a hard one and Losch will flud that the voters of his own district as well as the miners throughout this section will continue to feel its smarling effects should be again come before them as a candidate for pub' ic office.

The faith of the people is as strong in the management of the Miners' Hospital to-day as it ever has been and Dr. Biddie's popularity with them was never greater. Mr. Losch's insinuations that the institution is Fair. suffering from neglect by reason of the superintendent's trip to Europe and hunting and fishing trips are obliterated by the reports of people who leave the institution daily after receiving invaluable treatment. True, the doctor did go to Europe and does absent himself from the hospital occasionally, but the color which Mr. Losch put on these trips is effectually rubbed off by the public letter of Heber S. Thompson, vice president of the hunter a bounty of \$10. the board of trustees of the institution,

in which he says: "Dr. Biddle has never been abroad but once in all the years of his service in connection with the hospital and in connection with the hospital and then for about twelve weeks in which he spent most of his time inspecting the medical institutions of Europe, notably the great hospitals of Vienna. His health is not robust and the trustees have urged him to take such occasional recreation as is possible without much absence from the hospital. This has probably given rise to pital. This has probably given rise to he charge of his making hunting and in six rounds. fishing excursions."

It is hoped Mr. Losch will soon acquire some good sense and abandon the bombastic tactics which have marked his brief career in the Legislature. If he does not he will quit the House with only a long record of mistakes and silly charges to give his constituents in return for the trust which they have placed in him.

Meanwhile Dr. Biddle can rest as sured that the people are well satisfied with his work at the Miners' Hospital and that they have no grounds upon which they can rebuke him in any manner.

Piles or Hemorrholds Permanently cured without knife or ligature perfect cure guaranteed. Send for circular.
