THE COURT'S DECISION

On the Chinese Law Discussed By the Cabinet.

FULLER CALLS AT THE WHITE HOUSE

The Decision Thought to be Somewhat of a Surprise to the Administration-The Caltinet May Ask the President to Recommend an Income Tax in His First Anmust Message.

Washington, May 17.-It is understood that the entire cabinet will urge upon Mr. Cleveland the desirability of making a frong recommendation in his first annual resuge in favor of an income tax. Of the four measures which the democratic lead-ers desire to get through the next congress, he tariff, the income tax, the repeal of the election law, and the repeal of the Sherman act and the bank tax, the income tax was the only thing, it is said, that Mr. Cleveland hesitated about, though he was in-

clined to favor it. It is believed now that on the advice of his cabinet he will take a decided position in favor of the income tax. It is under-stood that a part of the plan for the next congress contemplates the turning down of Springer and the selection of Wilson, of West Virginia, as chairman of the ways and means committee, and also the retire-ment of Holman from the appropriations

mmittee. The decision of the supreme court on the Chinese law was under discussion by the president and his calmet. Before the cabinet meeting Chief Justice Fuller, who dissented from the decision, called at the White House and had a talk with the president. It is evident from the manner in which the decision is president to the called that it is the control to the con in which the decision is received that it was a surprise to the administration.

The decision of the supreme court, was discussed from every point of view, and it is understood the conclusion reached was that the law could not be enforced for the that the law could had be enough available for that purpose. The act carries an ap-propriation of \$100,000, and Secretary Car-lisle showed that not more than \$35,000 of that sum remain, with some bills still un

audited to be acted upon.

It was estimated that it would cost to deport all the Chinamen now in the country who have not complied with the law more than \$6,000,000. This statement exhibited what one member of the cabinet called the atter inability of the government to give any effect of the law itself, without for the raction by congress. Under the cir-cums onces, it was understood that noth-ing could be done, and it is said there is little, if any, probability of the government making any immediate effort to put the law into effect.
Numerous telegrams have been received

at the freezency department since yesterthy noon respecting the decision of the supremi court in the Chinese exclusion cases. Most of these telegrams ask that the law be suspended for at least six months, as its execution at this time will impose great hard ships on Chinamen in the United States. The President Made Them Happy.

Wassitzoron, May 17.—Before the cab-not neembled yesterday the president re wived about a dozen statesmen who w inter-sted in changes in the offices. He must have been in a peculiarly amiable mood, for his callers came away with expressions of satisfaction on their faces, and ome of them, at least, got what they want-

The Georgia delegation have been greatly exercised since the beginning of the administration on account of the difficulties in the way of the removal of Marshal Huck, of

that state. Buck was one of Harrison's most devoted supporters and a very "offensive par-tisan" from a democratic point of view, but in all their efforts to have him removed the Georgia congressmen have received strong infimations that it would be a long time before any change could be expected. Charges of offensive partisanship have been made against him, and Mr. Living ston and Mr. Moses called on the presiden ston and Mr. Moses called on the president with documents to sustain the charges. To their great gratification Mr. Clevelant promptly informed them that Mr. Buck would be removed as soon as his successor could be decided on. Mr. Pendleton, or West Virginia, who has been having a hard time to get one of his "offensive" presidential postmasters out of office, was informed that his removal would be made a once. He too, was made happy.
