FRANEY

THE BOROUGH COUNCIL

A Very Interesting Meeting Held Last Night.

MORE STREET PAVING.

A Petition to Have Main Street, Between Lloyd and Centre, Improved, Meets With the Approval of the Councilmen—Many Nuisance Complaints Acted Upon.

CONSIDERABLE time was spent last night at the regular meeting of Borough Council over the paving and other questions relative to the general welfare of the borough. All the members were present and quite a number of citizens were present either as spectators or with some complaint or suggestion for a better system of sewerage.

The first to address Council was A. J. Gallagher. He said that the alley running between Lloyd and Centre streets in the western part of the town, is in a very bad condition; it is not graded and the water pours into adjoining properties from the roadway. Mr. Gallagher said the property owners in that section had complained of the trouble to Council some time ago and if prompt attention is not given the matter the courts will be appealed to.

The complaint was referred to the street committee. Senator B. J. Monaghan complained about the proposed outlet of the sewerage which is being constructed in the First ward. It is proposed to run the contents of the sewer into the borough culvert on East Oak street; if this should be done the whole deposit will be at the mouth of the culvert and become a general nuisance. Mr. Monaghan thought the line ought to be extended sixty feet beyond the proposed point. The complaint was referred to the street committee.

Attention was called to the condition of the eastern end of Centre street, Councilman Coakley stating that on account of the bad condition of the roadway water gathered in large pools during the recent rain and people were obliged to drive on the pavements. On motion of Mr. Lamb, the Chief Burgess was instructed to notify the property owners in that section to put in curbs and gutters; and if the notice is not complied with the Burgess is to have the work done at the expense of the owners.

Councilman Coakley stated that J. M. Robbins had persisted in reopening a gutter which the Council had closed and, on motion of Mr. Coakley, the Chief Burgess was instructed to enter suit against Mr. Robbins.

The street committee was instructed to remedy a nuisance at the corner of Coal and Emerick streets by putting in an open gutter. The bridge on East Centre street was also reported in bad condition and the street committee was ordered to have it repaired.

The secretary was instructed to notify the Lehigh Valley Railroad Company to abate nuisances by accumulation of drainages at Market and Bowers streets.

Solicitor Pomeroy's introduction of an ordinance regulating the opening of paved streets by water and gas companies precipitated a spirited exchange of arguments. Under the existing ordinances the companies are at liberty to open the streets at any time to make repairs to their pipes; but under the new ordinance the companies are obliged to pay a license fee of \$1.50 per square yard of paving removed and the opening must be filled within 48 hours. In doing the refilling the companies are to puddle and ram it into a condition ready for the paving, which will be done by the borough and the cost will be taken from the license fees.

Mr. Gallagher, condemned the ordinance as a measure in favor of the water and other companies, but Mr. Pomeroy refuted the imputation with a strong argument which led to the adoption of the ordinance.

Mr. James presented a petition signed by more than two-thirds of the owners of property fronting on Main street, between Lloyd and Coal streets, asking for street paving.

On motion, the petition was accepted and the law committee and solicitor were instructed to have an ordinance drawn and advertise for bids for the work.

Complaint was made that by reason of the raising of the sidewalk in front of M. C. Watson's property on Main street, just below Centre, walking at that place is made dangerous. The walk is several inches higher than that of the adjoining property. A lady fell there yesterday. It was stated that Mr. Watson had placed the sidewalk in accord-

Refrigerators!

I have a number of Refrigerators that will be sold

ARRANGEMENTS MADE

Great Trip to the World's Fair.

THIS IS A GREAT CHANGE

To Niagara Falls, Six Days at Chicago and One Day at Washington for Only Sixty-five Dollars—The Excursion Leaves on July 18th.

Arrangements for the HERALD's public school teachers' excursion are now complete. The start will be made on the 17th inst. and all applications must be made before 4 p. m. to-morrow, at the HERALD office.

