MOTHER'S FRIEND
A remedy which if used by wives about to experience the pangs of childbirth, prevents an inflexible aspect to the labor.

New Discovery
Mayer's Magnetic Catarrh Cure is used by inhalation and is the only medicine of its kind ever put on the market.

AGAINST FREE COINAGE

Why Senator Voorhees Will Oppose the Silverites.

IT IS A PRACTICAL IMPOSSIBILITY

A Letter from Secretary Carlisle in Which is Shown That a Free Coinage Law Would Cost the Government a Hundred Million Dollars.

WASHINGTON, Aug. 21.—In an article headed "The Present Situation," the Washington Post says:

The free coinage of silver at a ratio of 30 to 1, or at any increased ratio, is practically impossible.

This is the trump card which Senator Voorhees is to play in the senate tomorrow. It is behind this barrier that he is to interpose himself. This is to be his explanation for abandoning the convictions of a lifetime; this is to be his answer to those who will quote against him his memorable speeches in the past.

This trump card has been placed in Senator Voorhees' hands by the administration. Secretary Carlisle, who, despite all assertions to the contrary, is loyal to the president to the last degree, first gave to Senator Voorhees verbally the data to make good the assertion that free coinage is impracticable. He has gone further than this and has prepared an elaborate letter which the senator will read in the senate.

In this letter, the statement is made that it will cost the government between \$119,000,000 and \$119,000,000 to carry out the provisions of Senator Vest's free coinage bill.

It is true that there is nothing in Senator Vest's bill about coinage. But it does not need a prophet's vision to know that dollars below par, which only the government is compelled to take, will drift with alarming rapidity into the treasury in payment of customs dues and accounts, and there they will remain, adding to the congestion of the currency.

Unless they can be received they will be useless as money, and if there is to be free coinage at an increased ratio some of the silver financiers in the senate must provide the secretary of the treasury with over \$100,000,000 to execute the law.

Another thing it would seem as if the silver men were involved in a situation from which it will be difficult for them to extricate themselves.

The letter of Secretary Carlisle referred to in the foregoing is as follows:

"Referring to our conversation relative to the probable cost incident to the change in the present coinage rate between gold and silver (1 to 16 for the standard silver dollars and 1 to 14.95 for subsidiary silver) at a ratio of 1 to 20, you are respectfully informed that the number of silver dollars coined since 1878 aggregates 410,337,450.

"Without any allowance for abrasion and loss incident to melting the same, the coinage value of these dollars, at a ratio of 1 to 20, would be \$33,225,192, or \$84,110,288 less than their present face value. To recoin these dollars at the ratio of 1 to 20 would require the addition of \$1,374,700 ounces of new bullion, which, at the average price paid for silver under the act of July 14, 1890, would cost \$75,883,700.

"In addition to this I estimate that there would be a loss from abrasion and in the melting of these dollars of at least \$3,000,000, which amount, together with the difference in the face value of the coins (\$84,110,288) which have to be reimbursed to the treasury by an appropriation for this purpose.

"From the fact that the silver dollars are distributed throughout the country it would be necessary, as they are redeemed at the several sub-treasuries, to transport them to the mints, and the expense of transportation for 839,000,000, the amount outside of the stock on hand at the sub-treasuries and mints at Philadelphia, San Francisco and New Orleans would average at least 1 1/2 per cent, or \$4,500,000.

ITALIANS RETALIATING.

They Threaten to Sack the French Embassy at Rome.

ROME, Aug. 21.—The anti-French agitation, started in consequence of the massacre of Italians at Algiers-Mortes, has gained ground rapidly. A mob attacked the Santa Chiara seminary of French priests, tore down the esplanade from the facade, trampled them under foot, smashed the windows and tried to force the doors. Further damage was prevented by a strong force of police. A company of police are stationed at the French embassy, as the anti-French agitators threatened to sack it. In both Milan and Turin incendiary anti-French manifestos have been issued.

BURIN, Aug. 21.—The relations between France and Italy are regarded here with considerable anxiety in view of the popular demonstration against the French in Italian cities since the massacre of Algiers-Mortes. The hostility displayed by the Italian agitators is believed to threaten very grave consequences, as it will irritate the French government just at the time when Italy is making her demands for reparation. Even the possibility of a Franco-Italian war and Germany's obligations under the triple alliance treaty in such an event are generally discussed.

