SILVER MEN EXCITED. Sensational Utterances at the Colorado Convention.

GOVERNOR WAITE'S PLAIN TALK.

Fit Is Better Infinitely That Blood Should Flow to the Borces' Bridles Bather Than Our National Liberties Be Destroyed." His Views Generally Indoraed.

DENVER, Colo., July 12 — The Colorado silver c divention yesteriay was both big and scenational. Colosenth the convention was called to order by President Merrick. Most of the day was spent in speechmaking. The com-mittee on resolutions did not complete its work, and an adjournment was taken until today.

until today.

until today. The sensational feature of the day was the speech of the Populist governor, Waite. Among other things he said: "If the money power shall attempt to sustain its usurpation by the 'strong hand' we will meet that issue when it is forced upon us, for it is better infinitely that blood should flow to the horses' bridles rather than our national libertles be de-stroyed.

"H it is true that the United States is unable to carry out its governmental pol-icy without the dictation or consent of foreign powers; if we are a province of European monarchies, then we need another revolution, another appeal to arms. If war is forced upon us we will send to Hal-

Ifax a far greater army of British Tories' according to our population than our fore-fathers sent there after the revolutionary war

"The war has begun. It is the same war which must always be waged against op-pression and tyranny to preserve the libarties of men." A number of men indorsed the govern

or's sentiments, while others opposed them. J. Cook, Jr., led the opposition. He said: "We are liable to do things we

He sam: We are induced to do things we may regret. I appeal to you as men not to do today what you will regret tomorrow. We are excited. We hardly know what we are doing. Let us be reasonable and

act as intelligent men. We are going east as men, to educate men in the east. If we fail, then is the time to act. There is time

enough to talk as you feel now." The debate was lengthy, and the pre-vailing sentiment was evidently with the

The Denver Clearing house sent a check for \$1,000 to pay the expenses of suitable delegates to St. Louis, Chicago and Washington, accompanied by the following com-munication, signed by every banker and melter in the city:

"We wish to add our voice to your sentiments, because our welfare depends greatly on the prosperity of the trans-Mis-disippi states. We favor the use of silver iev, and that it be freely coined with gold at the present ratio of 16 to 1, without discrimination in favor or against either later.

metal." Charles S. Thomas, chairman of the un-tional Democratic committee, was elected permanent chairman of the convention. At the Broadway theater Ray. Myron Reset and President Andrews spoke to a metal." A mouter's lower simulation and indetermined to try Dr. David Ken-nedy's Favorits Remedy, made a Ron-dout, N. Y. and the March and the second statemeter and the s

Naval Proving Grounds. AMERICAN MANUFACTURERS LEAD.

Interesting Experiments at the

nder Sampson, Chief of the Drdnames Bureau, Says the United States Makes the Best Armor in the World, and Malos It Cheaper,

WASHINGTON, July 12 .- The third of a "It would be a matter of surprise to series of armor plate tests of worldwide interest and importance took place pester-day at the naval proving grounds, twenty inlies south of this city, on the Potomac river. The first of these tests was at Anlayman, said the Ilbrarian of one of napolis several years ago, when plates from England, France and the United States were in competition, and the second in the fall of 1997, when the merits of the Harvey process were demonstrated. Yes-terday the results of the labors of American manufacturers, encouraged by the lib-eral inducements of mongress and the ad-ministrations of the mavy department, were subjected to the requirements em-bedied in the contracts for side and turret course we keep an account of all the books that are taken from the library. armor for the vessels of the new navy now approaching completion. The results, approaching completion. The results generally speaking, were most satisfactory Among those who witnessed the tests were Secretary Herbert, Captain Ord Brown, the famous English ordnance ex-pert; M. Bouvard, superintendent of the armor department of the Cenzot works, France: Commodure Sampson, chief of the ordnance bureau and representatives of

The contracting firms. There were two plates tested, which were attacked by three projectiles each. The tests were for acceptance and for premium, it having been stipulated that if the plates resisted penetration under a cer-tain prescribed velocity the makers should receive a premium of \$30 a ton, in addition to the contract price of \$575 a ton. The first test was of a 9-inch plate, 6

