SOME PROMINENT MEN IMPLICATED

Gallagher Reiterates His Statement That Every Word He Uttered Against Dempsey Was False-Names of the "Prominents" Concerned in the Plot Withheld.

PITISBURG, July 20,-At the western penitentiary District Attorney Clarence Burleigh, Attorneys L. K. Porter and W. J. Brennen, Notary Public C. C. Lee and Stenographer J. Beal met to take the de-positions of Gallagher and Davidson, serving time in the Homestead poisoning cases. Gallagher was before the committee over two hours. Davidson's examina-tion occupied about twenty minutes. The district attorney conducted the examination, but declined to give out anything for publication.

It was learned, however, that Gallagher's confession in regard to Hugh Demp-sey and the Homstead poison case is much more sweeping in its details than had been Imagined by the general public. A gentleman who has heard the whole story says Gallagher's statement not only implicates Pinkerton detectives but several men much more prominent in business and profes-sional life. He stated positively, the gentleman said, that every word he said against Dempsey on the stand was false. He implicates Detective Ford, of the Pinkerton agency, and gives the names of many others who were instrumental in Dempey's conviction.

He further states that he never selmin-

istered poison or croton oil to the men at Homestead and that Dempsey never pro-posed that he should. He sticks to the story that the \$25 Dempsey gave him was a loan to protect his furniture. To sub-stantiate this the defense will show by members of the firm who sold him the furniture that they were pushing him for the money.

Davidson made a statement similar to

the Gallagher story, except that he was not in the plot as long as the man who co victed Dempsey. They both seemed will-ing to make their confessions under oath and stand by it, even if it means a length-ening of their terms of imprisonment. Dempsey's attorneys have matters in such shape that they will corroborate the con fession by oth r witnesses.

ACCIDENTAL DEATHS.

Caused by Carelessness, The Statement That It Was Se-

The majority of people die sooner than they should. Evidence of this fact is grow-ing daily. Waring says: "Discuse is not a consequence of life; it is due to unnatural conditions of living—neglect, abuse, want.
Dr. Stephen Smith, on the same subject.
"Man is born to health and long life; discase is unnatural, death, except from ole aga, is accidental, and both are preventable by human agencies."