TRAGEDY AT A CROSSING.

Five Instantly Killed While on Their Way to Church.

LEROY, N. Y., Aug. 21.—An accident occurred yesterday on the Lehigh Valley railroad crossing at Lake street, in which five people were instantly killed. Their names are: L. J. Boyce, Mrs. L. J. Boyce and daughter, Miss Ota Boyce; Miss Nancy Wickes, of Leroy; and Miss Emma Bowen, daughter of Rev. Samuel Bowen, of New York city. The Boyces are one of the wealthiest and most prominent families in Genesee county.

At 10 o'clock the five unfortunate started with a spirited team to drive to church. As they approached the Lehigh Valley track the east bound Lehigh Valley flyer came thundering along at a speed of nearly fifty miles an hour. Mr. Boyce did not see it until he was too close to check his horses. Mr. Boyce made a frantic effort to get across, but the engine struck the forward part of the carriage and a second later the mangled bodies of the occupants were flying through the air. All were mangled beyond recognition. Miss Boyce was decapitated.

The Long Drought Ended.
EASTON, Pa., Aug. 21.—Drouth which has existed over this section since the first week in July has been broken by a steady rain which set in Saturday night and continued until yesterday. Rivers were lower than for thirty years, springs and wells were dry and the crops threatened with destruction. The farmers were in despair, but the rain has saved them.

Thieving Bank Officers Arrested.
KANSAS CITY, Aug. 21.—President J. C. Derrach and E. C. Sattley, cashier of the defunct Kansas City Savings bank, were arrested here and put under \$5,000 bail for their appearance this afternoon. They are charged with grand larceny in receiving deposits, knowing the bank was insolvent. The liabilities are nearly \$2,000,000.

120 S. JARVIS ST., SHENANDOAH, PA.

A NARROW ESCAPE!

How it Happened.

The following remarkable event in a lady's life will interest the reader: "For a long time I had a terrible pain at my heart, which increased almost incessantly. I had no appetite and could not sleep. I would be compelled to sit up in bed and heave gas from my stomach until I thought every minute would be my last. There was a feeling of oppression about my heart, and I was afraid to draw a full breath. No relief came from without, without sitting down and resting. But, thank God, by the help of New Heart Cure all that I had to suffer has been removed. I have been using the New Heart Cure. I had taken different so-called remedies and been treated by doctors without benefit until I was both discouraged and disgusted. My husband bought me a bottle of Dr. Miles' New Heart Cure, and am loath to say I never regretted it. As I now have a splendid appetite and sleep well, I weighed 135 pounds when I began taking the remedy, and now I weigh 175. Its effect in my case has been truly marvelous. It far surpasses any other medicine I have ever taken for my ailment. I have received from physicians, Dr. Harry Starr, Potsville, Pa., October 12, 1902: 'Dr. Miles' New Heart Cure is sold on a positive guarantee by all druggists, or by the Dr. Miles Medical Co., Elkhart, Ind., on express prepaid. This great discovery by a skillful specialist in heart disease, contains neither opiates nor dangerous drugs.'

RUPTURE CAN BE CURED

A CURE GUARANTEED

THE WEEK IN CONGRESS

Six Days More of Talk on the Silver Question.

SOME LEADING ORATORS TO SPEAK

Representatives Breckenridge, Fellows, Cockran, Hymon, Wilson and Reed Will Present Their Views, and Many Others Who Wish to Talk Will be Shut Out.

WASHINGTON, Aug. 21.—The final stage of the fourteen days' debate on the silver question, which is likely to terminate with the first affirmative action in congress upon the subject which brought the body together in the heat of midsummer, was entered upon by the house of representatives at 11 o'clock today. The general debate will continue Wednesday night, and throughout the last three days of the week debate will be continued under the five minute rule. It will close by the limitation of agreement, unless the house adjourns at 12 o'clock midnight Saturday.