The first test was of a 9-inch plate, 6 feet and 4 inches wide and 9 feet and 7 inches long, a sample of the side armor of the monitor Monaincek. It was nickel steel, weighed 10 tons and was made by the Carnegie-Frick company, of Pitts-burg. Three Holtzer projectiles, weigh-ing 250 pounds each, were fired against it from an Sinch rille, the muzzle being 58 feet from the face of the target. The first projectile had a sciencity of ano ford as projectile had a velocity of 1,400 feet a sec ond at the moment of impact, and pene isarphearanness largest?" <sup>10</sup> fiction of course, because the <sup>10</sup> fiction of course, because the <sup>10</sup> grist number of disappearances are <sup>10</sup> a unsequence of the reasons I have <sup>10</sup> went through the plate and oak backing to a <sup>10</sup> depth of 11.7 inches. The second project <sup>10</sup> went with a striking velocity of L680 feet, <sup>10</sup> went through the plate. Second project <sup>10</sup> went through the plate and oak backing to a <sup>10</sup> disappearance of the reasons I have <sup>10</sup> went through the plate and oak backing to a <sup>10</sup> disappearance of the reasons I have <sup>10</sup> went through the plate and oak backing to a <sup>10</sup> disappearance of the reasons I have <sup>10</sup> went through the plate and oak backing to a <sup>10</sup> disappearance of the reasons I have <sup></sup> which the butt was built. The third pro-jectile had a velocity of L536 feet, and pen-etrated plate and backing to a depth of 14% inches. The plate well withstood the strain of the attack, no cracks being perighter thing. It may astonish you, say it with a due respect to the in-mity of elergymen. But whenever we a chergyman take a book from the rary we keep a more particular watch burry we keep a more particular watch poor that book than upon any other seems hard to say it but there are ore valuable books lost by reason of any chance? - the premium. Depending nding to elergymen than by lending on this test were about 250 tons of plate o any other class of people. This does

involving nearly \$150,000. The test of the second plate was an exot argue that they are exceedingly act duplicate of the first in its results. I was a sample of the curved plates for the bsent minded. It is certain that there no class of people who are so un-sinesslike in their methods as minbarbette on the Indiana, made by the Bethlehem company, and, like the first, of nickel steel. Its dimensions were 8 feet 4 ters. Their intention is good enough. at the books get on their shelves, and inches in height, 12 feet 1 inch in length and 17 inches thick, forming a mass weigh by are chiefly books of reference, and they are chieffy books of reference, and after they have worked up the particu-hir sermon for which they wanted the book they forget all about it. If they are regular members of a library lis easy enough to recover the book, be-eause we can jog their memories when they come in for other books, but many lergymen come to libraries who are ot members, and their cloth is suffi-ing velocity of the first shot was 1.322 fee for the secure for them the courtesies a second and it penetrated to a depth of a lunest any library in the city. Nobody cares to refuse a minister a book. Very frequently their cards hear no ad-dresses, and sometimes even clergymer. "Then there are the women. Porget-ful and without an idea of business methods. We write, and write, and form

mothods. We write, and write, and twite, and for a write, and get no response, and often invo to send one of our employes to call in person and secure the book." "Valuable books?"

White Lead is best; properly applied it will not scale, chip, chalk, or rub off; it firmly adheres to the wood and shells struck the face of the plates may be gained from the face of the plates may be gained from the fact that the energy of the last shut firsd was equivalent to the force necessary to move a mass of 21.65 tons through one foot of space. The cost of the tests was no small item, and, as they compelled the acceptance of the plates represented, it fails upon the government. In round numbers the bar-bette nists cost \$15,000, the armor plate \$5,000, and the firing of the rifles (if the projectiles are not again med) \$5,000. After the tests had been concluded all the offeials and experts expressed upshells struck the face of the plates may b forms a permanent base for repainting. Paints which peel or scale have to be removed by scraping or burning before satisfactory repainting can be done. When buying it is important to obtain

Strictly Pure White Lead

After the tests had been concluded all the officials and experts expressed mo-bounded artification at the results. Cap-tain Ord Brown, of England, hooking in admiration at the barbotic plate, said: "It is a plece of magnificent metal. I do not understand why here are no cracks from one hole to another"—they were less than three fest spart. Commander Sampson said, "The tests demonstrate that the United States makes the best armer this world, and makes it much cheaper than properly made. Time has proven that white lead made by the "Old Dutch" process of slow corrosion possesses qualities that cannot be obtained by any other method of manufacture. This process consume four to give with process consumes four to six months time, and produces the brand that has given White Lead its character as the standard paint.

John T. Lewis & Bros. world, and makes it much cheaper that other nations are able to produce 11." is the standard brand of strictly pure Lead made by the "Old Dutch" pro-cess. You get the best in buying it. You can produce any desired color by tinting this brand of white lead with National Lead Co.'s Pure White Lead Tinting Colors. PARIS, July 12.--M. Lepine, prefect of the Seine-at Olse, has been appointed to success M. Lane in the prefecture of police
