NO ELECTRIC FIGHT

Status of the Different Railway Companies.

THREE RIGHTS OF WAY

A Game of Bluff Being Worked by the Beaver Meadow People Which Will Not Ignore the Lakeside Railway Company's Plans—A War Invited.

It has been reported that a war between the various electric railway companies who have been trying to reach Lakeside is imminent, because of the aggressive action taken by the Hazelton and Beaver Meadow company which was refused rights of way by both the Shenandoah and Mahanoy City Borough Councils after fair hearings.

There may be a slight unpleasantness, but it will not develop into a war. The Beaver Meadow people haven't enough room to stand on for a war. They simply refuse to stand by the actions of the Councils that knocked them out and hope to seriously embarrass the people who have the right to and will build an electric railway to Lakeside from this town.

Some one has remarked, "This apparently accomplished the disincorporation of the Hazelton and Beaver Meadow people, which is headed by such men as P. J. Ferguson and A. P. Blakelock, but Finney and his party forget that they were fighting railroad men of long experience who have been in many fights of this same nature in connection with steam railroads." This is letting the cat out of the bag. Messrs. Ferguson and Blakelock no doubt have great faith in the backing they may receive from the Lehigh Valley railroad company if they can precipitate the reported war, but they must not forget that there are some smart men in this world who have not been connected with steam railroads and who are competent to cope with either Mr. Ferguson or Mr. Blakelock, or both, or combined with the Lehigh Valley railroad company, when they are right and have the law on their side.

The facts of the case are plain and the public will not distress itself in trying to reach a conclusion as to who is right in the matter. Supervisor Patrick Welsh granted three rights of way through Mahanoy township, the first to the Lakeside Electric Railway Company, the second to the Hazelton and Beaver Meadow, and the third to the Shenandoah and Mahanoy City. Since then the Lakeside company has secured the right of way through Shenandoah to the Mahanoy township line, and that gives it a clear road to the Mahanoy City borough limits. The Shenandoah and Mahanoy City company has secured the right of way through the latter city, and by connecting with the Lakeside road at the borough limits can make the road complete. The Beaver Meadow company hasn't a peg to stand upon. It has no right of way in either Shenandoah or Mahanoy City, and really no right of way in Mahanoy township, because of the grant made first to the Lakeside company.

These are the facts, and what extraordinary power they bestow upon any experienced or inexperienced steam railroad men is hard to determine. The Lakeside people are not worried in the least. They are protected and their rights are by no means affected by the act of the Beaver Meadow people in commencing work on their secondary right of way in Mahanoy township.

The Acts of Assembly will take care of any hostile advances by these people. They provide that the Supervisor is the one to proceed against a corporation which attempts to use the township roads contrary to law, and it is quite likely that within a day or two Supervisor Welsh will be asked why he has allowed the Beaver Meadow people to usurp the rights of the Lakeside Company. It will then be the Supervisor's duty to have the court enjoin the trespassers. That is all the war there will be in the matter.

Should the Supervisor carry the matter into the courts, and there seems to be no other course for him to pursue, if the trespassers persist in their work, the public will have an opportunity to see whether men experienced or inexperienced in steam railroad matters have rights in law superior to those of the taxpayers of Mahanoy township. The law is supposed to protect those who abide by, and not those who defy it.

There will become important developments within the next few days. The Beaver Meadow workmen are making a road in Mahanoy township, beginning at the Shenandoah limits, and are working towards Yatesville.

J. P. Egan, who constructed the Ashland and Mahanoy Plane electric railway branches, was in town yesterday. Mr. Egan will begin work on the Shenandoah and Mahanoy City branch for the Lakeside Company early next week.

More people, adults and children, are troubled with constiveness than with any other ailment. Dr. Henry Baxier's Mandrake Bitters will cure constiveness and prevent the diseases which result from it. Im-

THE FOURTH.

The Celebration Will be an Elaborate Affair.
Preparations for the proper observance of the anniversary of our country's independence as a nation are now about completed. This will be the only town in the county that will have a display of fireworks, and it will be on a scale never before attempted in the county. The committee has already expended for this purpose about one hundred and fifty dollars, and if they receive the proper support from the business portion of our town they expect to make the display an elaborate one. The greater assistance they receive, the greater will be the display.

Now is the time to make preparations for the decoration of public buildings and private residences. Place the town in holiday attire by the display of the red, white and blue. Several thousand visitors will be here on the Fourth, and let us show them we not only have the largest town in the county, but also the most patriotic.

ANOTHER ROBBERY.
Cigars and Perfumery Carried From Finney's Drug Store.