The cost of traveling both ways, including Pullman palace and sleeping car accommodations, and hotel expenses for six days at Chicago, will be but \$65.

The excursionists will leave Shenandoah on the regular Lehigh Valley train at 8:08 o'clock on the night of Monday, July 17th. At Penn Haven Junction connection will be made with the Philadelphia express for Buffalo and Niagara Falls and the latter place will be reached at 10 o'clock on the morning of the 18th. The day will be spent at the Falls and in the evening the party will start for Chicago, arriving there the next day.

At Chicago the excursionists will have a choice of accommodations at five first-class hotels, so that all will not be obliged under the arrangements to stop at one place and submit to any inconvenience they may find through location or otherwise.

Should there be a cut in railroad rates before the 18th inst. the people joining this excursion will receive the benefit of it, and the HERALD still has hopes of being able to furnish a Pullman car for the trip from Shenandoah to Penn Haven Junction.

For the return trip from Chicago the excursionists will have the privilege of going to Washington, D. C., via the Baltimore & Ohio, or the Pennsylvania R. R., without extra charge, and there will also be an option for return by way of Niagara Falls.

Another special feature of these arrangements is that the railway tickets will be good for the return trip until November 15, 1893.

Remember that the entire cost of this trip will be but \$65 for each person, and applications must be filed by 4 p. m. to-morrow, at the HERALD office.

A misstep will often make a cripple for life. A bottle of Henry & Johnson's Arnica and Oil Liniment at hand, will not prevent the misstep, but used immediately it will save being a cripple.

PERSONAL

Mrs. J. S. Kistler is visiting friends at Reading to-day.

Thomas Lamb, of Centralia, was in town yesterday, the guest of his brother, A. B. Lamb.

Daniel Moyer, of New York City, was in town to-day and made a pleasant call at the HERALD office.

Mrs. Jacob Glover, of Dudley, N. J., is visiting her daughter, Mrs. O. A. Kelm, of South White street.

Benj. James and Gustave Schaab left to-day for Atlantic City and Philadelphia, where they will spend a week's vacation.

Mr. George Rohland left yesterday for Wanamie, Luzerne county, and expects to spend a month there with her parents.

Councilman Lamb to-day left town for Crede, Colorado, and does not expect to return before next fall. Mr. Lamb is interested in several silver mines at Crede and a superintendency is at his disposal if he should decide to remain there.

Mr. and Mrs. J. M. Robbins have returned home after a pleasant visit of five weeks in the western part of Iowa, the World's Fair, Indianapolis and Pittsburg. Mr. Robbins thinks the prospects of the anthracite coal region are far better than those of the over-boomed west.

FOUNDS

Camp meetings will soon be ripe. Many a small boy offered a burnt sacrifice on Tuesday.

Herr Most celebrated the Fourth by shooting off his month.

The fool and the cannon cracker did business on the Fourth.

The Girard College students will visit this county in their annual excursion on the 20th instant.

Refrigerators!

cheap to close out the stock. Also Ice Chests cheap.

THEY WON'T PLAY.

The Pottsville Club Cannot be Drawn Into a Game.

Last Wednesday Setley, the pitcher of the home team, succeeded in making a date with Manager Reber, of the Pottsville club, for next Saturday, at the county seat. The engagement was made for the "Oxford" team which was to include Messitt, catcher; Setley, pitcher; Malarkey, first base; Henry, second base; Hockman, short stop; Quorton, third base; Toole, left field; Fulmer, centre field; Mulvey, right field. The team was looked upon as an exceedingly strong one and a large crowd of base ball enthusiasts were making arrangements to go down to Pottsville to-morrow and see the pet club of that place knocked out. To-day, however, their calculations were thrown to the winds. Setley received a letter from Manager Reber stating that the engagement had been declared off, as he had made other arrangements.

