## DISGRUNTLED RUSSIANS

They Close Their Exhibits at the Chicago Exposition.

IMPOLITE CUSTOMS OFFICIALS.

They Insist on Examining a Russian Exhibitor's Stock Against His Protest. Lady Manager Lockwood Scores Ex-Mayor Hewitt, of New York.

WASHINGTON, July 29.-The closing of Washington, July 22.—The closing of the Russian exhibit at the World's Co-lumbian exposition, and the statement that an appeal would be made to the Rus-sian minister here for protection, as re-ported from Chicago, were discussed in official circles, rather blindly, because of the lack of particulars. It seems that P. Lockootin, one of the exhibitors in the Russian section, had been suspected of violating an order issued several days ago, which permitted the sale of duplicates of which permitted the sale of duplicates of articles on exhibition under certain restrictions. Customs officers made a search

avail, and then Commissioner General Glonchovsky complained to Director Gen-eral Davis. This was followed by the closing of the whole section, the exhibi-tors being in a high state of indignation. The Russian legation in Washington is closed, all the members being at Lenox, Mass, where they are smalling the sum-Mass., where they are spending the sum-mer. Whether or not any complaint has been made by Commissioner General Gionchovsky regarding the treatment of Exhibitor Lookootin cannot be told here. ing them were very brief. Chicago, June 29.—Assistant Commissioner C. Ragousa Slouchovsky, of Russia, addressed a polite but firm note to the collector of the port of Chicago, reciting the provocation for the covering the booths and show cases by the exhibitors. The latter did not say in so many words that the imperial commission demanded satisfaction, but it politely constituted in the sum of satisfaction, but it politely constituted and satisfaction. imperial commission demanded satisfaction, but it politely conveyed the information that the representatives of the information that the informa tion that the representatives of the emparor approved the action of the exhibitors in covering their displays until they were

tion that the representatives of the emperor approved the action of the exhibitors in covering their displays until they were assured that the agenta of the United States government would not be allowed to repeat the alleged offense.

A copy of the latter was received by the director general, but he declined to furish it to the press on the ground that it was not addressed to him. Colonel Davis said: "Thave not time to consider this matter yet, and do not know what steps I shall take to restore the friendly feeling which the exposition should hear toward the Russian exhibitors. If the custom inspectors were as impolite as it is reported they are I think they should be at one discharged from the service of the government. I have no doubt but this unpleaseantness will be straightened out in a day or two."

Abraham S. Hewitt's criticism of the Woman's building and its contents have elicited an open letter from Mary S. Lockwood, delegate at large, board of lady managers, in which she says: "The exposition has been visited by yon, and you praise, extol and commend the buildings, contents and beauty of situation, but alias the Woman's building alone comes in for severe criticism. Perluga no better refusion has been visited by yon, and you large percentage the most satisfactory fluiding on the grounds. Let no one make himself judge who can walk through the forest and find no firewood. Justice Long, of Michigan's Supreme Court, No Longer & Pen-loner.

DETROIT, July 22.—The most sensational thing that has yet come to light relative to the purging of the pension list is the suspension of a no less distinguished pensioner than Justice Charles Dean Long, of the Michigan supreme court. Few solsioner than Justice Charles Dean Long, of the Michigan supreme court. Few sol-diers in this state suffer from wounds as severe as those of Justice Long. At the battle of Wilmington island, Georgia, he lost his left arm, and he was also shot through the hips and abdomen. This lat-ter would has still to be dressed twice daily. Although the order of suspension bears date of June 27, Mr. Long has not yet received official notice of its discontin-mance. The notice of suspension is a brief, formal decorposat, and gives no clew as to formal document, and gives no clew as to the reasons I at have influenced the course of the department. The order gives the pension servificate number, which shows that there could have been no mistake or confusion of names.

## STARTLING FACT.

SIXTEEN PER CENT, OF LIFE INSURANCE

APPLICANTS REJECTED ON ADDOUGT OF DISEASED KIDNEYS.

