THE ENGLISH PLAN.

The New York Sun's Washinton correspondent is responsible for the statement that President Cleveland favors the practical wiping out of the present spoils system of appointments and substituting the English system, This means that upon a change of National administration the only new appointments that would be made except for adequate cause would be those of the Cabinet Ministers and their chief assistants and the principal foreign Ministers. Congressional legislation would be necessary to achieve this result and it is said that Mr. Cleveland has hopes of securing it. This report following so close upon Postmaster General Bissell's reputed declaration that the terms of fourth class postmasters never expire is calculated to strike a chill along the Democratic spine from Passamaquoddy to Pensacola and from Hoboken to Sitka.

Unfortunately for those who would feel inclined to welcome the proposed pration for the purchase of copies of "An change they are confronted by the index to Lacal Legislation in Pennsylvania change they are confronted by the evident fact that the other wings of the administration fail to flap in accord with an such millennial ideas. The clean sweep for political reasons only is in full swing in the Treasury Department, and even in Mr. Bissell's only bailwick the sound of the ax ceaseth not day or night. Until Mr, Pt are now within his power the public will be justified in refusing to take much stock in greater ones, said to be contemplated by him.

A GREAT many people are stinting themselves in the matter of dress, table furnishing, etc., in order that they may be able to lay enough by to pay the expenses of a trip to the Chicago Exposition some time during the summer or fall. Some will be able to accomplish it, others will not, and there is an apprehension on the part of small tradesmen that they will be called upon to wait a month or two last or three longer for their dues than they would have been but for the fair.
