SHE WAS SHOT DEAD IN HER ROOM

Mary Sexton Believed to Have Been Murdered by Her Lover.

New York, May 15.—With a bullet through her neck, Mary Sexton, 19 years old, was found dead in a tenement house here, having probably been shot by her lover, William Flannery, 23 years old, and a truck driver, with whom she had been living a month or more. Flannery was going to desert her, when they quarreled and he shot her, the police believe. The fellow at once gave himself up, but denies that he shot the girl.

He declares that a quarrel arose between them, and he got a revolver and shot her through the left forearm. Then she killed herself. In proof of his story he showed his left arm, which was bleeding from the bullet wound. But the police think they had a struggle, during which Flannery drew his revolver and shot her. He had thrown up his left arm to push her back from him and the bullet went through his forearm and then lodged in her neck.

SAY THE AGENTS ARE TO BLAME.

Governor Waite Tells the Cause of the Recent Indian Troubles.

DENVER, Col., May 15.—Governor Waite has transmitted a communication to President Cleveland relating to the recent Indian troubles in which he recites in very plain language the causes that have led to the recent outbreaks and directly charges the Indian agents with negligence and incompetency. He says:

"From the best information I can get the outbreak in New Mexico was the result of abuse and insult by drunken and renegade Indians. The periodical troubles in Colorado result from the fact that the Indians are allowed by the United States Indian agents to wander away from their reservation.

Governor Waite also says that the Indians as well as the government are being systematically robbed by some of the agents, and this, in his opinion, accounts for all the trouble that has arisen.

THEY MUST NOT VIOLATE THE LAWS.

Uncle Sam May Not Allow the Fair to be Open Sundays.

WASHINGTON, May 15.—The treasury department has not received any official notice of the action of the World's Fair commission on the Sabbath closing question, but Assistant Secretary Curtis, who has charge of all that matter, had a conference with Mr. Carlisle on the matter, and evidently prepared a plan for action, but he refuses to talk until some official notice is brought to the department.

"I cannot anticipate what will be done," he said. "Attorney General Olney's opinion already given in the case covers some of the points, but further than that I cannot say."

It can be stated, however, that the government does not intend to sit idly by and see the Exposition authorities violate the law. Action will probably be taken before May 21, the day set for the opening, and the Fair people will no doubt feel the strong arm of the law.

These Pension Frauds Again.

WASHINGTON, May 15.—It is stated at the pension office that up to last Thursday the pension examiners now in Norfolk, Va., investigating the claims filed by Pension Attorney Drewry had completed fourteen cases, all of which had been found to be irregular or fraudulent. The pension officials are searching the claims filed by Drewry which had been allowed and so far 146 have been found and forwarded to the examiners at Norfolk. No computation of the amounts paid on these claims have been made, but as all of them were filed under the act of June 27, 1890, which allows \$12 per month as the maximum rate, it is probable that the average will fall below \$300 each. Mr. Drewry is now serving a one year term in jail for fraudulent transactions in pension cases.

Shropshire to Succeed Hooper.

WASHINGTON, May 15.—The announcement comes from Indianapolis that Samuel S. Morse, the new consul general to Paris, has appointed Clyde Shropshire, of Georgia, vice consul general in place of R. M. Hooper, who has been connected with the office ever since the war. The determination of Mr. Morse in this matter was awaited with some anxiety by those interested. A considerable pressure was brought to have Mr. Hooper retained, and on the other hand there was a formidable movement to secure a new man. Mr. Shropshire is said to be eminently well qualified for the position, having been a practicing lawyer in Paris for several years.

Pennsylvanians Appointed.

WASHINGTON, May 15.—The following appointments have been made in the department of agriculture: George P. Toner, of Pennsylvania, to be assistant inspector in the bureau of animal industry at Pittsburgh, at \$1,000; John Duris, Jr., of Pennsylvania, to be inspector at Pittsburgh in the same bureau at \$1,400; Edward H. Flood, of Pennsylvania, to be inspector in the bureau of animal industry at Philadelphia at \$2,250.

THE SOLDIERS' MONUMENT.

Nearly Three Hundred Dollars Added to the Fund.

During the past few weeks but little has been published concerning the work of raising subscriptions for the Soldiers' Monument fund, yet the work has been progressing very favorably and nearly three hundred dollars have been added to the fund since the last official statement was announced, making the total now in hand nearly eight hundred dollars.

