THE SIAMESE YIELD.

The Demands of France Reluctantly Conceded.

TO PAY FULL INDEMNITY.

"Force of Circumstances" Requires the King to Yield and Grant the French Claims. Though Siam's Answer is Regarded as Unsatisfactory in Paris.

Special to EVENING HERALD.

PARIS, July 24.—Siam's reply to the ultimatum for a reply had expired. The text of the communication is as follows: "His majesty, the king, my august sovereign, charges me to make to you the following declaration: "His majesty regrets that no precise definition of what his majesty is to understand by the expression 'rights of the empire of Annam and of the kingdom of Cambodia on the left bank of the Mekong river and on the islands of the Mekong river.' His majesty has been ever ready to abandon all the territories over which the existence of these rights should have been proved, and five months ago his majesty proposed to submit all contested points to international arbitration. Now he submits to the pressure of circumstances in order to restore peace to his people and security to the numerous commercial interests at stake in his country. His majesty, therefore, consents to a delimitation of the frontiers between Siam and Cambodia.

"All the territory on the left bank of the Mekong river south of a line drawn from the most southerly Siamese military posts recently occupied by the French Annamite troops to another point situated in the same latitude will be regarded as Annamite and Cambodian territory, the river below the point indicated becoming the line of separation between the neighboring states as far as to the point at which the river enters Cambodian territory, and the use of the islands in the river being common to the three countries. The two Siamese military posts now existing in the above described territory will be evacuated within a month.

"His majesty deprecates sincerely the losses experienced by both sides in connection with the King Kinn and Khammou accidents, as well as the probable collision at the mouth of the Menam river. The Cambodian will be liberated and other satisfaction demanded will, if necessary, be given, as far as is compatible with ordinary justice and the independence of the Siamese Kingdom, which the French government has declared its desire to respect. The four persons found guilty of acts of personal aggression, contrary to national or international law, against French subjects will be punished and, where necessary, compensation in money will be made to the relatives of the victims.

"Long notes have been exchanged by us five times on the subject of certain claims made by French subjects on account of damage alleged to have been suffered by them, owing to the action of Siamese officials. These allegations are contested, however, by the latter. The king, guided by the same considerations as those actuating the foregoing declaration, agrees not to insist on the question of principle, and to hand over to the government of the French republic the sum of 3,000,000 francs for the benefit of those who suffered the above mentioned losses. The Siamese government proposes, without, however, making it a condition, the appointment of a mixed commission to inquire into the question of damages and the amount of money indemnities mentioned in the French government's demand.

"The Siamese government will immediately deposit 3,000,000 francs to cover the amount of indemnifications enumerated above, the deposit to be made simultaneously with the exchange of notes by the two governments. His majesty, having reason to believe that after proper inquiry the sum of 3,000,000 francs will be found to exceed the amount of indemnities claimable, relies on the justice of the French government for the refunding of such balance as shall remain available after the settlement of the different cases.

"The Siamese government is confident that in acceding to the demands of the French government in the manner shown by the foregoing declaration, it has given proof of its sincere desire to maintain good relations with the French republic and to settle in the most complete and definitive manner all questions pending between the two governments.

The communication is signed by the Siamese minister of foreign affairs. The Paris newspapers, led by The Temps, are conducting a vigorous campaign in favor of the government's full demand, and are warning Great Britain against any interference in the present complication.

It is stated Siam's reply to France's ultimatum is considered unsatisfactory. M. Pavie will probably leave Bangkok on Wednesday to go abroad on the cruiser Epave. The refusal of M. Develle, French minister of foreign affairs, to give Siam an extension of time for her reply to the ultimatum is ascribed to his desire to force Siam's hand and prevent her negotiating for British support.

Terrific Weather and Forest Fires.
BUFFALO, Wyo., July 24.—For some days the temperature has been 112 in the shade, while the mercury in the sun stands 130 to 150 degrees. This is the hottest weather recorded for eight years. Not a drop of rain has fallen for nine weeks and the range is completely destroyed. Buffalo is surrounded by forest fires. Ten thousand acres of choice timber are already destroyed just east of Buffalo. Another fire burned some ten square miles of grass, which was the last range feed in the locality.

RACE RIOT AT PRICEBURG.

Three Fatally Injured in a Fight Between Hungarians and Poles.

