THE COUNCILMEN MEET

QUESTIONS AS TO STREET IMPROVEMENTS DISCUSSED.

PRIZES FOR BREAKING STONE

The Street Paving Work to Proceed at Once—Aggressive Action in Connection With the Electric Railway.

HERE was a regular meeting of the Borough Council last evening at which the following members were present: Messrs. Kane, Finney, Betteridge, Stout, Hollman, Gable, Gallagher, Dougherty, Scheiffly, Cookley, McGuire, Van Dusen, James and Lamb. A number of citizens occupied seats in the visitors' section and several of them remained as spectators until the adjournment.

Mr. J. J. Monaghan asked that permission be granted by Council for the laying of a sewer pipe from Raspberry alley to the creek near Plank Ridge colliery, the intention being to drain properties on Lloyd and Union streets.

The request was granted on condition that the parties wishing to put in the sewer sign the usual agreement to repair the street after the work is completed.

Mr. Michael O'Hara presented a claim for \$11 for damages sustained by one of his carriages on West Coal street. He said an electric car was standing and his driver attempted to drive around it. The wheels of the carriage went down into a deep hole and the vehicle was thrown against the car. He said the accident was due to a bad condition of the street. The matter was referred to the street committee.

Mr. Cookley said that he was a member of the street committee in name but not in the game. He thought all members of the committee should be made acquainted with instructions given the supervisor. This led Mr. Gable to state he had given the supervisor instructions to clean up the town generally, and he was not directed to any special part of the borough.

Mr. McGuire thought that 75 cents a ton was too small a price to offer men for breaking stone for the streets.

Mr. Gable answered that Ashland is paying 60 cents a ton for the same work, and Mahanoy City 50 cents. He considered that in view of these facts 75 cents is a good price. He also said that a few men had been put at work to see how many tons can be broken in a day, to determine what a man can make.

Supervisor Llewellyn said that this test had resulted in two men breaking four tons in a day and two others breaking seven tons in the same time.

At this point Mr. Kane caused a roar of laughter by asking, "What is all this about this unfortunate stone crusher?" Somebody answered see Scheiffly, and Mr. Gallagher moved that proper notice be given to the Schuykill Traction Company to change the grade of its road on Main street below Oak street, and also pave its tracks, and in default of a compliance of the notice the Borough Council proceed to tear up the company's tracks to the borough line.

On motion of Mr. Cookley, it was decided that Contractors Grant be authorized to proceed with the paving of Main street, between Oak and Centre streets, according to grade and under the supervision of the street committee.

The fire apparatus committee reported that three fire plugs are still out of repair and the law committee reported that it will investigate the claim made for damages by Miss Maggie Miles, by reason of a fall on a pavement, before the next meeting of Council.

Mr. Finney announced that the Governor had signed the bill authorizing boroughs to establish Boards of Health and on motion, the ordinance committee and Borough Solicitor were authorized to make preparations for putting the law in operation in this town and report at the next meeting. The chairman will then be prepared to appoint the five members of the board.

An invitation from the P. O. S. of A. camps of town to participate in the 4th of July demonstration was accepted.

A report of the treasurer of the joint committee on public water works was presented. It showed an expenditure of \$2,280.25. Messrs. James, Finney and Gallagher were appointed a committee to audit the accounts and present an itemized statement at the next meeting.

Mr. Cookley recommended Mrs. Powell, of West Cherry street, for exoneration from taxes.

The street committee was instructed to hire carriages and make other arrangements for Council to participate in the Memorial Day exercises. In the afternoon the Council's annual tour will be made.

Truth like gold is not the less so for having recently been brought out of the mine. Dr. Cox's wonderful Cough Syrup, bearing the full image of the former and the shining stamp of the latter, passes current everywhere.

The two teachers who win first prizes in the HERALD's public school teachers' contest will have a glorious privilege in the opportunity to go to the World's Fair free of cost and visit the Pennsylvania building. This magnificent structure has many attractions within its walls. In the Philadelphia room, the City Councils have placed on exhibition, under the charge of Mr. Oliveieri, the owner, the celebrated mosaic picture, "The Discovery of the Remains of St. Mark," and the painting, "The Twelve Brides of Venice." The first is the work of Luigi Taddei, a Roman artist, and is a most remarkable work of art. It weighs 200 pounds, and contains over 1,000,000 pieces. One can hardly believe that the features of the 15 persons represented in the picture, the brilliant colorings and delicate shadings, could be so beautifully done in mosaic. General De Cesnola, the noted explorer of the ruins at Cyprus, and head of the Art Museum in Central Park, New York, has written a letter praising it in the highest terms. "The Twelve Brides of Venice" was painted by the late Giacomo Giacometti, of Venice, and represents the ancient "Marian Feast," held in commemoration of the reappearance of 12 noble Venetian ladies from the sea rovers of Trieste, who on St. Mark's eve, A. D. 925, seized them in the church on their bridal day and bore them away. Both these works of art are much admired, and it is to be regretted that some of the lady commissioners from Pennsylvania are objecting to their being exhibited in the State building on the ground that they are the works of foreign artists. Executive Commissioner Farquhar accepted them from Philadelphia, and it is determined that they shall stay in the State building.

PERSONALS.

George Rohland visited Pottsville to-day. John A. Kelly has returned from Philadelphia.

Miss Lizzie Williams went to Mt. Carmel this morning to visit friends.

Rev. William Powick officiated at a wedding in Reading on Wednesday.

George Johns and daughter, Miss Lizzie, of Pottsville, are visiting friends in town.

Messrs. Lewis Morgan, William and Martin Hobin, three of Girardville's most popular citizens, spent last evening in town with friends.