The subscriptions recently added are the last six published in the table below, among them being the handsome contribution of \$75 from the Women's Relief Corps, which organization has elected Mr. John Watson to represent it at the meetings of the joint committee.

This is a sentiment in favor of urging the committee to proceed to have the foundation for the monument laid at once. The reasons given are that it will be cheaper to have that part of the work done before the site selected is paved and that much labor and time will be saved when the time to put up the monument arrives.

USE DANA'S SARSAPARILLA, ITS "THE KIND THAT CURES."

THE REVOLUTIONISTS GAINING.

Further News from the Scene of Hostilities in Nicaragua.

New York, May 15.—At the offices of the Nicaragua Coal Company news has been received from the seat of revolution in Nicaragua. The canal company owns a private telegraph line from Greytown on the gulf coast, to Fort San Carlos, on Lake Nicaragua, where it connects with the government line to San Juan del Sur, which connects with the City of Mexico, over which line all communications received here must come.

Two battles fought near Masaya have resulted in favor of the revolutionists, whose superior artillery caused the government troops heavy losses.

San Juan del Sur is known to be in the hands of the revolutionists and it is supposed that the entire country traversed by the San Juan river and the Nicaragua canal is also held by the insurgents. But even if it were not there would be no chance of sending news out by way of San Juan del Sur without having it revised by the revolutionists, except to send it south by water to Port Linton in Costa Rica, where it would catch one of the Royal Mail steamers. This would necessitate a delay of several days.

Ex-Senator Warner Miller has been called out of the city on business up the state, and left without apprehension of any danger to the interests of the canal, whatever might be the state of affairs in the country.

Fired a Bullet into Her Brain.

WAYNE, May 15.—The body of Mrs. Maggie Young, aged 37 years, was found lying on the roadside near here yesterday with a bullet hole in the head. Beside the body was a revolver with one chamber empty. Mrs. Young lived in Philadelphia and her husband is a carpenter. The woman has been a victim of melancholia for some time and she undoubtedly took her own life.

Two More Banks Collapse.

CHICAGO, May 15.—Word has been received of the suspension of the Citizens State bank, at Cherrubus county, Ind., capital, \$25,000; deposits, \$30,000; and the Citizens' bank, at Kempton, Ind. They were branches of the Columbia National.

He Shot the Conductor.

SEYMOUR, Ind., May 15.—Conductor Louis F. Price, in attempting to eject John Terrel from an Ohio and Mississippi train near here for non-payment of fare was shot twice in the abdomen. Terrel is in jail and Price is dead.

Lets of Anthracite Coal Produced.

HARRISBURG, May 15.—The reports of the mine inspectors to the secretary of internal affairs show that the total production for 1892 of the anthracite coal region of Pennsylvania was 45,838,543 tons.

Grand Display of FINE DRESS GOODS
DRESS GOODS is such a bewildering topic that we will not attempt a full description, but give a partial outline, which you can fill in by a personal inspection. There are the plain and changable diagonals; plain, plaid, striped and invisible plaid serges; fancy mixtures in all sorts of odd weaves; dots, threads, cross-threads, hair-lines, lines here and there, many at a glance appearing alike, but upon examination are found entirely different. Our assortment of silks is complete—china silks, china surah, plain surah, bengaline, plain, figured and changeable silks, in all the new shot effects. Full line of fancy braids to match any color of dress goods.
We find the most stylish and the prevailing mode to be the Cape, in some of its variations. Some are plain, others very highly decorated, with fancy iridescent braid, butterfly colors, or some full arrangement at the neck, so much approved this season by the feminine fancy. To some, coats only are the correct garment. To those we would say coats are equally fashionable and stylish, many of these having capes also attached—sometimes one, two or three, as the taste or inclination of the wearer may desire.
We have this season, for the first time, added a Millinery Department, and have spared neither trouble nor expense to make it a success. The result exceeds our most sanguine expectations. This department will be under the same management and conducted on the same principles that have always characterized our entire business. We shall keep everything in trimmed and untrimmed hats, novelties of every description. Having secured a trimmer noted for her artistic and skillful work, we are enabled to suit all tastes. We invite a careful inspection of our entire store. All welcome.