PRICEBURG, July 24.—Saturday was pay day at the mines at Priceburg, a populous borough of this county, and the Hungarians and Poles of the town, and there are hundreds of them there, began to drink heavily. As night advanced a Pole engaged in a fight with Bryan Fallon's saloon, and their countrymen took sides with them, a free fight resulting. The borough police arrested four Hungarians and lodged them in the Priceburg jail. The Hungarians held an indignation meeting and then proceeded in a body to the jail, where they overpowered the keeper and liberated the prisoners. This caused the largest riot that has occurred in this region in sixteen years. The Poles took exception, and a race war commenced, lasting three hours, during which there was a reign of terror, all the saloons in the town being taken possession of and the officers driven out. Over thirty men were injured, three fatally, and one Pole had his ears cut off. Many windows were broken in with stones and clubs. Shortly before midnight Deputy Sheriff Craig arrived with a well armed posse and overpowered the rioters and restored peace. Many arrests will follow.

Won't Tell Who Shot Him.

WILKESBARRE, July 24.—William Segan, of Wyoming, was brought to the hospital in this city suffering from a bullet wound in the head, which penetrated the brain, and which the physicians pronounce certainly fatal. Segan was arrested with several other Hungarians for breaking windows in the house of John Bright, at Wyoming, and it was not until he was arraigned before the magistrate that it was known that he was injured. He cannot, or at least will not, tell who shot him, but one of his companions says it was the officer who arrested him.

Fighting Railroads at Harrisburg.

HARRISBURG, July 24.—The Citizens' Electric Railway company attempted to procure a cross over on the Manufacturers' Railroad near Eighth and Berry hill street, and was met with vigorous opposition on the part of the Reading. Several locomotives were run upon the track, and in the course of the fight the Reading stopped its progress and damaged the front of the car. Both sides are awaiting developments.

An Ex-Century Official in Trouble.

WEST CHESTER, July 24.—Ex-Recorder of Berks Richard Plank of Union Deposit, is in trouble. A few weeks ago he left his home and family, it was alleged, with a Mrs. Myers, of the same township. He returned in a very impetuous condition to the house of John Bright, at Wyoming, and was arrested on a charge of adultery preferred by Mr. Myers. He was taken before Squire McClintock, when he waived a hearing and gave security for his appearance at the next term of quarter sessions.

A Blacksmith's Rich Find.

PITTSBURG, July 24.—James Keenan, a Duquesne Heights blacksmith, is a lucky man. He lives at 21 Merion street, in the old Kirk's mansion. This property was originally owned by Dr. J. G. Walters, an eccentric character. Mr. Keenan was doing some excavating about the place and he struck a rich find. Deep down into the earth an iron kettle was found nearly full of gold. There was \$5,000 in the pot.

Hastings. He served as district attorney of this county for three terms and principal of public schools for several years. He served in the war, and received the brevet rank of captain in the Fifty-sixth regiment.

A FIRST WARD RIOT!

Desperate Fight Between the Police and Hungarians.

SEVEN ARRESTS FOLLOW.

The Battle Was Precipitated by an Attempt of the Officers to Capture a Fugitive From Justice—Hungarian Women Take a Hand.

RIOT was precipitated in the First ward last evening by an attempt on the part of several officers to capture a Hungarian who has been a fugitive from justice for several months past.

The man wanted was John Raklis. He was arrested last spring for making his appearance on the Yatesville and Ellengowan roads in a nude condition and chasing young ladies. He was put under bail for trial at court, but when the case was called up it was found that Raklis had disappeared. This was at the criminal term of court held before the last one and a capias has been in Constable Toomey's hands since then.

Nothing was heard of Raklis after his disappearance until yesterday, when Toomey learned that the man had sneaked into the town to attend a christening on Peach alley in the First ward. Accompanied by Constable Tosh, Toomey went to the house where the christening was being held and the place was surrounded by Policemen Casey, Constable Dando, Specials Katchford, Sadusky, Alexis, Graham, Mullahey, Green and about a dozen citizens.

Toomey and Tosh got into the house and, as was expected, the occupants tried to shield Raklis and spirit him away. In attempting to prevent this the Constables started the war and before they could receive assistance from the outside the officers were pretty badly handled.

The appearance of reinforcements only increased the anger of the Hun, who were more or less under the influence of beer and liquor and they fought like demons against the officers. Pieces of furniture and crockery flew in all directions and clubs were wielded freely on both sides. At one time the officers were getting the worst of the battle, but they eventually succeeded in conquering.

Justice Monaghan was attracted to the scene by the great noise and succeeded in capturing one of the Huns who was escaping from the house by knocking him down with blows from a heavy cane. Constable Toomey received a severe blow from the Justice's cane which was intended for a Hungarian.

When the battle was over Raklis was landed in the lockup and five men and two women followed him, but were subsequently released on bail. Raklis was taken to the Pottsville jail this morning. The seven other prisoners will be obliged to stand trial for inciting a riot.