According to the official interpretation given by Speaker Crisp to the terms of the order under which the discussion is proceeding the house will meet at noon on Monday, the 29th inst., and proceed immediately after reading the journal to vote upon the substitute for the Wilson repeal bill, introduced by Representative Bland, involving the question of free coinage of silver at any one of several proposed ratios. It is probable that the yeas and nays will be called upon each one of the several propositions, so that it is likely to be late in the day before the vote upon the decisive question of repeal or no repeal is reached.

The debate this week promises to be of great popular interest. Mr. Breckenridge, of Kentucky, "the silver tongued orator," is looked to speak today. Representative Fellows of New York, who divides with Bourke Cockran the editorial honors of Tammany Hall, is announced for a speech tomorrow, intended as an answer in detail to that delivered in favor of free coinage of silver by Mr. Bryan, of Nebraska, last week.

Mr. Rymon, of Indiana, one of the wheel horses of the anti-silver forces, is also down for a speech tomorrow. Representative Wilson, of West Virginia, popularly slated for the chairmanship of the ways and means committee, and the author of the pending bill providing for the repeal of the purchasing clause of the Sherman law, is expected to close the general debate on Wednesday. Bourke Cockran will also speak, and ex-Speaker Reed, it is believed, will say something before the debate closes. There is a tremendous pressure exerted for place on the speaker's list, and the time will be exhausted, leaving many who must be contented with "leave to print."

It is improbable that anything will be done in the senate, save perhaps to dispose of the two election cases. There were three bills, but one—that concerning Mr. Beckwith's title to his seat by virtue of appointment of the governor of Wyoming—has been removed from the calendar because of the resignation of the appointee.

Senator Morrill has given notice that he will address the senate on the silver repeal bill, and it was understood that a vote should be taken on election cases at 5 o'clock this afternoon. The final vote however, is subject to postponement, if it shall appear that the time is not sufficient to enable Senator Vance, chairman of the committee on privileges and election, to finish his speech.

Yeas are laid down for a speech tomorrow on the silver repeal bill which bears his name, and it is hardly to be expected that he will fail to call forth interrogations and interruptions which will make the speech interesting, aside from its intrinsic merits. After tomorrow the program of the senate can scarcely be defined. The bill to increase national bank circulation is the regular order, and while there was some expectation last week that it could be disposed of in a day or two at most, it appears now that it may provoke a debate which will consume the entire week. The Butler amendment which is pending to repeal the state bank tax is one of the planks of the Chicago platform, and is a subject of much greater and more far reaching importance than the mere proposition to extend the national bank circulation contained in the bill. Senators take strong grounds on this subject, and it is fair to presume that it cannot be disposed of without a severe and prolonged struggle.

The outlook for the week is one of much talk but little achievement.

Wants to Search for Buried Treasure.
ST. LOUIS, Aug. 21.—W. A. Langworthy, of Yellville, Ark., writes to the board of directors of the Merchants' Exchange of St. Louis asking consideration for a scheme involving a search for buried treasure.

He states in brief that he knows the location, somewhere on the coast of Florida, of two chests, each containing \$1,000,000 in gold, buried in the 40's by Spanish pirates. Langworthy asks the exchange to organize a company with a capital of \$10,000 to search for this gold.

Brutally Beat His Sick Wife.
NORRISTOWN, Pa., Aug. 21.—Mrs. Ella Park, living at Harmonville, has been suffering for some time with cancer. Because her moaning interfered with his sleep her husband William, a burly butcher, who had come home intoxicated, beat her into insensibility. The brute was arrested.

Overtaken and Shot to Death.
PADUCAH, Ky., Aug. 21.—A negro tramp went to the farm of Albert Horn and asked for food. Mrs. Horn was alone and the tramp assaulted her. Her screams brought her husband from the field and the negro fled. Two possees started in pursuit and shot him to death.

White Gets the Full Penalty.
WEST CHESTER, Pa., Aug. 21.—George White, a negro from New Garden township, who pleaded guilty to an attempted assault on a 15-year-old colored girl named Frances Armstrong, was sentenced to five years in the Eastern penitentiary and a fine of \$100 and costs.

Seven Hundred Barrels of Whisky Burned.
LANCASTER, Pa., Aug. 21.—Jacob Herbert's bonded warehouse and distillery at Rome, Warwick township, was destroyed by an incendiary fire. Seven hundred barrels of whisky were destroyed and the loss will be over \$30,000.
