COMING VERY SLOWLY.

Congressmen in No Hurry to Reach the Capital.

SILVER SENATOR TELLER ON HAND,

Emphatte in the Bellef That the Sherman Law Cannot be Repealed Without Some Substitute-Hankers Alone Responsible for the Tight Money Market.

WASHINGTON, Aug. 3 .- Members of congress continue to come in very slowly, and there was some doubt expressed today as to whether there would be a majority of the Democrats in town in time for the caucus, which is set for Saturday night. There were last night not more than forty members of the lower house in the city.

and less than a more of senators.

Among the latter Senator Teller is the most recent arrival, and he comes fresh from the west ready to take up the fight forsilver where he dropped it at the close of last session. He sees no menace to the country in the existence of the Sherman law, although he admits that it is not what he wanted when it was passed. He is emphatic in his opinion that it cannot be repealed, at least without some substititle, and says that some months will large business, and in 18.8 they were estimated to be worth \$1,000.0 0, but the business has gradually falter off.

Speaking of the subject generally Mr. Teller says that the people of this country are not afraid of the currency, and it is not that fear that has caused the present con-dition. That they have full confidence in the currency is evidenced, he thinks, by the fact that they are boarding it away the fact that they are hearling it away and keeping it in all sorts of safe places, consideration will I accept a nomination thus withdrawing it from circulation. Were they afraid of the currency, as is argued by the opponents of silver, Mr. Teller says the people would show their timidity by getting rid of it and making investments in something else. But this is not what they are doing. Mr. Teller lays the whole trouble at the doors of the bankers, who, he says, for the purpose of forcing. who, he says, for the purpose of forcing an issue of bonds and creating a sentiment favorable to the repeal of the Sherman act, worked up a general scare and sought to establish a general feeling of distrust, Senator Harris said that the senate finance committee was ready to go to work on the subject at a moment's notice. His personal views as to the result of the at-

conference, during which, it is supposed. Vanderbill. Wheeler's system of ste they mapped out a plan for the work of this alleged, was falsifying payrolls. that committee. Mr. Harris believes there will be a great many measures introduced, and that the majority of them will probably be in the nature of compromises, looking to an increase of the ratio, with a pro-

ision for the free coinnge of silver.
It is probable that the Democratic memers of the senate may caucus this week to determine the distribution of patronage under the secretary of the senate and the sergeant-at-arms, but no call for that purpose has yet been issued.

Among the first things to come before

the senate will be the question of the admission of senators, the case of Mr. Lee Mantle, appointed senator from Montaga to succeed Mr. Sanders, being now before the senate and ready to be called up at any time. This is a question of the high-est privilege and may take up the time of the senate for quite a while.

Among western and southwestern con-

gressmen is found a tendency to demand that the repeal of the purchasing clause of the Sherman act and the substituting for that clause be contained in one and the same measure. They state that the preaident will promptly sign any bill repealing the clause, and will as promptly refuse to sign a subsequent measure providing for the free coinage of silver at any ratio whatever. Such course, they argue, would force them to secure a two thirds vote for the passage of the law they want, and they do not care to take the risk.

The call for the Democratic house caucus Saturday evening was issued last night Secretary Robertson, acting on instruc-ons received in a telegram from Judge

THE CONFESSIONAL SACRED.

The Suprame Court of New York State Has So Decided.

Washington, Aug. 8.—The decision of Chief Juntice Sir Frederick Joune, of the London court of probate and divorce, that a minister of the church of England can be compelled to reveal on the witness tand confessions made to him in confinee by his parishioners, has occasio considerable comment in church circles here, and especially in the Cathelle church. Bishop Keane, of the Cathelle university,

"With the growth of civilization there have grown up certain customs which have been by common consent considered serred. The custom in question is one of these. Civilization has declared that the confidences of the confessional are sarred, and when a court of law lifts its hand and says that this shall not be so, it says that the civilization of the age cannot make any regulation which the law is bound to respect. Civilization and the law ought to go hand in hand, but they have not done so in this case, and I should say that done so in this case, and I should say the decision of Justice Jeune certainly was paid.

FINED FOR CONTEMPT OF COURT.

The Officials Responsible for Closing the Gates on Sunday Puntshed by Judge Stein for Disobeying the Mandate-An Appent Taken.

Chicago, Aug. 8 -Judge Stein, of the superior court, decided that the World's fair directors and officers who had been directly responsible for closing the axposition gates Sunday, July 23, had vio-tated the injunction granted in the Cling-man petition, and were consequently guilty of contempt. He ordered that Directors Gage, Hutchinson, Henrotin, McNaily and Kerfoot should be fined \$1,000 each and stand committed to jail until the fine

son the court held that the officer had voted in belief that the injunction had voted in belief that the injunction had lapsed, and was not intentionally guilty. In view of this militaring circumstance a fine of \$100 was imposed. Director General Davis was held less directly responsible, and was fined \$120.

Mesars, Maror, Forbes, St. Clair and Highbotham were regarded by Judge Stein as instruments for the execution of the director.

the directors' ruling and were discharged. Director Nathan was also discharged.

An appeal was taken from the court's rating, pending the hearing of which the parties found guilty are held in bonds. The board of finance, which was appointed to control the money matters of the exposition, has resigned. The mem-bers refused to go on with their work, be-cause the board of directors sought to make them merely an advisory committee of the council of administration. At the time the finance board was appointed the directors voted to stop all fixed appropriations for the different departments of the fair, and allow the new board to decide how much money was needed to carry or

the work of the exposition.

There is little doubt that the council of administration will now proceed in earnest to cut expenses. It has done some work in that line during the past few weeks, but the reductions have fallen far short of the desires of the directors. The running expenses are supposed to be nearly \$20,000 a day. They fully reached those figures the first two weeks in July, but are supposed to have been brought down to about \$15,000 a day for the bast two weeks of the month. The figures are not obtainable at this time, but the most reliable estimates that could be had were to the effect that the expenditures for the last two weeks in July would go beyond \$210,600. The paid admissions at the fair yester-

day were 81,473. The Corrigan-Satolil Story Denied. Washington, Aug 5.—Speaking of the story published in Minneapolis that Mgr. Satolil on his return to Washington from the northwest would take steps to punish Dropped Bead in a Bawing Alley.
