The program in the house has been definitely fixed by the adoption of the order introduced Friday last by Mr. Bland.

Time will be devoted exclusively to the consideration of the eliver question under

the rules of the last house governing gen-eral debate. Notwithstanding the ap-parent lack of interest in the discussion

manifested by members Saturday, the number of applicants for recognition al

Searly a Hundred Members of the Lower Mrs. Meredith Is Charged with Malice Branch Have Notified Speaker Crisp by a South Carolina Malden, and Is of Their Desire to Speak on the Silver Described by Mrs. Ball as "Cruel, Mer-

cliess and Vindictive." CHICAGO, Aug. 14.—The telegraphic socounts of the late unpleasantness in the board of lady managers of the fair have necessarily been of such a fragmentary character that the public generally is much bowlidered as to what it was about. A brief, clear and consecutive narrative of the facts in the case has been secured from one of the members of the board.

from the Couzins Affair.

The present trouble is largely a contin-uation of the Phoebe Cousins quarrel, which caused so much unpleasantness shortly after the formation of the board. Mrs. Meredith, of Indiana, one of the parties to the late unpleasantness, was an active agent in the removal of Miss Cousins from the secretaryship of the board. Mrs. Ball, of Delaware, was equally as active on Miss Couzins side at the time, and has ever since occupied a position of antagen-ism to the opposition party. When, a few months ago, the committee of awards of the women's board was formed, Mrs. Ball was made a member of it and was subsequently elected its secretary. Mrs. Meredith was the chairman of the committee which had the duty of selecting two

managers,
Almost as soon as the committee entered upon its work the old antagonism came to the front and soon produced strained relaj tions between its members. These—five in number—were Mrs. Meredith, Mrs. Ball, Mrs. Ginty, of Wisconsin; Mrs. Stevens, of New Jersey, and Mrs. Fosdyke, of Alabama. The present trouble came before the board in the following manner: Miss Cunningham, a member from South Carolina, made in open session a rather intemperate protest against the non-representation of the state on the jury of awards, charging Mrs. Meredith, chairman of the awards committee, with malice is

the matter. This precipitated the first public rew, the old Conzins faction rallying to the aid of Miss Cunningham, while the conservative element as speedily arranged itself under Mrs. Meredith's banner, with much hitterness, excitoment and recrimination upon both sides. Mrs. Meredith made a scathing areaignment of Mrs. Ball, the socretary of awards. She stated that from the very outset Mrs. Ball had been inimical to the interest of the committee, and openly allied with its enemies.

The pervous tension of the board was now intensified by the general understand-ing that Mrs. Ball would speak in reply, 'supporting Miss Cunningham's charges of malice against Mrs. Meredith." The opportunity for this speech from Mrs. Ball did not occur, and when it was, nevertheless, published, the fight was on indeed. Mrs. Ball made another speech more bitter than the published one. She disclaimed responsibility for the latter, and Miss Cunningham sprang up amidst hisses and loud cries of "shame" to any she, herself, was the person who had fur-nished type written copies of Mrs. Ball's intended speech to the press. Mrs. Bair wound up with an indictment of Mrs. Meredith as a "cruel, merciless, vindictive

Mrs. Banks, the member in charge of the press interests of the board, came into statement of her connection with the affair. That let Mrs. Banks out, but the row went on with unabsted fury, and a report from the committee on awards asking that Mrs. Ball "be excused from further service" brought things to a climax, This document was signed by every member of the committee, excepting, of course, Mrs. Ball, and was finally adopted after a errific struggle, constituting a virtual mpeachment of that lady. On the following day, on what she considered a public indication, Mrs. Meredith withdraw the called report, thus restoring things to

Bombay's Religious Riots.

BOMBAY, Aug. 14.—The religious riots which broke out in this city a few days go are extending. Up to the present time ore than fitty persons are known to have peen killed, and fully 1,200 have been ar-asted. Bo-ial parties yesterday were accompanied by strong pickets, in spite of which they were frequently attacked by religious opponents. Further reinforcements of cavalry and infantry have a ived from Poona and are bivoucaking in he streets.

Colonia Won the Goelet Cop. NEWPORT, Aug. 14,-The first dispatche nt out regarding the race for the Goelet cup were incorrect. The Colonia crossed the line first, with the Vigilant only a minute behind her. The Jubilee came in forty-two minutes later. In the schooner race the Volunteer defeated the Lasca by ourteen minutes, but the Goelet cup for chooners was awarded to the Lasca, as the Volunteer was not regularly entered.

General Booth Coming in October, NEW YORK, Aug. 14 — Commander Ballington Booth, of the Salvation Army, with Mrs. Booth and their two children, returned from England Jesterday. "Our trip to England," said the commander, "was principally to talk over with the general plans for the memorial building to be creeded in the memory of the control of the commencer. creeted in the memory of my mother. General Booth promised that he would come to this country next October."

