## THE FAIR'S FINANCES.

The First Half of the Big Show Not Entirely Satisfactory.

NO PROFITS FOR STOCKHOLDERS.

Exposition Officials Charge the Railroads with Responsibility for Smaller Attendance Than Was Expected-President Riginbotham Ropeful for the Future.

Citicaco, Aug. 2.—With the closing of the gates Monday night the first half of the Columbian exposition passed into his-tory. The number of paid admissions dur-ing the month was 2,700,971, and the larging the month was 2,70,001, and the largest number of paid admissions was registered July 4, when 233,273 people deposited the admission foe with the ticket seller. The smallest number was on Sunday last, when only 18,607 paid admissions were recorded. The paid attendance for May was 1,080,037, while that of June more than deathed this force executive a total of doubled this figure, reaching a total of

Officials of the fair are greatly pleased with the artistic success of the exposition, but this much cannot be said of the financial and of the enterprise. The enterprise has failed largely to reach the mark it was expected to artain during the first half of e fair, and especially during the month July. For this the railroads are in the main held responsible, and the officials do not healtate to criticize their stubbornness and meanness in refusing to make a one fair round trip at the beginning of the fair. The present hard times have had much to do with the poor attendance, but the management thinks the people could have attended largely had the railroad fares been relineed.

fares been reduced.

There must necessarily be a large at-There must necessarily be a large at tendance during the remaining period of the fair if the management expects to pay its debts, and this is all they now hope to do. It is a foregone conclusion that the stockholders of the fair will get nothing an their livestment nor will their substantial their substantial that the second of the valley lands coursed by the lixurant pasturage of the valley lands coursed by the lixurant p do. It is a work of the fair will get nothing stockholders of the fair will get nothing on their investment nor will their subscriptions be returned, as the money for which the exposition is legally liable amounts to so much that it will take a tremendous daily average of paid admissions to release the obligation.

"I have only one fault to find with the first half of the fair." The attendance has not been what it ought to have been. In all other respect the exposition has been a sterees, as no one can reasonably deny, but in that respect the first half is by no means the better half. I believe that the attendance from now on will steadily increase. I believe that the admissions this week will believe that the admissions this week will charge a band of 100 or more, each man scleening his victim. On being lassond man scleening his victim. On being lassond man scleening his victim. will charge a band of 100 or more, each man selecting his victim. On being lassood about 8,500,000 admissions. Certainly more than that many will be registered during the remainder of the fair, and the total attention of the fair, and the fair attention of the fair att endance will more than double those figures. The latter half of the fair will sur-prise us as much with a large attendance as the first half has disappointed us with

The retirement policy will be renewed at once with increased vigor. One of the first effects of economy is felt in the elimina tion of one "special" night per week. Heretofore Tuesday, Thursday and Satur-day were designated as special nights, and were rendered attractive by band concerts, fireworks, stc. This feature has been abridged to two nights, and Wednesday and Saturday will be reafter be known as "special" nights. There will be no music at night except upon those days, and the hours for the day concerts have been changed so as to divide the music equally between the morning and the afternoon. The free orchestra concerts will be given The free orchestra concerts will be given as usual, when the orchestra is not engaged in rehearsing for an afternoon program, at least for the present. The new arrangement will work a saving of a few hundred dollars daily.

The paid admissions at the fair yester day were 75.418.

# THEY'RE ALL TALKING OF IT. THE STAMESE DISPUTE.

A Complete Understanding Between France and England.

THE SUPPLEMENTARY GUARANTEES

They Were Demanded by France on Account of Siam's Delay in Accepting the Ultimatum, and Are Conceded by Stam. A Neutral Zone in Indo-China.

Panis, Aug. 2.— The supplementary guarantees demanded by France from Siam, which include the temperary custody of the river and port of Chantibun, and that Siam shall not establish military stations in certain manual places near the Cambodian frontier or within a certain distance of the Cambodian frontier, were contained in a note issued by M. Develle on Monday and made public teday. The text of the note is as follows:

on its use and am happy to say it entirely not me. Itake it whenever I feel a little out of sorts, and it always does me good. Buffer ducy or notherly trouble of any kind I am a roof of its curalive powers.

Mr. Male saidevery word was true and the would not be without that value and the would not be without that value. heavier conditions. Being desirons, however, to give further proof of the senti-ments of moderation by which she has been constantly actuated. France will con-tent herself, as an judispensible guarantee for the practical execution of the clauses of the minimum, with occupying the river and poet of Chantibun until the complete evacuation of the posts estab-lished by the Sianuese on the left bank of the Mekong eiver. Further, for the pur pose of guaranteeing a continuance of the good relations happily resemblished between France and Siam, and for prevent-ing a conflict in the region of Lake Totilesap, Siam will undertake to maidtain no military forces in the limitembang and Siemrenf, and in the lucality situated within a radius of twenty five effunctors of the Mokeng river, starting from the Cambodian frontier. Siam will only maintein the police force necessary to preserve order. Moreover, Siam will not maintain warships or armed boats on the waters of the great lake or the Mekong river."

A semi-official note says; "The vinterviews between M. Develle and Dufferin in the last few days referred ex-ciusively to the upper Mekong question, which has been pending between France and Great Britain for years, and which was throught into prominence by the France-Siamese conflict. All decisions in Franco-Statusse conflict. All decisions in the matter were postponed until Siam un-reservedly accepted the French ultimatum. Acceptance being made, France has not hesitated to althore to the principal of a neutral zone to be established by means of mutual sacrifices between the possessions of the two powers in the regions of the up

A council of the ministry was held at the Palaca palace of the Elysee yesterday. M. Develle announced that Prince Vad-M. Develle announced that Prince val-hana had signified his government's will-ingness to concede the supplementary guarantees demanded by France. M. Da-valle also stated that his interview on Monday with Lord Dufferin was based on the negotiations which took place in 1839 between France and Great Britain, which recognized the principle of a buffer state between the French and British pos-

state between the French and British pos-sessions in the east.

LONDON, Aug. 2.—In the house of lords
Earl Roseberry, secretary of stats for for-eign affairs, read the text of the first ulti-matum and of the supplementary ulti-matum sent by France to Slam and ac-cepted by the latter country. He added:
"We have signed an agreement in Paris establishing a neutral zone in Indo-China."
