### The Senate Passes the Farr Measure Finally.

**BUT TWO VOTES AGAINST THE BILL.**

No Great Amount of Discussion Indulged in Previous to the Vote Being Taken—The House Kills the Niles Bill by a Vote of 120 to 69—Both Houses to Adjourn Sine Die on June 1.

HARRISBURG, May 10.—The legislators got to work early yesterday and before adjournment last night had finished up sufficient business to convince the average citizen that the calendar will be cleared before the last day of this month in order to allow both branches to adjourn sine die on the day following, June 1, as now agreed upon.

The features of legislation yesterday were the defeat of the Niles tax bill in the house and the passage by the senate of the free school book bill and the McCarrill bill requiring the state to pay the per diem and mileage of jurors.

The first debate in the senate was upon the Farr free text book bill, which will require school directors or controllers to furnish school books and other school supplies free of cost. Senator Brown, of York, wanted to amend by inserting a provision that the books shall be purchased gradually. His amendment was discussed and defeated. Senator Ross made a speech against the bill. He thought the present law, leaving the question of supplying text books optional with school boards, was good enough. Senator Hackenberg took the opposite view and presented many reasons for the passage of such a law. Senator Grant also supported the measure. It passed finally—42 yeas and 2 nays, those voting in the negative being Senators Ross and Mitchell, of Bradford.

Among the bills passed finally were the following:

House bill to enable borough councils to establish boards of health.

Defining the duties of pawnbrokers or other persons who shall receive any article of personal property in pawn, pledge, or as security for the payment of money borrowed, in order to facilitate the detection of thieves and the recovery of stolen property, and providing penalties for the violation of the same.

House bill to authorize the election of a chief burgess for three years in the several boroughs of this commonwealth, who shall not be eligible to the office for the next succeeding term.

House bill to establish a medical council and three state boards of medical examiners, to define the powers and duties of said medical council and said state boards of medical examiners, to provide for the examination and licensing of practitioners of medicine and surgery, and to make an appropriation of \$100,000 for the purpose.

Senator McCarrill's bill to provide for the payment of the per diem and mileage of jurors attending courts out of the state treasury was called up on third reading when Senator McCarrill stated that he had been gathering statistics from the several counties and found that the average cost per annum in the state for jury service was \$550,000. Senator Herbig supported the bill. He said the state was well able to pay this expense. Senator Grady declared the condition of the treasury would not justify the passage of the bill at this time. Senator Baker thought the bill would relieve local taxation. After some further discussion and after Senator McCarrill had replied to some objections to the bill the yeas and nays were called, resulting in the passage of the bill by the vote of 38 to 7.

Senator Gobin created a breeze by raising the point of order that the bill to exempt the payment of mercantile licenses all dealers in merchandise in Philadelphia whose annual sales are less than \$3,000, was inappropiate upon the calendar. He contended that it had not been reported from the committee to which it had been referred, but Senator Grady and other members of the committee declared that the gentleman from Lebanon was mistaken. The chair decided his point not well taken and the consideration of the bill went on. The bill was defeated by the vote of 21 to 21.

The senate concurred in the resolution providing for final adjournment on Thursday, June 1.

At the afternoon session Mr. McCarrill urged against the passage of the Baker bill providing for the incorporation of casualty insurance companies that it would give a monopoly to this class of companies doing business without a charter and simply as apply to all associations whether incorporated or not. The bill passed—yeas 38, nays 2.

The letter days must certainly be at hand. The Delaware peach growers actually admit that they will have the largest crop yet grown.

The present is not the longest wet season on record. Some years ago it rained 49 days and 40 nights. A man named Noah and his family had to take a boat to escape drowning.

It is stated that the colored people of the United States support seven colleges, seventeen academies, and fifty high schools, in which there are 30,000 pupils. They have 1,500,000 children in the common schools and 24,000 teachers. More than 1,500,000 of the race can read and write. If such educational progress continues the "negro problem" will cease to be one of startling moment. It is the foreign vote, and not the "joins" in the minor horn, which should raise the dangerous alarm.

GOVERNOR PATTERSON has again disappointed and dissatisfied the volunteer firemen of the state by the use of his veto power. The pensioning of volunteer firemen has been a theme of much discussion for several years, and a bill providing for it has passed both houses twice, but each time Governor Patterson has wielded his favorite weapon—the veto power—and killed the measure. The first bill was framed by some of the ablest lawyers in the state but Governor Patterson found some features which he considered unconstitutional and for that reason he vetoed it. The second bill was prepared with the features Governor Patterson objected to omitted, and yet the veto was operated again.

SUNDAY afternoon a carriage, with two women in it, drove up to Mr. Cleveland's hotel in Chicago. The President hurried downstairs and, with a beaming face, entered the carriage. Two hours later the President came back with Secretary Gresham. He was smiling and even gay. He had been attending a christening—the christening of a baby 14 months old, the little grandchild of the Secretary. He had not stood as godfather, but had simply been present and had kissed the baby and watched the whole proceedings with the eye of a connoisseur in matters of infant etiquette. He had seen the naval review and was interested in that; he had seen the World's Fair buildings and had been interested in them, but really the christening was the thing that had pleased him most, and his face plainly showed it.

### MUST ECONOMIZE.

The enormous expense attending the running of the Columbian Exposition is very far from being met by the receipts thus far, or what they are likely to be for a month to come. While this was to have been expected to some extent, the difference between the receipts and the current expenses is so great that the managers have become alarmed, and the subject to which their attention is now directed is a cutting down of expenses.

