RESS GOODS is such a bewildering topic that we will not attempt a full description, but give a partial outline, which you can fill in by a personal inspection. There are the plain and changable diagonals; plain, plaid, striped and invisible plaid serges; fancy mixtures in all sorts of odd weaves, dots, threads, cross-threads, hair-lines, lines here and there, many at a glance appearing alike, but upon examination are found entirely different. Our assortment of silks is complete-china silks, china surah, plain surah, bengaline, plain, figured and changeable silks, in all the new shot effects. Full line of fancy braids to match any color of dress goods.

We find the most stylish and ....In Wraps the prevailing mode to be the Cape, in some of its variations, single, double or triple capes. Some are plain, others very highly decorated, with fancy indescent braid, butterfly colors, or some full arrangement at the neck, so much approved this season by the feminine fancy. To some, coats only are the correct garment. To those we would say costs are equally fashionable and stylish, many of these having capes also attached-sometimes one, two or three, as the taste or inclination of the wearer may desire.

We have this season, for the first time, added a Millinery Department, and have spared neither trouble nor expense to make it a success. The result exceeds our most sanguine expectations. This department will be under the same management and conducted on the same principles that have always characterized our entire business. We shall keep everything in trimmed and untrimmed hats, novelties of every description. Having secured a trimmer noted for her artistic and skillful work, we are enabled to suit all tastes. We invite a careful inspection of our entire store. All welcome.
