A CLAIM FOR COAL,

Polish Miners San the Lehigh Valley Con't

James Grant, of town, and Edger W. Bechtel, Esq., and Charles Boyer, of Pottsville, have been appointed arbitrators in the case of Dolinski and others against the Lehigh Valley Coal Company and will alt on August 1st, next, to take evidence and hear

The case is one which the men who are ngaged in mining coal will watch with interest. The plaintiffs allege that they were eugaged as miners in Packer No. 2 colliery. operated by the Lehigh Valley Coal Company and that they mined 2,000 cars of coal in their breast in the Holmes vein in 1891 and placed it in a shute, ready for loading, who they were removed by the mine foreman to another part of the mine and have never received compensation for what they mined.

The men claim the terms of their contract were that they were to receive 80 cents per car for all coal made ready for leading by the company, so the amount due under the claim is about \$1,000. The miners also my they were not permitted to load the coal, or have

It is understood the company will claim that the place where the mining was don was dangerous and it would not have been safe to allow men to do the loading; that the place was completely worked out and the mine foreman was justified in not risking the lives of men in having it leaded. But it is also understood that at least one of the plaintims will awear that some of the coal was loaded The late John A. Nash, Esq., originally had charge of the suit for the plaintiffs, but now their interests are looked after by J. H. Pemeroy and M. M. Borke, Esqs, The Lehigh Valley Coal Company represented by S. H. The result exceeds our most sanguine expectations. This department will be under the same management and conducted on the same principles that have always characterized our entire business. We shall keep everything in trimmed and untrimmed hats, novelties of every description. Having secured a trimmer noted for her artistic and skillful work, we are enabled to suit all tastes.