The Trouble Comes From Lack of Care.

Dr. Lambert the general medical director of the Equitable Life Insurance Company, N. Y., said: was reject strices per cent of the applica-tions made to a for insurance, and thave as red the entire expanse of this medical depart-ours, by the rejection alone of applicants who had discussed kinneys, and who died within two years after the jecked thous.

This appulling statement coming as it does, from such high raedical authority, should have the attention of our citizens. There is no reason to day, why people should allow kidney disease to get such a hold on them.

Nature sends her warning in the slight

Nature sends her warning in the light pain in the back, poor circulation of the blood, sediment in the urine. When any of these symptoms appear, Dr. David Kennedy's Favorite Kemedy should be taken in small doses at once, and thus drive the polson out of the blood and rostore the kidneys to healthy action.

To our knowledge this is the only medicine that surely and effectually cures this almost universal complaint.

almost universal complaint We note the happy recovery of Mr. Oscar Lambert, of Jerico, Mo., whose case has been talked of in the papers the world over

Queting from his letter. Quoting from his letter:

"Ineglected the first symptoms until I found my self in hea with a complicated disease of the kidneys. No mortal ever suffered more and lived. My privacean failed to help ms. I then used fir. David Kennedy's Favorie. Remedy, made at Roadout, N. Y. It relieved my iddneys almost immediately, and in a few weeks I was clear of all pain, and entrely curse, I owe my present leave of line to Favorius Remedy."

It is used and recommended for what it accomplishes. Writes Mrs. A. J. F. Manchester, from Providence, R. I.

"Thegan using Dr. Kennedy's Favorite Remedy."

"I began using Dr. Rennelly's Favorite Rem-edy for kidney disease, when Doctors failed to relieve me. It drove a ball humor out of my blood, cured my kidney troubs, and I am truth-ful when I say Reaved my life."

Wm. Huston the popular West Shore R. R engineer, came out in an open letter stating how he had suffered with kidney disease Physicians treatment, and the use of various preparations failed to benefit him. Dr. David Kennedy's Favorite Remedy, was procured and it made him well. Favorite Remedy has had more free advertising in the columns of the daily papers, than anything we know of, from the fact that it does as is promised. "cures disease."

Dr. Kannedo's

Dr. Kennedy's Favorite Remedy possesses marvelous strength giving qualities, that render it especially, valuable to the aged or infirm. ## FRANCE VERSUS SIAM.

The Russian Government Has Not Yet Declared Itself.

THE ATTITUDE OF GREAT BRITAIN.

lannot Recognize Any Obligation to Assist Slam, but Will Take a Hand in the Boundary Question - Siam Will Not Yield Without a Struggle.

PARIS, July 22.—The representative in this city of the United Press has been at pains to discover the truthfulness or un-truthfulness of the very important statement published in The Petit Journal and The Nation to the effect that Baron Mohrenbein, the Russian ambassador to France, had assured the French government that Russla would so port France on every point in dispute between herself and Siam, and that Russlan warships were on their way to the gulf of Siam to uphold France and protect French citizens. Baron De-Korff, an attache of the Russian embassy, Korff, an attache of the Russian embassy, assured the representative that the statement was a boax. Baron Mohrenheim went to Royal on Treesday last, the day he was alleged to have conveyed to M. Develle, the French foreign minister, information as to the intentions of Russia. As a matter of fact, sufficient time had not then elapsed for Russia to have conveyed to her representative information as to whether she intended to take any part in the dispute or not.

The Temps' special correspondent at Saigon says: "The Siamese chief, Pria-pitch, commanding at Khong, sent a flag of truce on Tuesday to the French esp-tain, hegging him to comes firing, as, ac-cording to Priapitcha's advices, from Bangkok, a French admiral had arrived there to treat for peace. The captain re-piled that he was without instructions, but would cease as soon as the Siamese forts should be abandoned. The result

Bankown in Salgon."

