## GUITEAUS PISTOL.

Where Is the Weapon That Sent Carfield to His Death?

COLONEL CORKHILL RETAINED IT

Refused to Turn It Over to the Property Clerk of the Police Department, and Now the Weapen Seems to Have Disappeared.

WASHINGTON, July 25.-The where abouts of the pistol with which Guiteau that President Garfield, which has disappeared, is under discussion. Mr. Donavan, who was property clerk of the police department at the time of the tragedy, has made a statement of his afforts to re-cover the wespon from Colonal George B. Corkbill, the district attorney, who car-ried it away from the station house after

Guiteau's arrest, in which he says:
"I called on Colonel Corkhill the follow ing day and several times afterward, requesting and demanding that the revolver be placed in my charge, but the colonel stated that it would remain in his safe until after the trial, and that then it would he returned to the police department.

After the trial and conviction of the as-sessin I resumed my efforts to have the revolver placed where it should be, but with our success, Colonel Corkhill stating that or the present it would remain in his of ice. Finding that the district attorney would not return the revolver, I made a statement of all the facts and submitted it to Commissioner Thomas P. Morgan, that gentleman being idea in charge of the po-lice department, with the request that such action be taken as would con-pel compliance with law. I understand the chief justice of the district supreme

"About a week after I received an order of the court to turn over the revolver to Colonel Corkhill, and on the back of the order was Colonel Corkhill's receipt for the same. I respectfully returned the order to the cours, not compiled with, for the reason that I was unable to do so, as he property mentioned was not then, nor ever had been, in my custody. I also noti-fied Colonel Corkhill that I had returned ds receipt to the court, as I could not acept a receipt for property never in my cus-ody, as to do so I would have to make false statements on the property books. That closed my efforts to get charge of the revolver.

'Le police department officials are mak-ing an effort to secure the weapon and said it to the museum of such articles already collected and on exhibition.

### TERRIBLE EXPLOSION!

Too High Pressure.

In these days of keen competition in every ne, when the business man is compelled to bend his intellect and every energy to the success of his business; the cleek, book-keeper, prefessional man and laborer, to drive themselves at a terrific rate, there can he but one result—an explosion, which, if not resulting in immediate death, leaves them with shattered brains and bodies. They are running at too high pressure. The strain is too great. Something must and does give way. This is equally true of women. Though their sphere is more limited, they have their daily burdens, frets.

and worries, and the results are the same a with their stronger companions.

This condition is growing worse every day. The rapidity of its increase is awful to opnemplate. Our homes hospitals, and instance asylums are full of these unfortunates. and are being crowded still further. There is but one solution of the matter. Recognire the importance of the situation at once and take the necessary measures to over come it. If you have failing memory he dualies, dizziness, nervous or sick headache billousness, irritability, melancholy, sleep

distances, trizimess, nervous or sick headache, billousness, irritability, melancholy, sleepessness, fainting, nervous dyspepsia, epicipsy, etc., know that any one of them is but a symptom of the calamity that may be fall you and even though you have used so-called remedies and treated with reputable obvisions with little or no benefit, give Dr. Miles' Restorative Nervine a trial. "We are not going to put men into our mines to be shot down like cattle," he said. "There is no use reving to disguise facts. We have no reason to believe that they will be protected by the state. Our experience with the state and county off little from them. We must do something. It would be folly and cruelty on our part to put workingmen in those mines with no protection. When the miners go inside the stockades they will be prepared to defend themselves against attack."

The Kansa, and Texas company is preparing for work, too.

# Doubting Suffering Women !

MANY SUCH HERE.

Allve to the interests of our lady readers, we pub-ish Mrs. Simpson's letter to Dr. Kennedy. Dear Sir :- I was an in-valid for years, suffering from kidney trouble and female weakness, Phy-

lcians prescribed for me and I took various rem edies, but to benefit resulted. Our daily paper noticed the success of Dr. David Kennedy's Favorite Remedy, of Rondout, N. Y., in cases similar to my own. I purchased it. The first bottle taken in small doses, but very regular, improved me wonderfully. My complexion cleared, appetite improved, sleep was sound and refreshing, and a little further cleared, appetite improved, steep was sound and refreshing, and alittle further use entirely cured me. There never was a medicine for woman-kind, like Favorite Remedy. With all my heart, let me urge them to use it. Relief will be the result.'