Many residents of this place were painfully surprised to-day upon hearing the announcement that Captain James K. Helms, of Schuylkill Haven, died at his home there last evening. James K. Helms was the oldest son of Peter Helms and was born at Myerstown, Lebanon county, in June, 1841. A part of his early life was spent with his parents in Philadelphia and when he reached the age of 16 years his family moved to Schuylkill Haven. When still under 17 Mr. Helms commenced teaching school in Wayne township and was associated in that profession with Judge O. P. Bechtel and O. J. Argood.

When the war broke out Mr. Helms enlisted in the three months service, Sixth Pennsylvania Infantry, and re-enlisted as a private in the 48th Regiment, Pa. He received seven ugly wounds in the leg from a gunshot at Petersburg and during a gallant charge was captured with several members of his company, but was recaptured before the Rebels proceeded far. TRIP TO THE VALLEY.

Councilmen Visit the Water Works Site.

CONTRACTORS' GUESTS.

After Viewing the Field of Operations They Were Feasted in a Neighboring Grove—Some Items That Tell a Tale of Healthy Appetites.

THE TRIP to the valley yesterday by members of the Borough Council and invited friends proved a very enjoyable and possibly very beneficial affair. About two weeks ago Messrs. Quinn & Kerns, who have the contract for constructing the public water works, concluded to invite Council to visit the sites for the reservoirs in a body and inspect the progress of the work and in pursuance of that conclusion the trip was made.

At ten o'clock yesterday morning twelve of the fifteen members of Council and about twenty invited members of the joint committee on public water works, newspaper men, etc., embarked in carriages drawn up in front of the borough building on South Jardin street. Contractor Quinn was on hand to see that all the arrangements he had made for the trip were carried out.

So far as the weather was concerned the day was a delightful one for the trip and all the excursionists were in good humor. The only missing Councilmen were Finney, Lamb and Stout. The route was out Jardin to Centre, to Main, to the Broadview road and up to an elevation on Locust mountain, which affords an excellent view of Sharp mountain, the hills and valleys about Fountain Springs and Ashland and Beaver Valley. Most of the excursionists alighted at this point and enjoyed the beautiful sight, after which they entered the carriages and again started for Broadview. The trip down the steep mountain road to that place was quite exciting. This road is a dangerous one, and a driver of no mean ability is required to handle a team in descending. When about half way down the brake of the carriage occupied by Councilmen McGuire, Gaffigan and Dougherty broke and the borough fathers became fearful that if they remained in the vehicle their constitutions would be required to fill some vacancies, so they concluded to walk. The trip was made without further mishap.

After a brief stop at Broadview, which was occasioned by some P. & R. freight trains blocking the crossings, the drive was continued to the Girard Manor road and then out to the place where the reservoir site is located. Alighting from the carriages, the Councilmen proceeded to view the work. Mr. Quinn accompanied them and explained what had been done and what was contemplated.

In viewing the stream Councilmen Kane and Holman expressed disappointment. They said they expected to find a much larger stream. Mr. Quinn said there would be an abundant supply of good spring water and when asked if he had calculated the amount of the flow answered that he had and figured on 500,000 gallons a day, but Mr. Womelsdorf had figured it at 750,000 gallons per day.

Mr. Quinn took occasion during the inspection to recommend that Council decide to have the breastwork of the reservoir built higher than at present contemplated. He said that under the present specifications there will only be storage for 4,000,000 gallons, but if the breastwork should be built six feet higher the storage capacity would be increased to 12,000,000 and then no shortage of supply need be feared.

After the inspection the contractor took the excursionists to a shady nook just off the outskirts of the reservoir, where they found a long table prepared. At 1 p. m. the commissary force, which comprised James Jacoby, Richard Hornberger, George Boyer and Thomas Edwards, commenced work. The spread was an excellent one and the expense was shouldered by Contractors Quinn & Kerns.

After spending a few hours discussing the water works and rambling through the adjacent woods the Councilmen were invited to supper. The justice done the two meals is told by the following items of consumption: 40 bottled spring chickens, 40 loaves of bread, 40 bottles tongue, 500 clams, 500 oysters, 25 bushels of corn, 2 bushels of sweet potatoes, 7 dozen eggs, 4 barrels of pickles and 10 pounds of Swiss cheese. The meals were prepared under the careful eye of James K. P. Schiefly.

Immediately after supper the Councilmen re-entered the carriages and drove to the new reservoir works at Raven Run, for which Messrs. Quinn and Kerns have the contract. A stop of about half an hour was made here and then the homeward journey was made.

DAVIES.—On the 22nd inst., at Shenandoah, Pa., Thomas D. Davies, aged 65 years. Funeral will take place from the late residence on North Jardin street, Shenandoah, on Wednesday, 28th inst., at 2 p. m. Services in the Welsh Calvinistic Methodist church. Entombment in the Old Fellows cemetery. Relatives and friends respectfully invited to attend.