J. K. P. Scheiffly returned yesterday from Philadelphia, where he secured an appliance for the weak ankle which has been causing him so much trouble of late.

Samuel Boyer, son of S. C. Boyer, of Port Clinton, intends to graduate in the law next month and will probably locate in Pottsville. He is a bright young man and if strict attention to business and integrity counts for anything he will certainly attain prominence in the profession. This gentleman is the second of Mr. Boyer's sons who have adopted the profession. The other son is William D. Boyer, Esq., who is located at Scranton and has established a large practice.

KILLED AT ELLENGOWAN.

A LOADER BOSS KILLED BY FALLING COAL.

JAMES BUGHANAN THE VICTIM

He Had Held a Boship at the Mine for About Fifteen Years. A Popular Man—Member of Several Societies.

FALL of coal at the Ellengowan colliery yesterday removed one of the best known and popular men of this section of the anthracite region—James Buchanan. The victim was a loader boss at the colliery. After having his dinner he found that a trip of loaded cars was stuck in one of the gangways. Mr. Buchanan was a powerfully built man. When he reached the scene of trouble he rendered assistance by putting his shoulder against one of the cars and pushing. Just as the trip got started a slip of coal fell upon Buchanan and pinned him down against the rails.

The injured man was removed from the mines and taken to his home at Ellengowan. He lived about two hours after reaching there. He spoke intelligently to his family for some time before his death.

The deceased was 54 years of age and left a wife and seven children. One of the daughters is Mrs. Reddick, of Ellengowan. He was a veteran of the Rebellion and served almost all the time from the beginning to the close of the war.

Severn Post, G. A. R., of Mahanoy City, J. W. Stokes Lodge, No. 515, I. O. O. F., and General Harrison Lodge, No. 251, Knights of Pythias, lose a most popular member by the death.

Mr. Buchanan came originally from Philadelphia. He resided at Heckacherville for a number of years and was at one time a member of the Coal & Iron police force. He had been loader boss at Ellengowan colliery since the shaft was opened, about fifteen years ago.

The grand sacred concert by the Grant Band next Sunday will take place at the North end of Main street, just east of the fork of the Brandonville road. The concert will begin promptly at 3:15 p. m., giving Sunday schools ample time to reach the place and also guarding against the disturbance of any other sacred meetings of the day:

1. "Star Spangled Banner"..... Arr. by Sousa
2. Overture "Legion"..... Besthoven
3. "Magnificent"..... Megrolles
4. Chorus from "The Creation"..... Hayden
5. "The Heavens are Telling"..... Orth
6. "The advance and retreat of the salvation Army".....
7. Caprice "Solitude"..... Mercadante

GIVE THEM WORK.

An Excellent Opportunity for the Borough Authorities.

At no time for years have the authorities of this borough had a better opportunity to do something that will directly benefit all classes of people, and if they will take the hint and act promptly they can soon make a record showing that they are elected by and for the people.

Our town now has on its hands more unemployed labor than it has had since the days of the last strike and the situation is certainly distressing. There are men, strong, able and anxious to work, but unable to earn a cent, and in many instances the families are sorely in need of the necessities of life.

The cause of this is the continued idleness of three of the largest collieries in the district. The picks and shovels of hundreds of men are rusting and the tables in their homes are becoming more scant every day.

Those who have an insight of the situation say it is distressing, even critical, and relief must soon come from some source.

The borough authorities can come to the rescue. Fortunately there are a few thousand dollars in the treasury and much of it has been designed for street work and other improvements. Let it be spent now. The borough can stand several hundred dollars worth of improvements at the present time and a large force of unemployed labor is in need of an opportunity to secure bread and butter.

Many streets can stand repair, scores of pavements and gutters are not as required by the ordinances, several thoroughfares are unopened, and there are many other sources for like employment at hand.

The idea is not to break open the locks of the borough treasury and allow the gold to flow to the masses who would snatch up the pieces and fritter them away in extravagance and debauches. Far from it. The plan is to put in operation all work that is required for the benefit of the borough and give employment at fair wages to men who are willing to work and need it for the support of their families.

No reasonable man can object to this. Borough improvements, it is true, cost money; but it is more expensive not to have them. Bad streets and bad pavements have cost this borough thousands of dollars for damages, and imperfect culverts and other sources of drainage have caused both the taxpayers and borough authorities many sleepless nights.

Then again the money spent for this work will not go out of town. It will go into the pockets of these poor, distressed, unemployed men; hence into the pockets of the storekeepers; from there into the pockets of the property owners, and then back into the borough treasury again as taxes and other payments.

The idea is to lessen the strain of the present stagnation by causing a circulation of the money now lying idle in the borough treasury.

Let the borough fathers give this matter their serious consideration at once. They will reach the conclusion that it is time for making borough improvements.

Costiveness is the primary cause of much disease. Dr. Henry Baxter's Mandrake Bitters will permanently cure costiveness. Every bottle warranted. 1m

NEW SERIES.

The Mutual Guarantee Building and Loan Association.

In order to meet the large demand for loans a new series of 300 free shares of the Shenandoah Branch of the Mutual Guarantee Building and Loan Association will be issued to those who desire stock as a permanent investment, or for the purpose of securing loans.

The first payment on each share of \$1.00 to be made on Monday afternoon, May 22nd, at which time the series will open and continue until all the shares are taken.

Applications for shares in the meantime will be taken by the Treasurer, Charles W. Dengler, Justice of the Peace, 127 North Main Street, Shenandoah. The rate of gain of this fund to the present time is nearly 100 per cent. per annum.

Stock will mature in less than seven years. Remember the time and place. 5-13-03
