## DEATH ON THE RAIL.

Fatal Accident to a Party of Excursionists.

FIFTERN MILLYD, MANY INJURED.

A Bocksway Beach Train on the Long Island Enilroad Plows Its Way Through Two Cars of a Manhattan Beach Train. Another Wreck in Connecticut.

LONG ISLAND CITY, Aug. 28.—An acciient that cost the lives of fifteen persons occurred shortly after midnight yesterday morning in the little village of Berlin, pear Calvary remetery, in the town of Newton. The Long Island railroad train that left Manhattan Beach at 11:15 o'clock was overtaken by the train that left Rock-away Beach fifteen minutes earlier. In the frightful collision that ensued the two rear cars of the five that made up the Manhattan Beach train were demolished and the middle car was overturned. Hardly one of the score of passengers aboard these three cars escaped unhurt.

George Fielding, Among the seriously injured are: John Hahn, 24 years old, Astoria, internal injuries; will recover. James Barron, 88 years, ries; will recover James Barron, 38 years, New York, scalds and internal injuries; will recover. Theodors Craeven, New York, terribly hurt, condition critical; wife believed to have been killed. Eleanor F. Craeven, 18 years, his danghter, scalds and internal injuries; will recover. Miss Chara Haskell, New York, broken ankles Horace G. Kimball, Brooklyn, spine injured. Aaron Weinstein, concussion of brain; may die. Morris Flosheim, New York, right leg broken and eye injured. James B. Thompson, 50 years, New York, head cut; will recover. Angust Jakobs son, New York, horribly hurt; will probably die. Eugene Weiss, New York, sealded. William Lynch, New York, badly hurt, but will recover. Frank Larkin, 33 years, New York, spine hurt.

kin, 33 years, New York, spine hurt. The Manhattan Beach train had been standing in the block to allow another train shead to get at a safe distance. The Rockaway Beach train came dashing along behind, ran into the same block and crushed into the rear end of the Manhattan Beach train. Both were crowded with excursionists and both were the last trains from their respective resorts. There were flye cars in the Manhattan Beach train, all of then open cars. The Rockaway train plunged in and pushed its way completely through the two rear cars and partly through the two rear cars and partly wrecked the third. Passengers in the three cars were mained and mangled hor-ribly, and their shrieks of terror and pain

the timbers of the wrecked cars slicking into it. Upon these timbers were human beings impalled, some dead and others gasping their last. High upon the top lay gasping their list. Figh upon the top lay the dead body of a man, yet unidentified. Upon one of the timbers was impaled the bely of Mrs. Oscar Dietzel. Upon another was the body of Sidney Weinstein, a boy 18 years old. The scene of the wreck was indescribably horrible. Everything was showered with the blood of the dead and wounded, and the cries of the latter rose high above the hissing of steam and the

calls of the frantic trainmen.

The Manhattan Beach train was just ame and had just begun to move. ngineer Donaldson heard and felt the ac-ident he threw open his lever and made all speed for Long Island City, leaving the wrocked cars behind him. None of the passengers or crew on this train were seriously hurt. Haberman's Tin factory stands close to the track at the scene of the ac ident. This was thrown open and some of the dead and injured were carried in there. When all the wounded had been found that could be the relief train started with them for Long Island City. 'They were met there and taken to St. John's hospital. The dead were taken by another special train to Newtown, which is nearest own to the scene of the accident.

All day long today both the morgue in

Newtown and the hospital in Long Island City have been besieged by anxlous seek-ers for missing members of their families. The scenes as some of the mangled bodies were recognized were heartrending, women fainting and men falling on their knees to

weep.
General Manager E. R. Reynolds and Superintendent W. H. Blood were at the scene. They stated that the cause of the accident was still unknown and it was a question of veracity between the tower Switchmen Nutt and Engineer Contrite, of the Rockaway train. The latter had reported that a heavy fog prevailed.

Tomorrow the report of the committee on rules, recommending the code for the government of the Fifty-third congress will be taken up and, it is believed adopted without much delay. After the rules have been adopted the program in the house is uncertain. A recess for three days may be taken, which will give mem-bers and employes an opportunity to re-cover from the unusual and exhaustive

train of the past few days.

Some Important results are probable from committee action during the week. The ways and means committee will meet tomorrow, at which time a course of pro-cedure will probably be decided upon, in cluding such matters as the approximate date when a tariff bill shall be reported. Chairman Wilson is reported to have pre-pared a bill covering the subject of tariff revision in a general way, which he will submit to the committee. There are also several other bills on the subject ready for

ommittee consideration.

On the same day the committee on banking and currency will meet, with the expectation of concinding a report upon the bill of Representative Tom L. Johnson, providing for the exchange of national THE OF REQUEST OF THE ACT OF THE bonds for currency at the demand of the holder. The committee, it is believed will favorably report the bill, with an amend-ment intended to protect the gold of the treasury from mids by those who receive currency for their bonds. Senator Gorman is set down for aspeech on the silver bill tomorrow, and it may be that he will take occasion to further ex-pound his theory of financial relief based upon the temporary suspension of the state bank tax. Senator Walcott has also announced his intention of addressing the senate on Wednesday on the subject of silver. The national bank extension bill is likely to be taken up at the first opportunity and pushed as rapidly as possible. It may be that a vote can be reached on the Cockrell amendment relative to the deposit of bonds in the treasury early in the week, but there still remains the formidable Butler amendment repealing the state bank tax. If this threatens to consume all undue amount of time it is probable the bill will be side tracked to allow Mr. Voorhees to forward discussion and action upon the repeal bill which bears

The Wilson bill is expected to reach the senate by tomorrow. It will be promptly referred to the finance committee, and from that time the committee will hold faily meetings until it is prepared to make a report to the senate. It is within the bounds of possibility that some senator may create a turmoil at some stage by endeavoring to call up the Pfeffer resolution directed at the New York banks, but this can be done only by a majority vote.
