Promptly Reported to the Senate for Action.

THE WAYS AND MEANS COMMITTEE

The Sonate Finance Committee's Bill Offered as a Substitute for the Wilson Bull-To be Considered to the Exclusion of Other Business.

WASHINGTON, Aug. 30.-The chairman of the finance committee was (as he prom-lsed to be) "very prompt" in reporting to the senate the action of committee on the house bill to repeal part of the Sherman law. As soon as the reading of Monday's journal was finished Mr. Voorbees rose and reported back that bill with an amendment in the nature of a substitute. It was placed on the calendar and will be, according to the notice given by Mr. Voorbrees, pressed for consideration, to the exclusion of other business. The sub-stitute is, word for word, the same bill that was reported by the finance commit-tee two weeks ago. The first speech against the substitute was made by Mr. Gordon (Dem., Ga.), who argued that it would delay indefinitely the repeal of the herman law, which he wanted to be immediate and unconditional.

Mr. Teller (Rep., Colo.) made a long ar-rument to show that the Sherman law had not produced the existing financial stringency. A resolution which Mr. Stew-art had offered last Monday, inquiring of the secretary of the treasury whether there will be a deficiency in the revenues of the government during the current year, was, after a long discussion, referred to the finance committee,

There was an interesting executive ses-sion of the senate, at which there was an outcropping of politics and silver. After a batch of names had been acied upon Senator Gorman, acting for the steering committee, submitted a proposition that at this extraordinary session of congress financial matters, and they alone, should receive the attention of the senate. This stirred up the silver men from the west, who at once began an assault upon the They took the ground that the session would be a long one, and stated that they would never give up their fight for silver. and prophesied that Dec. 1 would find congress still in session and discussing the unancial question. No action was taken on Mr. Gorman's suggestion.

The feature of the house proceedings was the debut of Mr. Crisp as a speaker on the floor. He was led to leave his chair by some caustic criticisms made by Mr. Reed upon the proposed code of rules, and his appearance upon the arena of debate was warmly applauded. The discussion be-tween the two leaders was very animated, but led to no conclusion. No action was taken upon the rules.

The official vote on the passage of the

Wilson bill shows Boatner (Dem., i.s.) and Capeheart (Dem., W. Va.) not voting. This makes the total; Yeas, 239; nays,

At a meeting of the ways and means committee yesterday it was decided to proceed at once with the preparation of a gen-eral tariff bill, and give hearings in the eral tariff bill, and give hearings in the course thereof to persons and parties interested. Fermal action on this latter point was not reached at the meeting of the committee, but in the interchange of opinion upon the subject, solicited by Chairman Wilson, there was no objection expressed to granting hearings. The first application for a hearing has been received from James M. Swank, manager of the American Iron and Steel association, Chairman Wilson announced the forlowing sub-committees to have charge of the several subjects named in the preparation

mi Gear.

After the adjournment of the house, at the request of a majority of the committee, Chairman Wilson yesterday afternoon issued a call for a meeting of the committee this morning, at which it is desired and expected that the question of hearings before the committee, how long they shall last, what classes of persons and interests shall be heard, etc., will be decided. The Democratic members are anxious to get to work upon a bill, so that it 'may be ready for report to the house by the date of the regular session in December or immediately after the holidays at the furthest.

The barsh criticisms that some of the news; papers see fit to indulge in are uncalled for and unjustifiable. There have been no further neaths among the injured at St. John's hospital, in Long Island Uny, and the last of the dead bodies at Skelton's undertaking establishment, at Newtown, were removed yesterday. Twenty Twe-Year-Old Colts Start in the Great Race-Galilee Second and Dobbins Third-\$65,665 the Gress Value of the Stakes.

SHEEPSHEAD BAY, Aug. 30.—Domino proved himself to be the worthy son of a moble sire by winning the great Faterity stakes from a field of nineteen competifors. He carried the top weight, too, and was delayed at the post nearly half au hour. Besides this the truck was heavy and sticky. In short it was just the day for a light weight, but he vanquished all of them, though one of them, Galtiee, gave him a hard light for over a furlong, and was only a head bahind at the finish. It was the sixth of the futurity series of

races and the best of any of thera. the richest, too, for the gross value of the stake was \$65,655. It was divided as fol-lows: \$49,150 to Domino and \$4,000 to his breeder; \$2,095.67 to Dobbins and \$1,000 to

his breeder.
The fear that a cyclone was doe and might was the track during the afternoon no doubt deterred many from going. Eight thousand would be a liberal esti-mate of the number of people who saw the mate of the mimber of people who saw the great event. The field was the largest that ever started in a Faturity race. It was composed of Galileo, Joe Ripley, Rey El Santa Aulta, Rubicon, Wermberg, Will Fonso, Fondoline, Fatality, Ameer, Prig. Domino, Hyderalad, Princess Himyar, Apparantox, Sam Lucas, Dobbins, Illusion, Jack of Sparles, Figure and Potentare. Domino was the public haverile, and though nearly every horse was well backed the bulk of public money, and as much as the bulk of public money, and as much as

T to 5, was laid against his chances.

After a delay of nearly half an hour at the post Rowe caught them all in motion lik a cavalry line, and down won't the flag and they were "off," the ends of line closed in and the lot bunched in a sort of funnel shape. Then Dobbins collider with Hyderabad and knocked Overton his lockey, to the ground, but he was not hurt seriously. Taral took Domino to the front at once, hotly pressed by Gallies, who was running like a ghost. The others were clattering at their heels like a drove of wild horses. The race was particularly JOHN B. COYLE,

between this pair.

At the head of the homestretch Galilee took the lead, and Dobbins had his head on a line with Domino's saddle girth. It looked desperate for the favorite for a mo-ment, but the greatest jockey in America was on his back, and he began riding him with all his power and skill. Heel, hand and whip were used to such advantage that in another moment Domino began wearing his leader down, regaining his lost ground. The instant he poked his nose in front of Galilee a great shout went up. In the last furiong Griffin used every endeavor to keep Galilee in the van, but it was a liliputian against a giant, and Taral outrode bath McDermott and Griffin, and M. S. KDSTLER, M.