Burglars Busy at Erie. Entr. Pa., Aug. 14.—Fred Tate, watch-man at the Nickel Plate freight house, was waylaid early in the morning, badly beaten by burglars, carried into the freight house and bound to a chair. The burglars then blew the safe open and carried oil the cash drawer containing \$100 in each and a large number of checks. There were four burglars, all heavily armed.

## A STARTLING FACT.

SIXTERN PER CENT. OF LIFE INSURANCE PLICANTE REJECTED ON ACCOUNT OF DISEASED KIDNEYS.

## The Trouble Comes From Lack of Care.

Dr. Lambert the general medical director of the Equitable Life Insurance Company, N. Y., said;

pathy. N. 1., would:

"We reject streen per cent of the applica-tions and to a for insurance, and I have saved ince the expense of this nuclear depart-ment by the rejection along of applicants who lead is saved knowners, and who died within two years for in jected them. WASHINGTON, Aug. 14.-Congress has The appulling statement coming as it does, from such bigh medical authority, settled down to debate with a degree of expedition almost nuknown in its history, and with an apparent determination that

should have the attention of our citizens. There is no reason to day, why people should allow kidney disease to get such promises well for the outcome.

Fortunately for the majority in the senate, the action of the mass on the silver question relieved them from the necessity of specify and perhaps ill advised action. The Democratic saucus committee charged with the preparation of a plan that should seeme the adherence of the united unforhold on them.

Nature sends her warning in the slight Na ure sends her warning is the such pain in the back, poor circulation of the blood, sediment in the urine. When any of these symptoms appear, Dr. Fravid Kennesiy's Favorite Remedy should be taken in small desea at once, and thus drive the poison out of the blood and restore the kidneys to healthy action. ity, will, therefore, commence its labors with more deliberation than would otherwise have been possible, and it is not ex-pected now that they will perfect their work—which involves consultation with To our knowledge this is the only medi-

cine that sur ly and effectually cures this almost universal compositor.

We note the happy recovery of Mr.,
Oscar Lambert, of Jerico, Mo., whose
case has been talked of in the papers the the house has acted.

The finance committee will probably wait upon the action of the caucus committee, and so the aliver question is not likely to figure in a formal way in the proceedings of the senate this week. It is entirely possible, and even probable, that speeches will be delivered upon the subject, but if so they will be based upon some such resolution as that introduced by Senator Lodge, calling for a vote upon the repeal of the aliver purchase section of the

MINNEAPOLIS, Aug. 14.-Two million All Minniary and the following are burned and at least 1,300 persons rendered homeless. This is the record made by the destroying element in the short space of two hours. A kind providence, and not the fire department or the feable efforts of the owners of threatened property, saved the greater portion of the manufacturing and residence portious of the East side. The fire had gained such beadway that no human agency could quench it, and only a change in the direc-tion of the wind prevented an awful con-

It was a little after 1:30 o'clock when a watchman saw a small blaze on the river side of J. B. Clark & Co.'s factory, on the south end of Nicollet Island, at the head of St. Anthony falls. An alarm, quickly followed by a second and third, was turned in, but by the time the department had arrived the flames. Samed by a forious south wind, had gained such headway that all the tirruen could do was to turn their attention to adjoining property. Where the fire first started is a mystery, is thought it originated sitter in Lenhart's wagon works or in an ice house belonging to the Cedar Lake lee company immediately adjoining. Nearly all the structures in this rightly were of wood, dry as tinder, and made splended fuel for the flames. Clarke's box factory was doomed before even a stream of water was

While this tire was at its height a spark extried high in the air slighted on Hosin Island, nearly half a mile above the fire on Nicolist Island. This island is occupied as a wood yard by the limiter firm of Nel-son, Tenuey & Co. No one noticed the spark fall, but the whole island was soon ablaze. It was this spark that caused the greatest loss. Quickly jumping across the small stretch of water separating the island from the main land the flames gained a footing in Nelson, Tenney & Co.'s lumbar yard, where there were piled some 10,000,000 feet of iumber. The fire fairly walked through the yard and into that of E. W. Barkus & Co., adjoining. Great embers flew through the air and started fires many blocks beyond the places where the firemen were at work. The flames were simply irresistible. Brick and stone structures fell as easily victims as the structures fel merest shells.

All this time great crowds lined the bridges and watched a big flat boat making slow headway toward the up fortunate people in the river. The heat was most intense, and many of the men in the water were compelled to duck their heads under it to prevent the flames from scoreling their faces and heads. One brave fellow stripped himself and brought a number of his neighbors across the river before the flatboat arrived, when all were