J. F. Finney's drug store on South Main street was robbed last night by unknown parties. Cigars and perfumery valued at about \$25 were carried away. When the store was opened this morning several drawers in the shop cases were found open and it is believed that the burglars were looking for something other than what they found. Entrances to the place were effected through the cellar and a trap door in the office at the rear of the drug store. A young man was found in a drunken slumber at the foot of a stairway near the store this morning. Chief Burgess Burns arrested him and it was thought he knew something of the robbery. A close examination of the young man, however, convinced the officers that he knew nothing of it. M. M. Burke, Esq., as counsel for I. Robbins, the owner of the building, says a reward of \$25 will be paid for the arrest and conviction of the parties who broke into the store.

Rock Men Waste.
-Mr. N. Rapson, of Sugar Notch, Luzerne county, writes to a friend in town inquiring for experienced rock men. He says that class of workmen are very scarce in his locality, and that he can give steady employment, at \$2.35 per day of eight hours, for several months. Mr. Rapson has a contract to sink a rock slope and to drive a tunnel six hundred feet. Harry Martin, formerly of town, is boss at the mine in which the slope is to be sunk. This information is given for the benefit of our readers, and may be the means of giving some of them steady work.

The First Annual Commencement of our High school was held in Foley's hall, Gilberton, on Wednesday evening. The attendance was very large, many having to leave for want of room. The hall and stage were beautifully decorated, showing great labor and taste. Over the stage in large gilt letters was the appropriate inscription: "Trust Thyself." Promptly at 8 o'clock the exercises commenced. Principal O'Connor, making a short address, thanking patrons for attending and announcing Master A. L. Rittgers, who delivered the Salutatory address in a clear, practical and able manner. He was followed by Miss Bertha McCook who rendered an essay on "Courage." The next was a recitation, "The Sailor's Star," by Miss Katie Clancy, who won deserved applause, her rendition being perfect. Next in order was a vocal trio, "What Little Lips are Saying," in which Master Baker and the Misses Miller creditably acquitted themselves, then came a Fan Drill by Miss Burchill's class which was a credit to teacher and pupils. Laura F. Horan occupied the next fifteen minutes entertaining her Big Sister's class, and she done it as well as if she had been her own. Ruth E. Williams came next with an essay, "Our Environments" that displayed deep thought and sound logic. "The Song of the Ducks" refuted the common belief that there is no music in quacking, while the "Class History," by Alice M. Hallinan, unfolded the erstwhile well hidden secrets of the sedate and innocent looking members of the graduating class. The heroism of "Mollie Pitcher at Monmouth" was rendered by Katie L. McLaughlin who in turn gave way to Bertha Middleton whose age made the manner in which she rendered "The Coming Woman" a surprise to all. Little Bertha certainly possesses talent. The remainder of

THE POPULAR CONTEST

'Herald's' Favorite Teachers' Vacation.

GIVE EARNEST SUPPORT.

The Weary Pedagogue will Find Pleasure at the World's Fair, Niagara Falls or Boston Through Your Influence—Vote Early and Often for Your Favorite.

ANY of our town people seem to have taken renewed interest in the HERALD's popular public school teachers' contest. The announcement of the closing days and many unique offers to the contestants have been received by the contest editor, some of which have not been looked upon favorably for very good reasons. The contest editor has no time to spare for the arrangements of details that may lead to matrimonial engagements. All such offers must be sent direct to the contestants.

Among the most important offers received lately are one each from Photographers Keagey and Dabb, of town.

Mr. Keagey offers one dozen fine cabinets, worth \$5, to each of the contestants who secure 1st, 2nd, 3rd, 4th, 5th and 6th places.

Mr. Dabb offers one dozen fine cabinets, worth \$5, to each of the contestants who secure 9th and 10th places.

Both offers are very liberal and the winners will no doubt be highly pleased with the gifts.

All the votes for the teachers keep piling in at a rate that leaves no doubt that every person understands that the last coupon will be printed on the 30th inst.

Here are two eleventh-hour propositions that are interesting:

CONTEST EDITOR:—I am saving my coupon for the teacher who writes me the most entertaining letter. I will have over 500 votes to give her. The letter can be sent to the HERALD office addressed to J. T. A.

CONTEST EDITOR:—I have 800 coupons from the HERALD and I will send them to the first young lady sending me her photograph. It can be sent to the HERALD office addressed to "Cortis."

Here are over 1400 votes at the command of some one or two of the contestants and the public eagerly wait to hear who will secure them.

The Damage Repaired.
The town last evening was in darkness, caused by the breaking of a wire. A small boy threw a stone that severed the arc light wire in the First ward, thus affecting the entire system. The damage was repaired by Electrician Seager to-day, and the town will be illuminated to-night as usual.

Proof of Merit.
The proof of the merits of a plaster is the cures it effects, and the voluntary testimonials of those who have used Alcock's Porous Plaster during the past thirty years is unimpeachable evidence of their superiority and should convince the most skeptical.
