OFFICERS CLEARED THE HALL.

A Panic Narrowly Averted at the Art Institute in Chicago,

CHICAGO, May 19 .- So wedged in the hallways of the art institute were the crowds of women at yesterday's sessions of their great congress that at one time a panic was imminent.

It was at the entrance of the hall in which Susan B. Anthony was speaking. Crowds completely filled the hall and hundreds of less fortunate women found themselves packed outside the corridor. In a hysterical voice one woman called on the chairman to postpone the program and send for the police. Wooden partitions filling the side doorways to other halls were crushed in and the crash added to a growing feeling of alarm. The congress proceedings were temperarily discontinued

intil officers succeeded in clearing the halls.

In hall six representative women from Russia, Germany, Sweden, Denmark and Finland spoke in their native tongue upon various movements, with which women of

MUST GET OTHER JOBS.

Carlisle Will Continue to Discharge Republicans.

THEY MUST VACATE FOR NEW MEN.

All of the Republicans in the Treasury Department to be Dismissed Excepting Those Protected by the Civil Service Law Dr. James A. Worden Talks on the Chinese Exclusion Act.

Washington, May 19.—Dr. James A. Worden, of Philadelphia, who is attending the Presbyterian general assembly, says hat he thinks before the general assembly adjourns they will take action regarding the Chinese exclusion act, and perhaps resolutions will be passed asking that the law be repealed. "It is," he says, "a matter of serious concern to the church. Suppose our missionaries should be treated with the same severity that this law authorizes toward the Chinese; perhaps still greater severity might be visited upon them. The Geary law is cruel, inhuman and a distinct step backwards in our progress towards high civilization."

More of the Chinese Question.

Washington, May 19.—The Chinese will not go. At least they will not for some time. The legal proceedings have not been completed, and the Six Companies still have several points against the law which they will raise, and until these questions are decided nothing will or can be done. The next step will be the return by the supreme court to the civil court, from which the appeal came the immediate of the court to carry the law into effect. Mr. Riordan, the attorney of the Six Companies, said that when the manulate was returned be would make a point against it. "We in tend," be remarked, "to fight this ques-tion until we have not a single ledge to

stand on." The point may not be a successful or very important one, but it will tend to de-lay action for the present and perhaps un-til congress meets, and this is the very thing which the opponents of the law de

ire to accomplish The officials of the administration do no place much credence in the stories which have been deculated that China will undoubterly retaliate should an attempt be made to carry the law into effect.

They even intimate that these stories are sing circulated for effect by the officials of the Six Companies. They fear nothing from this source. There is, however, con siderable anxiety on account of the condi-tion of the laboring classes on the Pacific coast, and the fear exists that abouild not be government do something toward en forcing the law there will be an uprising among the whites and that roots may re-suit. The question is giving the officials quite a little concern. Secretary Gresham says that he wants it

Shun to Establish a Legation. Washington, May 19.—The secretary of state has received official information of the purpose of the government of Siam to establish a legation at Washington and that the officer to be placed in charge of 10 that the officer to be placed in charge of it is now awaiting an opportunity to prescul his credentials to the president. It is said that the new diplomatic officer is now in the city. He formerly represented Siam at the court of St. James and is a gentleman of rank and culture. The United States has had a legation at Bangkok, Siam, for many rears. Mr. S. H. Boyd is the minis-ter resident. Siam, however, has never before had a legation in this country.

All of Them Must Go. Washington, May 19. - Secretary Carlide has informed congressmen that he in-tends to discharge every republican in the

treasury department who is not protected by the civil service law.

He says that he has given the efficials of the department to understand that this will be his pulley and that they will not be dismissed on any clarges, but solely for the reason that they are republicans and the places are wanted for demostrats.