This was a big disappointment. Shenandoah has tried repeatedly to get the Pottsville club down to an engagement, but its managers have steeled clear of all overtures. When Setley succeeded in getting Reber's consent to the "Oxford" date there was much gloom in local base ball circles. It is supposed that Reber got an inkling of the true situation of affairs and when he learned of the players that were to be arrayed against his men he retreated to preserve the reputation of his club.

If you are troubled with a "hacking cough" Down's Elixir will give you relief at once. Warranted as recommended or money refunded.

CATERPILLAR STYLE.

Sociomom Drew From the Aut a Lesson to Sluggards.

The caterpillar is a wise insect, also the aut teaches us to hustle if we want to accomplish anything. The caterpillar always "gets there." First he reaches out as far as he can and catches on to something, then he begins himself to bring the rest of his body along. By and by, says Mr. Caterpillar, "Hello, here I am!"

We cannot all be rich, but every industrious man ought to be independent some time or other. Caterpillar style is what does it. At first you reach out, look ahead, catch on to a few shares in the Mutual Quarantine Building and Loan Association, 420 Walnut street, Philadelphia. Such an investment is the very best going at present. Full yourself all very month when the payments fall due, and the first thing you know you will be saying as did the caterpillar, "Hello, here I am," and here is \$1,000 or \$10,000, as the case may be. It isn't hard work, but it takes time. Seventy-five cents per month means \$100 at the expiration of eighty-four months. Put away seventy-five cents each month for a period of eighty-four and at the end of that time you will have \$63. More than likely you would have had use for some of this surplus in the meanwhile.

Look ahead, reach out, catch on and pull—that's the secret. You have saved your money and want to get the most out of it. Three Hundred Free Shares of valuable Saving Fund Stock. The public can now be accommodated. All dues returned with 6 per cent interest to those who withdraw call on the Treasurer at once. Chas. W. Dengler, Justice of the Peace, North Main street, Shenandoah, Pa. 7-31

Davis May Recover.

Samuel Davis may recover from the injuries he received from a fall of coal in the Kaickerbocker colliery. The shock was so severe Drs. Hamilton and Callon entertained little hope that he would rally, but at two o'clock this morning a change for the better set in and the doctors now think the chances for recovery good. To-day the doctors were able to make an examination and they found the injuries were not as bad as at first reported. Davis' head, face and back are badly cut and bruised from the pressure of the coal and his nose is crushed, but no bones of the body are broken, as at first suspected.

USE DANA'S SARSAPARILLA, ITS "THE KIND THAT CURES."

Good for Dr. Estebrooke.

"I wish to say that I had four teeth extracted by Dr. Estebrooke entirely without pain and I think he ought to be well supported as his system of work is a great boon."

Mrs. ELMER WILDE, Wilde's Music Store.

Peter Beck's Testimony.

"I had 13 teeth extracted to-day at the Ferguson House. Dr. Estebrooke does what he claims. I have had experience enough with other dentists to know what I am saying."

PETER BECK, No. 30 N. Jordan street.

That Danville Suit.

Pitcher Setley, of the home team, now wears the base ball suit that caused his arrest some time ago. The action of the Danville management in refusing to accept the suit when presented to them by the Setleyes of the boarding house at which Setley boarded while playing in that town, is a vindication of the latter's course. It was forwarded here C. O. D. and is now the property of our popular pitcher.

Burned by Gas.

John Flynn, a fire boss, was pretty badly burned by an explosion of gas in the Kaickerbocker colliery. He inhaled a body of gas out of a breach in the head in which he had left his lamp. His injuries are on the hand, face and hands, but they are not considered dangerous.

Musical Treat.

JOHN W. STOKES LODGE

The Celebration of the Fifth Anniversary.

AN EXCELLENT PROGRAM

All Those Taking Part Acquitted Themselves in a Creditable Manner—The Lodge in a Flourishing Condition, Refreshments Served.