Bankown, July 22.—M. Pavie, French minister resident, handed France's uithmatum to Prince Devawongse, Slamese minister of foreign affairs, on Friday of last week. At the same time he informed the Siamese government that in case France's demands should be refused he would at once leave Hangkok to board the gunboat Forfait. The blockade of the Siamese coast, he added, would be declared at once. The opinion is general here that Siam will offer to pay in full the indemnity demanded by France. It is doubtful, however, that the French claims. doubtful, however, that the French claims to territory will be allowed. Much depends on the response of Great Britain to the efforts Siam is making to gain her moral or material support.

LONDON, July 22.—Important communi-

cations have passed between the foreign office and Captain H. M. Jones, British minister resident in Bangkok. Vice Ad-miral Fremantle, commander in chief of the Chinese division of the fleet, is hastenthe Chinese division of the deet, is hister-ing to Singapore, where dispatches from the admiralty await him. The greater part of the squadron under his command accompanied him. Great Britain has informed Siam that she could not recognize any obligation to assist her. It is evident, therefore, that the Siamese government must patch up as best it can most of its differences with France.

In the territorial arrangements however, Great Britain will have a voice. The exact nature of her demands cannot be ascer-tained before France shall specify more particularly than she has specified in her ultimatum the bounderies of the territory to be brought under French control. The ultimatum is notably indefinite as regard this point. Evan Siam is still in the dark, and her efforts to obtain light from M. Pavie bid fair to remain vain for several days. The vital part of the French demand for territory may include the whole left bank of the Mekong river. This territory Siam will not surrender without a struggie. Siam manifests all willingness to pay France the indemnity demanded for injuries to French citizens and property, although the indemnity specified by France is far in excess of the damages.

France is far in excess of the damages.

The Bangkok correspondent of the Daily Chronicle says: "The concession of the French demands is probable, although a section of the Siamese cabinet counsels defiance. The French gunboats are making special preparations for the event of refusal. The British minister has warned British subjects, in view of the critical situation, that the Siamese navy will be unable to afford any protection, and will undoubtedly be captured in the event of fighting. The landing of foreign troops is regarded as probable. The setting gover regarded as probable. The acting gover-nor of the district near Luang Prahang

is acting in the French interests."

The Bangkok correspondent of The Times says concerning the French ultimatum: "Europe, and especially Great Britain, should know that this territorial demand represents 95,900 square miles. It includes the province that Burmah ceded to Siam on the condition that it is acting in the French interests.' should never be ceded to any other power and 50,000 miles of northeastern Siam into and 30,000 miles of northeastern Sam into which the French have never advanced. The demand for the evacuation of the left bank of the Mekong river provesthat Governor General de Lamessan's statements regarding previous French possession of the tracts claimed are untrue. The indemnity demanded amply represents France's pravious claims, and should satisfy the modern approximation of the control isfy the most grasping government. In fact France demands the dismemberment and ruin of Siam, and if these be dealed will make war upon and blockade the country." BRILLY, July 22 - The German govern-ment will send several ships to Siam to protect the German residents and their interests. This step is taken partly in response to the urgent request of the Hanse cities, which have commercial relations with Siamese ports.

Destructive Fire on Long Island. LONG ISLAND CITY, July 22.—Two en-tire blocks of buildings in this city were destroyed by fire yesterday. The new St. Mary's Roman Catholic church, just com-p eted at a cost of \$300,000, is totally destroyed. The parsonage was one of the first buildings thoroughly gutted by the flames. The costly new parechial school, which had never been used, was also destroyed. Thirty-one buildings in all were destroyed, and the total loss is over

Dismissed All the Professors Monsasrows, W. Va., July 23.—As a result of the long continued disputes and counter charges, prompted by jealousy, between President Turner and Professor Ogden of the West Virginia State univer-sity, the regents have dismissed all the professors. Thirteen of them may be reinstated, but it is not probable that President Turner will be among the number.