They think that there are too many largely paid employes, and there is every reason to believe that such is the fact, for when the enterprise was commenced everything looked so encouraging and everybody was so enthusiastic that an army of employes at extravagant salaries was regarded as indispensable. A menagerie force of subordinates would not be in keeping with the magnitude of the affair, and of course salaries were proportionately liberal. The error has been discovered. The Exposition has commenced business, and the managers are confronted with the startling fact that it is not nearly paying expenses. There must be retrenchment, reform, curtailment of outlays. Supernumeraries must be given their walking papers and only enough subordinates retained to perform the work needed to be done, even though the performing of it shall require extra hours. In a word, the true realities are beginning to confront the managers, and it is not surprising that they are becoming alarmed and instead of crowding sail in the matter of outlay, it behooves them now to economize, in the fullest sense of that term.

meeting at home, when those present evinced a knowledge of the bill equal to that of a corporation attorney.

Mr. Martin, of Lawrence, spoke in favor of the bill.

The yeas and nays were demanded on the final passage of the bill, which shows a vote of 120 yeas to 69 nays, and the bill was killed.

Mr. Boyer, from the ways and means committee, reported a resolution for adjournment sine die, Thursday, June 1, which passed.

The act to secure to mechanics, journeymen and laborers the right to file liens against real estate for wages passed finally.

The afternoon session of the house was marked by the defeat of the famous rapid transit bill by a vote of 83 to 95.

The bill repealing the act of 1883 to prevent the consolidation of pipe line companies was defeated.

### REPUBLICANS AT LOUISVILLE.

#### The League Convention Called to Order This Forenoon.

LOUISVILLE, Ky., May 10.—The usual incidents and scenes of convention time began to multiply in the streets and hotels here last night, and the success of the league convention is now assured. There were more than a thousand delegates seated in McCauley's theatre when President Clarkson called the convention to order this forenoon. Even California has sent sixteen delegates to the gathering, which illustrates the deep interest felt in the maintenance of the league clubs. Other states have proportionate representation.

The convention met at 10 o'clock this forenoon and remained in session but a short time, when Kentucky's unwritten law to adjourn for the Kentucky Derby was observed.

Curiosity and speculation center to-day almost entirely about the possibility of a tangle in the proceedings of the National committee, whose first session is to be held late this afternoon.

The question of the chairmanship of the main point in the discussion of the manager's affairs and the arrival of Mr. Carter Monday night and of Mr. De Young yesterday morning has given fresh impetus to the talk about their attitude toward the place. Both wait the place and will put forth a strong effort to be elected.

### WARM WEATHER BRINGS CROWDS.

#### A Great Throng Attends the World's Fair in Chicago.

CHICAGO, May 10.—Yesterday's morn weather brought the largest crowd yet to the Exposition. Up to date 8,873 more persons have paid for admission here than at the Centennial. The program included exercises by the Catholic Knights of America, it being their day at the Fair.

Outside of this time of those not engaged in sight seeing was occupied in meetings of the World's Fair officials, the meeting of the national commission and the orchestral concerts in music hall and the band concerts in agricultural building morning and afternoon. Last night Vermonians were banqueted at the Hotel Vendue and to-day they dedicated their state booth at the national commission.

Higginbotham on the Wrecked Bank. CHICAGO, May 10.—In conversation with a reporter yesterday afternoon, President Higginbotham denied that the council of administration had in any way endorsed the Chemical National Bank's branch at the Fair grounds.

"Our position is just this," said he. "We have endorsed the bank only in so far as any person might make an application for a banking institution in the country."

"It was a legally organized corporation under the banking laws of the United States, amenable to all the rules and regulations of the national government controlling the currency question, and was, of course, believed in all right. As far as the council of administration is concerned, it is my personal opinion that it is not and cannot be held responsible for any liabilities arising from the bank's embarrassment. I am endeavoring to get the council together so that the matter can be discussed, and by tomorrow night we will know just where we stand."

### DOUBTING SUFFERING WOMEN!

MANY SUCH HERE.

Alive to the interests of our lady readers, we publish Mrs. Simpson's letter to Dr. Kennedy.

Dear Sir—I was an invalid for years, suffering from kidney trouble and female weakness. Physicians prescribed for me pills, but no benefit resulted. Our daily paper noticed the success of Dr. David Kennedy's Favorite Remedy, of Rondout, N. Y., in cases similar to my own. I purchased it. The first bottle taken in small doses, but very regular, improved me wonderfully. My complexion cleared, appetite improved, sleep was sound and refreshing and a little further use entirely cured me. There never was a medicine for woman-kind, like Favorite Remedy. With all my heart, let me urge them to use it. Relief will be the result.

Mrs. S. P. SIMPSON, Turner, Ill.

Such a frank, candid statement leaves the impression of truth upon its face.

The best proof of the value of Dr. Kennedy's Favorite Remedy, is the good it has done. What reason then for one suffering, or half sick, to remain so.

### Both Had Eczema In Its Worst Form

After Physicians Failed, Hood's Sarsaparilla Perfectly Cured.

Great mental agony is endured by parents who see their children suffering from diseases caused by impure blood, and for which there seems no cure. This is resorted to by Hood's Sarsaparilla, which restores to the blood, and restores the diseased skin to fresh, healthy brightness. Read the following from grateful parents:

"To C. I. Hood & Co., Lowell, Mass.:

"We think Hood's Sarsaparilla is the most valuable medicine on the market for blood and skin diseases. Our two children suffered terribly with it.

**Worst Form of Eczema**

For two years we had three physicians in that time, but neither of them succeeded in curing them or even in giving them a little relief. At last we tried Hood's Sarsaparilla and in a month both children were perfectly cured. We recommend it.

### Hood's Sarsaparilla

is a standard family medicine, and would not be without it. Mr. and Mrs. M. M. SOLLER, 1412 1/2 Avenue, Altoona, Pa.