A Remarkable Editorial from a Southern Methodist Paper.

WHITE CHILDREN RETROGRADING.

The Children of the Black Man, According to This Religious Writer, Is Outstripping the White Boy in the Acquis-Ition of Knowledge and Skill.

RICHMOND, Va., July 25 .- A startling editorial appeared in the last issue of the Richmond Christian Advocate, the leadnegro question, written by Dr. J. J. Laf-ferty. Among other things he said: "A southern Methodist advocate has this Incidents In a village of the cotton belt a big, burly black rost up to a store and said to the owner: "Lat this man (pointing to a poor white laborer) have two dollars worth of goods and charge it to me."

but it has a wide significance. The south ern people during the war were drawn to wards the plantation peasantry of the south. The fun loving negro, the hardest working class on earth, was, for years, pictured as in bitter boudage, the slave was represented as longing for freedom, and during the war praying through the nights for the caming of the national troops. These, moving though mistaken funcies, and much more of the same sort, stirred the philanthropic heart of the cotton thread millionaires, and the rich army contractors turned virtuous. A great sum was sent south for the education of the negro. Its expenditure in the main, helped the negro. It was wisely directed that these negroes should have a practical turn. V. hat was the result? We find in nearly each southern state the negro, boy of the

brighter sort in training schools.
"In the meanwhile the negro is growing rapidly as a citizen, with a home and a decent income, a thrifty member of society Moreover, the southern commonwealth began after the war to tax the white property holders heavily to educate the citizen's sons of the non-taxpaying negro.

"The negro laborer received as much

money for his coarse work as the ex-soldler of Lee. The white man consumed more of his earnings in house rent, clothing and food, hence he could not spare his son at the school. We needed the boy at the the school, lie needed the boy at the plow to aid in bringing up the family. The negro boy first learned in the 'free schools' to read and write, then be learned in these technical schools how to make fine shoes, buggies, and lies, etc.

"The newspapers recently reported that the private secretary to Hon. Mr. Riccuri of Georgia, representing the United States in the Hawatian Islands, an educated young gentleman, seeks an alliance with an ex-coolle, a pig-eyed Pagan. Who will dare to say that the olive colored octo-roops and quadroons, the bright mulat-toes, the heiross of wealthy men of negro blood, will not be sought in the next cen-tury by impecunious, thriftiess and idle young men of the white race? The negro maidens are seen at certain colleges for women of high degree in the north. Where unto will this grow!
"Consider the culture of the friendless

and fatherless boy of the white race. Can be pay \$500 to attend the Stevens institute in New York? Can be command money for board and raiment while a student at any state school with a small annex of tools and a shop! He huan't money enough to buy even a ratiroad ticket to such a

"The grandchildren of warlike men with bistoric names, who made the southern army a sphooyin of dauntless courage, are drifting towards the helot class, and in the century dawning there will come to pass social conditions that would stir the corpses in the jackets of grey.
"No man has seen the harvest after Ap-

pomatox. The statesmen among us robbed the ex-soldier of Lee to educate black cor. petitors of his children. Then northern millionaires, in hatred of the paroled chilzens, have endowed colleges of tools and and subjugate the sons of the Confederate in the struggle for the best pay and posi-tion in the skilled trades. It is a condition and not a theory that confronts us. Thoughtful men do not contest the fact."

Arbitrating with Chile. 25550 Washington, July 25.—The members of the commission appointed under the treaty of 1892, to adjust the claims of the citizens of 1892, to adjust the claims of the citizens of the United States and Chile against each other's governments, met at the state department today for organization. The members are Alfred de Claparede, minister from Switzerland, Don Dominge Gana, minister from Chile, and John Goode, of Virginia, representing the United States. The amount of claims presented will probably run into the millions.

ably run into the millions. First Shut Down in a Century. Highland Jalls, N. Y., July 25.—The Forest of Dean mines, shouted near this village, have closed down for an indefinite period. One hundred unlers are thrown out of work. These mines have been oper-ated without interruption for the past hundred years.
