"To Reject This Important and Thoroughly American Colony Would be Cowardice and Inhumanity That No Self Respecting Nation Would be Guilty Of."

AUGUSTA, Me., June 50,-The Augusta Opera House was crowded last evening by one of the largest audiences that ever assembled in this city. The occasion was the public reception tendered to Hon, John L. Stevens, late United States minister at the Hawaiian islands. When Mr. Stevens was introduced he was received with thunders of applause. After thanking his fellow citizens for their welcome he passed to a discussion of Hawalian affairs, saving in

Touching Hawaiian affairs at this time, I deem it especially fitting to stand in the attitude of an American only. I fully recognize, and am glad to recognize, that in the seventy years of American relations to the Hawaiian islands the great parties

MINISTER STEVENS. of this country have occupied common ground and shown a firm American front to our foreign rivals, and an equal deter mination to protect American and nativ Hawaiian interests in those islands.

LONDON, June 20.—Vice Admiral Sir Michael Culme-Seymour has been ap-pointed commander-in-chief of the British Mediterranean station, to succeed Vice "The monarchy died by its own revolu-tionary hand; a suicide of blindness, incompetence and corruption. I will not or cupy your time in repeating the absurd charge of the fallen queen's unscrupulous lawyer and the other individuals of the Admiral Sir George Tryon, who lost his life by the foundering of the battleship lattery and opium gang, who corruptly shared her association, the charge that the United States minister and the commune of the Boston overturned the monarchy After explaining that the raising of the American flag was the result of careful forethought, and in response to the appeal of the provisional government, and to pro-

tect American property from destruction by riots, Mr. Stevens proceeded. "The salutary effect of raising the flag was immediate and remarkable. Quiet, confidence and perfect order at once took confidence and perfect order at once took the place of panic, fear and distrust. Language cannot adequately express the joyful feelings of the large American colonies and of all the better elements of the other nationalities. It remained up seventy-five days. During that time all had been accomplished which had been promised and expected when it was raised. In that time two foreign was alies had In that time two foreign war ships had arrived at Honolulu, but the American flag was up and thus all danger of dual or tripartite arrangements as to Hawaiian affairs was avoided, and the just American

predominance successfully maintained.
"I am but too glad to believe that the had made uses but none helped me; Reading of the David Kennedy's Favorite Hernedy, of Hondon; N. But the greatest bleading was the cure it verformed for my wife, who provious to taking it was troubled with stakes a common to all womes. She cans so fit that she could hardly dram he nell about the house; it was too tried all kinds of so called positive cures, int with no avail until she used Favorite Hernedy. In a short while she began to play up in health and strength and is a well woman to-day. I honestly believe had it not been for Dr. Kennedy's Privortic Hernedy, the would have been in her the Hernedy, the would have been in her present administration has not thought of giving up this vantage ground, to which the bold and vigorous dispatch of Secre tary Bayard, approved by President Cleve land, to Minister Merrill, July 12, 1887. powerfully contributed. The language of the dispatch when an outbreak was feared, in the summer of 1887, was the following: "The interests of American citizens which have grown up under the extension of commerce between Hawaii and the United States, and the guarantees of the can a set been for Dr. Kennedy's Privor-tic Hemedy, sie would have been in her grave to any It's the greatest medi-cine en earth. It's worth it's weight in gold." existing treaty must not be jeopardized by internal confusion in the government of these islands, and it is the duty of the United States to see that these interests are not imperiled or injured, and to do all

things necessary for their just protection."
That country now has the best government it has ever had, administered by men of intelligence, education and character, and as thoroughly American in sympathy and interest as we have at the head of any of our American states and territories. That government, and those back of it— all the responsible and bests citizen of the islands—asks for the annexation of Hawaii as a territory of the United States. This is desired because it is believed to be best for the native as well as the foreign born population of the islands.

"This rich prize is freely offered us. I cannot think it possible that our people and our statesmen will refuse to accept it. To spurn and reject this important and thoroughly American colony, planned by some of the most devoted of America's sons and daughters, fostered by America benevolence and sympathy, aided by a million and a half dollars of private con tributions, encouraged for more than sixty pears by the American government—to abandon them now at this critical period of their history would be cowardies and inhumanity that I believe no self respect-ing Christian nation would be guilty of, the least of all the great American nation, whose vast opportunities in the North Pacific it would be a great want of wis-dom and nationism to leave. dom and patriotism to ignore.
