NEGOTIATIONS NEARING AN END.

Only a Few Minor Details Remain to be Adjusted Providing for the Payment of the \$3,000,000 Note Held by Speyer & Co.-Interest on Mortgage Bonds May be Paid on July L.

PHILADELPHIA, June 28.—The negotlaions which have been carried on for several days past between the management of the Reading Railroad Company, the Fi nance Company, of Pennsylvania, and the New York banking house of Speyer & Co., are nearing a satisfactory conclusion, and it is now virtually settled that the Speyer can to the Reading, amounting to \$3,000, 000, will be cared for at maturity in such a manner as to preclude the possibility of sale of the collaterals securing the loan The matter was considered at length by the receivers resterday and while the deal i not finally decided upon, it is known that only a few unimportant details remain to o adjusted.

The precise nature of the settlement which, it is thought, will be efforted, has not yet been disclosed, but the report that the Reading's note for \$3,000,000, with the the Realing's rate for \$5,000,000, what has accompanying collaterals, will be taken off the Speyers' hands by the Finance Company is authoritively denied. Whatever the settlement may be, it is now practically certain that the Realing company will be relieved from the embarrassing alternative of meeting the note when it matures next week or else surrender all claim to the col

It was reported in financial circles yes-terday that the Reading will pay the inter-est due July 1 upon the general mortgage bonds, amounting to about \$900,000, but it is difficult to see how this can be accom-plished unless an issue of receivers' cer-tificates shall have been authorized in the meantime. Another hearing upon the application for authority to issue these cerfficates is being held to-day.

The threatened trouble between the Reading and its employes has been lost sight of in the excitement over the aband onment of the plan of re-adjustment. Vice President Voorbeessaid yesterday that no reply had as yet been made to the grievance committee which called upon him reof the schedule of wages paid the men em-ployed on the Lehigh Valley line, as cerain data concerning which he required in-formation had not yet been examined. It is probable that an answer will be

sent the men next week, and the general expectation is that a comproxelse satisfac-tory to both sides will be reached. Changes in Union College.
