ENCOURAGING REPORTS

Read in the Presbyterian General Assembly.

THE APPOINTMENT OF COMMITTEES.

Annual Reports of the Various Church Boards Made Public - A Large Increase in Receipts Over 1892-Over \$105,000 Paid Out to Aid in the Erection of Churches During the Year.

WASHINGTON, May 20 .- Probably the most significant action of the general assembly yesterday was the appointment of the committees. This feature of the sesslons is always looked forward to with the greatest attention and interest, for the complexion of these committees may well be looked upon as giving an idea of the attitude the assembly is to take on all mat-ters that come before it. This year, as a result of the important questions that come before the body for consideration or settlement, the Briggs case, the seminary ques-tion, the problem of revision and others

only less important, the appointment of the omniittees was a matter of even greater interest than in most years. When the time came for the announce

ment there was hardly a commissioner ab-sent from his place in the church, and every man listened with the closest atten-tion while the lists were being read off, so that he might know on which one he was

that he might know on which one he was expected to serve. Perhaps the most interest clustered about the names of the members of the judiciary committee, for this is the committee that will pass upon the appeal in the case of Dr. Briggs and will report to the assembly upon the question of the propriety of that body entertaining the appeal. Rev. Dr. scorge D. Baker was the man selected to act as the chairman, and as soon as his ame was called out there was an instant uzing of tongues and a putting of heads ogether to discuss the meaning of the ap-

tment Dr. Baker is the pastor of the First Presovterian church of Philadelphia, and is ooked upon as one of the leading ministers in the city of Brotherly Love. He is class-ed among the conservatives, and as such his appointment gave the greatest satisfac-tion to that faction of the assembly, by all odds the largest. The committee is for the most part made up of men who are known to be conservative, that is, to be more defi-

nite, anti-Briggs men. The annual reports of the various church boards made public and to be taken up by the assembly from time to time, show enouraging results in every branch of the

vork The report of the special committee on systematic benificence shows that the Chris-tian Standard has attained an average monthly issue of 24,220 copies. The total receipts of all the boards during the year amounted to \$2,799,562, an increase over 1892 of \$165,765.

The report of the board of church erection fund shows that during the year there were 259 applications for assistance, upon which grants were made aggregating \$105,891 and

loans \$61,192. This total exceeds any pre-vious year in the listory of the board, and still there is an insufficiency of supplies. More than one-half the churches on the roll of the assemblies do not contribute to this fund, and the board begins the new year with an empty treasury and many

pressing demands upon it. The result of the year's work of the board of aid for colleges and academies has not proved a disappointment to the expecta-tions of the church. During the year the receipts have been \$75,154 and the donations in the shape of aid a gregated \$63,-630. Forty institutions have been assisted

and twenty states occupied. The angre-gate enrollment of statents is 4,002, of

INC STATE LEGISLATURE

The Work Done by Our Busy Lawmakers.

PROCEEDINGS IN BOTH BRANCHES.

The Barnhard Bill to Regulate the Em ployment of Telegraph Operators Passe First Reading-Governor Pattison Vetoe House Bill No. 48-The Farr Free Text Book Measure Approved.

HARRISDURG, May 20 -- Notwithstanding the fact that yesterday's session of the sen ate was what might be termed a remark ably short one, considering the near ap proach of the day set for final adjourn ment, nearly 100 house appropriation bills were rushed through and finally disposed of. There were only about fifteen senators present and the session was somewhat dui and uninteresting.

Among the bills which passed first read ing was the Barnhard measure to regulate the employment of telegraph operators. It the employment of telegraph operators. If originally provided that railroad companies could not employ operators under 20 years of age and having less than one year's ex-perience under a competent operator, but the senate committee, which had the bill in its hands for six weeks, changed the age from 20 to 18 years, which amendment is not acceptable to the railway conductors, engineers and operators who are back of the bill and urging its passage. They conthe oill and urging its passage. They con-tend that a boy of 18 is too young to ap-preciate the responsibility of his position, and allege that many serious wrocks are acculation of the second secon contention for the necessity for such a bill Senate adjourned until Monday night. when bills on first and second reading will be the order.

IN THE HOUSE.

Among the hills reported Invorably from committee in the house were the following. Relating to the cleaning and maintenance of streets and roads and the collection and removal of ashes and garbage in cities. For the punishment and prevention c

cruelty to animals. To more clearly define the value of policies of insurance issued by life insurance

companies. Mr. Lytie's resolution for the appointment of a commission to enquire into the present results of state aid to education was killed after considerable discussion.

The house concurred in the senate smeadments to the acts for taxation of dogs and the protection of sheep, and de-tining to whose benefit certificates shall be

paid by fraternal societies. The house took up the calendar of local legislation and killed Mr. Thornton's bill to repeal the law to prevent the sale of intoxicating liquors in the borough of Belle

version, Fayette county, Governor Pattison sent to the house his veto of house bill No. 48, entitled "A sup-plement to an act entitled an act to enforce primite to the second of the provise against railroad corporations the provis-ions of section seven of article sixteen of the constitution," approved May 7, A. D. 1887, providing a jurisdiction for the trial of offenses against said act and this sur plement, and imposing penalties for the violation of the terms thereof.

The governor has approved the following bills. Requiring school directors to furnish books and other school supplies free of cost, known as the Farr free text-book bill.

The act to establis a medical council and three state heards of medical examiners. Extending the power of the courts to ap-

point election officers in certain cases. Providing for the immediate printing and distribution of unbound copies of the state
