When the verdiet was announced she suddenly threw her head up and then fell upon her knees and her lips were seen to move as if in prayer. Her daughters Mabel and Mrs. Kelly threw their arms around her and kissed her, and the scene

was most affecting.

The formalities attending the discharge of Mrs. Shann from custody were brief and quickly over. She expressed a desire to thank the jurors, and Captain Hall arose and spoke to Judge Abbett. The latter shook his head negatively, and it was surmised that he objected to any dem-

Big Republican Gains in France. Paris, Aug. 22.—It is now known that reballots will have to be taken in 155 dis-tricts. The result of these reballots will

undoubtedly mostly be favorable to the Republicans, whose gains now reach a total of sixty-three seats. In the last general election the Boulangists returned thirty-five members. On Sunday they elected only three. The defeat of the Royalists is causing much significant comment, and it is predicted that it means the ultimate extinction of that party.

Too High Pressure.

In these days of keen competition in every line, when the business man is compelled to bend his intellect and every energy to the success of his business; the clerk, book-keeper, professional man and laborer, to drive themselves at a terrific rate, there can drive themselves at a terrific rate, there can be but one result—an explosion, which if not resulting in immediate death, leaves them with shattered brains and bodies. They are running at too high pressure. The strain is too great. Something must and does give way. This is equally true of women. Though their sphere is more limited, they have their daily burdens, frets. old worries, and the results are the same as with their stronger companions.

This condition is growing worse every day. The rapidity of its increase is awful to contemplate. Our homes, hospitals, and insure asylums are full of these unfortunates, and are being crowded still further. There is but one solution of the matter. Recogsize the Importance of the situation at once, and take the necessary measures to over-come it. TERRIBLE EXPLOSIONI THE NEW COMMITTEES.

The South Leeds in the Number of Chairmanships.

CHAIRMAN SPRINGER DISPLACED.

He Is Succeeded by William L. Wilson, of West Virginia, in the Chairmanship of the Ways and Means Committee-The Copage Committee Favors Free Silver.

WASHINGTON, Aug. 22.—The principal changes by Speaker Crisp in the chair-manships of the committees announced by him yesterday had been discounted in the public mind by the publications previously made concerning their composition The chief surprise was, therefore, or casioned by the assignment given Mr. Springer. He had generally been accorded a place at the head of the committee on foreign affairs in case of a transfer from the committee on ways and means. No one had suggested him for membership on

banking and currency,

The announcement of the list as read from the clerk's desk was the first intimation that members had of the speaker's de-termination in the matter. An intimate friend of Mr. Crisp said that he had con-sulted no one in acranging the list. The explanation of this act was the gentle-man said, that there had been so much friction occasioned two years ago that he (the speaker) preferred to make the selection without advice or assistance and assume the entire responsibility for the

In addition to the changes of the chairneu the rank and file of the committees have undergone an unusually radical change, former membership being in many cases no indication of continuance in service on that particular committee.
For instance, Messes, Cobb (Ala.) and
Paynter (Ky.) are not on the committee
of elections; and C. R. Breekenridge (Ark.)
is not on the committee on appropriations. Mr. Cannon goes to the foot of the cor mittee of which he was chairman in the Fifty-first congress, and Mr. Gear (In.) again finds himself on the committee on ways and means. After November, when Mr O'Ferrall will resign to enter upon the duties of governor of Virginia, Jacob B. Brown, of Indiana, will go to the head of

the committee on elections.
Upon sectional lines chairmanships of the following committees go to the south: Elections, ways and means, appropria-tions, judiciary, coinage, weights and measures, interstate and foreign commerce, rivers and harbors, agriculture foreign affairs, postoffices and post roads public lands, railways and canals, terri points iables, railways and canals, terri-tories, private land claims, public build-ings and grounds, levees and improve-ments of the Mississippi river, education, pensions, claims, District of Columbia, revision of laws, expenditures in the stat-department, expenditures in the war de partment, expenditures in the navy de-partment, expenditures in the postoffice department, expenditures in the interior department, expenditures in the agricultural department, expenditures on public buildings, printing, ventilation and acoustics, accounts and rules-thirty-two in all.

To the north go the following: Banking and currency, merchant, marine and fish eries, military affairs, naval affairs, Indian affairs, manufacturers, mines and mining, Pacific railroads, labor, militia, patents, invalid pensions, war claims, expenditures in the treasury department, expenditures in the department of justice, library, reform in the civil service, election of president and vice president and representatives in congress, alcoholic liquor traffic, irriga-tion of arid lands, immigration and enrolled bills-23

When Mr. Brown succeeds Mr. O'Fer-

rall the totals will be 31 and 24.
By states the chairmanships are divided as follows; Alabama, 3; Arkansas, 1; Con-necticut, 1; Georgia, 4; Illinois, 4; Indiana, 3; Kentucky, 3; Louisiana, 1; Maryland, 1; Mississippi, 2; Missouri, 3; Michigan, 1; New Jersey, 2; New York, 5; North Caro-lun, 2; Ohio, 2; Pennsylvania, 2; Rhode Pennsylvania, 2; Rhode Island. 1; South Carolina, 1; Tennessee, 3; Texas, 3; Virginia, 3; West Virginia, 2;