MEMBERS of John W. Stokes Lodge, No. 815, I. O. O. F., and their friends were out in full force last evening in celebrating the fifth anniversary of the lodge. The program was an excellent one. Robbins' opera house was comfortably filled, between three and four hundred persons being present. The committee in charge deserve much praise for their work in selecting such excellent material for the entertainment of their friends.

John W. Stokes Lodge was instituted on the evening of July 8th, 1888, with 262 applicants. It is the third lodge of that order in town, and was organized mainly through the efforts of Phillip Gable and William H. Reinhold. The name of the lodge was suggested by Samuel Broome, of Brownsville, Past Grand of Lodge No. 880. The name immediately met with favor, and the lodge steadily advanced both numerically and financially. The membership to-day is 285, and the total value of the lodge amounts to \$6,673.65. Since the institution \$5,000.00 has been paid out as sick benefits; death benefits, \$960.00; nurse hire, \$300.00; donations to widows of deceased members, \$175.00; total disbursements, \$4,965.00. The lodge has invested in bonds, \$5,000.00; amount in the treasury, \$300.00; paraphernalia, \$573.65; total valuation of the lodge, \$6,673.65.

After a brief address by the chairman, Dr. Matter, the exercises were opened with prayer by Rev. O'Boyle, followed by singing of the opening ode. Miss Mahala Fairchild, in her usual excellent style, gave a recitation; "Moonlight Come Again," by the Knight party preceded an address by E. A. Davenport on "Odd Fellowship." The speaker gave the advantages to be derived as a member of the order, and in his usual happy vein entertained the audience for about twenty minutes.

Benjamin Haskey captivated the audience by his singing, being encored on each occasion. The declamation, "Sheridan's Ride," by James R. Lewis, and the solo and chorus by S. G. Walker and party were both favorably received.

The young daughter of William J. Seltzer, of Wm. Penn, displayed considerable talent for one of her years in the recitation of "Home, Sweet Home." The High school quartette pleased the audience by one or two of their choice selections, and were heartily greeted on each appearance. Rev. Potts amused the audience by his humorous reading, which was followed by instrumental music, violin and piano, by Prof. E. L. Jones and brother.

At this juncture of the entertainment refreshments were served, consisting of ice cream, cakes and lemonade, in abundance. The solo entitled "Shipper," by John Knight, was followed by an address on "Secret Societies," by Rev. Robert O'Boyle.

The speaker said the work being performed by what are termed secret societies is a noble one, and they should be encouraged. Strictly speaking, there are few secret societies. Odd Fellowship is no more of a secret society than that are not given to the public. A secret society is one that keeps its principles and its existence unknown. Odd Fellowship, its principles and its teachings are known all over the world, and therefore is not, in the strict sense of the word, a secret society. Its principles are ennobling, raising the standard of our lives to a higher plain, and preparing us for the habitation of the world to come. The speaker closed by paying a high tribute to the work being performed by the Odd Fellows, and wished the organization, especially John W. Stokes lodge, a bright and prosperous future.

The singing of James Patterson and the recitations by Misses Little Liowellyn and Lizzie Bainbridge were greeted with applause at their conclusion, as was also the song, "Ye breezes that blow," by Miss Moran.

The performance of Misses Jones and James, upon the piano and violin, deserve special mention. The latter young lady is the daughter of Thomas James, of Williams Penn, agent for the HERALD at that place. The musical talent of William Penn played an important part in the evening's entertainment.

The musical portion of the program concluded with the song, "Come where the lilacs bloom," by the Knight party. One of the most interesting features of the evening was the recitation of the lodge by the efficient and obliging secretary, Jacob S. Williams. His remarks were attentively listened to, especially by those members not regular attendants at the meetings of the lodge, and he urged upon the latter the necessity of regular attendance and a greater interest in the work.

The entertainment, taken as a whole, was a most enjoyable affair, and will long be remembered by members of the lodge with pleasant recollections.

You are invited to call at Fricker's Carpet Store, No. 10 South Jordan Street, to see his new line of Carpets, Oil Cloths and Window Shades.
