FIFTEEN HAPPY WOMEN.
Work Accomplished at the Montreal Benevolent Society Home.

"There is no sectional feeling about Paine's celery compound. It is found in thousands of homes in the north, the east, the south and the west. It is above party and politics."

The strong and truthful statement made a short time ago by an old physician in New York that "Paine's celery compound is life and health to thousands of sickly and suffering women," is fully and amply borne out by results obtained in the Ladies' Benevolent Society's home, Montreal.

People in every section of the world have heard of the charitable and christian work done by wealthy and philanthropic ladies of Montreal, in the noble institution just referred to, which has been in existence nearly 65 years.

A year ago it was deemed advisable to introduce Paine's celery compound into the home, as so much had been said by the physicians in favor of the great remedy. Indeed, many friends, contributors and workers for the home had themselves used Paine's celery compound and obtained astonishing benefits.

"Never in the history of this long-established institution," reads the report, "was anything received with greater demonstration of joy and thankfulness."

"Fully a score of worthy old ladies, suffering from rheumatism, nervous complaints, and other grave troubles, soon found a new life, energy, vim, and a freedom from pain."

"Above is a photograph of a group of the women benefited—as 'happy a group as can be imagined," says the letter that accompanies it, "made happy by that life invigorator, Paine's celery compound."

It is because old age to most people means debility, loss of powers of mind and body, and a growing weariness and weakness, that it is dreaded.

But there's another kind of old age now possible. One cannot defy death, but he can die peacefully.

Nature meant old age to be hale and sound, and by attending closely to the means of repair of the body, one may live according to nature, to a grand old age in the best sense. Paine's celery compound makes a good old age possible to many. Paine's celery compound is a true source of nourishment to the nervous system and through the nerves to the entire body.

POPULAR EXCURSIONS.
To the World's Fair via the Pennsylvania Railroad.

So great is the popularity of the half-rate excursions to the World's Fair that the Pennsylvania Railroad Company has decided to increase the number of trips. In pursuance of this plan popular excursions will be run August 12th, 16th, 22d, 28th, September 9th and 13th. These excursions will be run under the same conditions as those which have preceded them, and will afford everyone an opportunity of attending the World's Greatest Fair at an inconceivable cost.

A decided improvement in the train schedule, which accelerates it so as to deliver the passengers in Chicago at an early hour the following afternoon, places the special train almost on an equality in the matter of speed with the best express trains.

The special trains are composed of the standard coaches for which the Pennsylvania Railroad is famous. Only one night is passed on the road, and the arrival in Chicago is so timed as to give abundant opportunity for engaging quarters before nightfall.

The special train will leave New York 9:00 a. m., Jersey City 9:13, Newark 9:25, Elizabeth 9:32, New Brunswick 9:53, Trenton 10:23, Philadelphia 11:30, Fraser 12:09 p. m., Downingtown 12:24, Parkersburg 12:41, Coatesville 1:02, Lancaster 1:25, Conowingo 1:57, Harrisburg 3:00 p. m., arriving in Chicago early the next afternoon. The excursion rate, valid only on the special train and valid for return within ten days, is \$20.00 from New York, \$18.25 from Philadelphia, and proportionately low from other stations.

Many expressions of satisfaction have come from those who took advantage of the earlier excursions of this series.

Prominent members of the Order of Patrons of Husbandry, leading agriculturists and eminent statesmen will be in attendance to deliver addresses every day during the week. DELIGHTFUL TRIPS.

To the Ocean via the Pennsylvania Railroad.
On July 17th the second and last of the season re series of summer excursions to the ocean watering places will leave Harrisburg at 8:30 a. m., and stopping at many of the larger intermediate stations between the former place and Downingtown, arrive in Philadelphia this about noon. The special train will make connection at Lancaster, taking on passengers from points on the Frederick Division. The first excursion from this territory was accorded a most liberal patronage, which speaks well for the excellent manner with which these trips are handled by the company, and the same service will be maintained with the present one. The cheapness of the rate materially adds to the popularity of these even otherwise attractive trips. \$4.00 the round trip to Atlantic City, Ocean City, Sea Isle City or Cape May, \$4.25 to Long Beach, Asbury Park, or Ocean Grove from Harrisburg, and correspondingly low from other places at once commands attention. The tickets will be valid for return passage for six days, thereby allowing a pleasant means of refuge from the inland, sultry heat of August.

In accordance with that resolution the citizens must make application to the Borough Treasurer before August 26th, August 30th, at 6 p. m. 9-11-154

Better Late Than Never.
James Ryan, now of New Mines, Schuylkill county, but formerly of Shamokin, has received instructions from Superintendent Swigert of the Reading road to report to Superintendent Bertelette of this city at once. It is believed that the latter will appoint Mr. Ryan to a position on this division as a reward for heroic services rendered the company by him while residing here, thirteen years ago. One night while returning from work at Locust Gap Mr. Ryan discovered a big tree lying across the Reading track. He was unable to remove it and knowing that the passenger train from Pottsville would be due he hurried around the curve just in time to flag the train as it came thundering along. The train hands soon removed the tree but there is no knowing what dreadful result would have happened had not Ryan flagged the train. The officials of the road were notified of Ryan's act, but nothing ever came of it until yesterday, when he received a letter from Superintendent Swigert, requesting Ryan to report to Superintendent Bertelette.—Shamokin Herald.

ASHLAND, Pa., Aug. 19.—It has now been definitely decided that William Grammes, who died at the state hospital on Tuesday night, came to his death from injuries inflicted in a free for all fight that followed the severing of a newly married couple at Mt. Carmel on the night of the 10th. Grammes received a terrible blow on the head from a stone, and after lying in a partly unconscious condition for several days, he was brought over to the state hospital on Tuesday. Grand Display of FINE DRESS GOODS

DRESS GOODS is such a bewildering topic that we will not attempt a full description, but give a partial outline, which you can fill in by a personal inspection. There are the plain and changeable diagonals; plain, plaid, striped and invisible plaid serges; fancy mixtures in all sorts of odd weaves, dots, threads, cross-threads, hair-lines, lines here and there, many at a glance appearing alike, but upon examination are found entirely different. Our assortment of silks is complete—china silks, china surah, plain surah, bengaline, plain, figured and changeable silks, in all the new shot effects. Full line of fancy braids to match any color of dress goods.

.....In Wraps
We find the most stylish and the prevailing mode to be the Cape, in some of its variations. Some are plain, others very intricate, indeed, but all approved this season by the fashion. To those who would say costs only are the correct garment. To those we would say costs are equally fashionable and stylish, in these having cases also attached—some one, two or three, as the taste or inclination of the wearer may desire.

We have this season, for the first time, added a Millinery Department, and have spared neither trouble nor expense to make it a success. The result exceeds our most sanguine expectations. This department will be under the same management as conducted on the same principles that have always characterized our entire business. We shall keep everything in trimmed and untrimmed hats, novelties of every description. Having secured a trimmer noted for her artistic and skillful work, we are enabled to suit all tastes. We invite a careful inspection of our entire store. All welcome.
